General Regulations of the Universal Postal Union

(amended by the First Additional Protocol of the 24th Congress – 2008)

The undersigned plenipotentiaries of the Governments of member countries of the Union, having regard to article 22.2, of the Constitution of the Universal Postal Union, concluded at Vienna on 10 July 1964, have, by common consent, and subject to article 25.4, of the Constitution, drawn up in these General Regulations the following provisions securing the application of the Constitution and the functioning of the Union.

Chapter I

Functioning of the Union's bodies

Article 101

Organization and convening of Congresses and Extraordinary Congresses (Const. 14, 15)

1 The representatives of member countries shall meet in Congress not later than four years after the end of the year during which the preceding Congress took place.

2 Each member country shall arrange for its representation at Congress by one or more plenipotentiaries furnished by their Government with the necessary powers. It may, if need be, arrange to be represented by the delegation of another member country. Nevertheless it shall be understood that a delegation may represent only one member country other than its own.

3 In debates, each member country shall be entitled to one vote, subject to the sanctions provided for in article 129.

4 In principle, each Congress shall designate the country in which the next Congress will be held. If that designation proves inapplicable, the Council of Administration shall be authorized to designate the country where Congress is to meet, after consultation with the latter country.

5 After consultation with the International Bureau, the host Government shall fix the definitive date and the precise locality of Congress. In principle one year before that date the host Government shall send an invitation to the Government of each member country of the Union. This invitation may be sent direct or through the intermediary of another Government or through the Director General of the International Bureau.

6 When a Congress has to be convened without a host Government, the International Bureau, with the agreement of the Council of Administration and after consultation with the Government of the Swiss Confederation, shall take the necessary steps to convene and organize the Congress in the country in which the seat of the Union is situated. In this event the International Bureau shall perform the functions of the host Government.

7 The meeting place of an Extraordinary Congress shall be fixed, after consultation with the International Bureau, by the member countries which have initiated that Congress.

8 Paragraphs 2 to 6 shall be applicable by analogy to Extraordinary Congresses.

Article 101bis

Functions of Congress

1 **On the basis of proposals by member countries, the Council of Administration and the Postal Operations Council, Congress shall:**

- 1.1 **determine the general policies for achieving the object and purpose of the Union set out in the Preamble and article 1 of the Constitution;**
- 1.2 **consider and adopt, where appropriate, proposals for amendments to the Constitution, General Regulations, Convention and Agreements submitted by member countries and the Councils, in accordance with article 29 of the Constitution and article 122 of the General Regulations;**
- 1.3 **set the date for the entry into force of the Acts;**
- 1.4 **adopt its Rules of Procedure and the amendments to those Rules;**
- 1.5 **consider the comprehensive reports on the work of the Council of Administration, the Postal Operations Council and the Consultative Committee, covering the period from the previous Congress, presented by these respective bodies in accordance with articles 103, 105 and 107 of the General Regulations;**
- 1.6 **adopt the Union's strategy;**
- 1.7 **fix the maximum amount of the Union's expenditure in accordance with article 21 of the Constitution;**
- 1.8 **elect the member countries to sit on the Council of Administration and the Postal Operations Council;**
- 1.9 **elect the Director General and Deputy Director General;**
- 1.10 **set in a resolution the ceiling of the costs to be borne by the Union for the production of documents in Chinese, German, Portuguese and Russian.**

2 **Congress, as the supreme body of the Union, shall deal with such other questions concerning postal services.**

Article 102

Composition, functioning and meetings of the Council of Administration (Const 17)

1 The Council of Administration shall consist of forty-one members who shall exercise their functions during the period between two successive Congresses.

2 The chairmanship shall devolve by right on the host **member** country of Congress. If that **member** country waives this right, it shall become a de jure member and, as a result, the geographical group to which it belongs shall have at its disposal an additional seat, to which the restrictive provisions of paragraph 3 shall not apply. In that case, the Council of Administration shall elect to the chairmanship one of the member countries belonging to the geographical group of the host **member** country.

3 The forty other members of the Council of Administration shall be elected by Congress on the basis of an equitable geographical distribution. At least a half of the membership shall be renewed at each Congress; no member may be chosen by three successive Congresses.

4 Each member of the Council of Administration shall appoint its representative, who shall be competent in postal matters.

5 The office of member of the Council of Administration shall be unpaid. The operational expenses of this Council shall be borne by the Union.

6 The Council of Administration shall have the following functions:

- 6.1 to supervise the activities of the Union between Congresses, ensuring compliance with the decisions of Congress, studying questions with respect to governmental policies on postal issues, and taking account of international regulatory developments such as those relating to trade in services and to competition;
- 6.2 to consider and approve, within the framework of its competence, any action considered necessary to safeguard and enhance the quality of and to modernize the international postal service;
- 6.3 to promote, coordinate and supervise all forms of postal technical assistance within the framework of international technical cooperation;
- 6.4 to consider and approve the biennial **Programme and Budget** and the accounts of the Union;
- 6.5 to authorize the ceiling of expenditure to be exceeded, if circumstances so require, in accordance with article 128.3 to 5;
- 6.6 to lay down the Financial Regulations of the **Union**;
- 6.7 to lay down the rules governing the Reserve Fund;
- 6.8 to lay down the rules governing the Special Fund;
- 6.9 to lay down the rules governing the Special Activities Fund;
- 6.10 to lay down the rules governing the Voluntary Fund;
- 6.11 to provide control over the activities of the International Bureau;
- 6.12 to authorize election of a lower contribution class, if it is so requested, in accordance with the conditions set out in article 130.6;
- 6.13 to authorize a change of geographical group if it is so requested **by a member country**, taking into account the views expressed by the **member** countries which are members of the geographical groups concerned;
- 6.14 to lay down the Staff Regulations and the conditions of service of the elected officials;
- 6.15 to create or abolish International Bureau posts taking into account the restrictions imposed by the expenditure ceiling fixed;
- 6.16 to lay down the Regulations of the Social Fund;
- 6.17 to approve the biennial report on the work of the Union and the biennial Financial Operating Reports prepared by the International Bureau and where appropriate to furnish observations on them;
- 6.18 to decide on the contacts to be established with **member countries** in order to carry out its functions;
- 6.19 after consulting the Postal Operations Council, to decide on the contacts to be established with the organizations which are not de jure observers, to consider and approve the reports by the International Bureau on UPU relations with other international bodies and to take the decisions which it considers appropriate on the conduct of such relations and the action to be taken on them; to designate in due course, after consulting the Postal Operations Council and the Secretary General, the international organizations, associations, enterprises and qualified persons to be invited to be represented at specific

- meetings of Congress and its Committees when this is in the interest of the Union or the work of Congress and to instruct the Director General to issue the necessary invitations;
- 6.20 to establish principles, as may be considered necessary, for the Postal Operations Council to take into account in its study of questions with major financial repercussions (charges, terminal dues, transit charges, basic airmail conveyance rates and the posting abroad of letter-post items), to follow closely the study of these questions, and to review and approve, for conformity with the aforementioned principles, Postal Operations Council proposals relating to these questions;
- 6.21 to study, at the request of Congress, the Postal Operations Council or **member countries**, administrative, legislative and legal problems concerning the Union or the international postal service; it shall be for the Council of Administration to decide, in the above-mentioned fields, whether it is expedient to undertake the studies requested by **member countries** between Congresses;
- 6.22 to formulate proposals which shall be submitted for the approval either of Congress or of **member countries** in accordance with article 125;
- 6.23 to approve, within the framework of its competence, the recommendations of the Postal Operations Council for the adoption, if necessary, of regulations or of a new procedure until such time as Congress takes a decision in the matter;
- 6.24 to consider the annual report prepared by the Postal Operations Council and any proposals submitted by the Council;
- 6.25 to submit subjects for study to the Postal Operations Council for examination in accordance with article 104.9.16;
- 6.26 to designate the **member** country where the next Congress is to be held in the case provided for in article 101.4;
- 6.27 to determine in due course and after consulting the Postal Operations Council, the number of Committees required to carry out the work of Congress and to specify their functions;
- 6.28 to designate, after consulting the Postal Operations Council and subject to the approval of Congress, the member countries prepared:
- to assume the vice-chairmanships of Congress and the chairman-ships and vice-chairmanships of the Committees, taking as much account as possible of the equitable geographical distribution of the member countries; and
 - to sit on the restricted Committees of Congress;
- 6.29 to review and approve, **in consultation with the Postal Operations Council**, the draft **Strategy** for presentation to Congress ;
- 6.30 to approve the four-yearly report, prepared by the International Bureau in consultation with the POC, on the performance of member countries in respect of the execution of the Union Strategy approved by the preceding Congress, for submission to the following Congress;**
- 6.31 to establish the framework for the organization of the Consultative Committee and concur in the organization of the Consultative Committee in accordance with the provisions of article 106;
- 6.32 to establish criteria for membership of the Consultative Committee and to approve or reject applications for membership in accordance with those criteria, ensuring that action on the applications is accomplished through an expedited process between meetings of the Council of Administration;
- 6.33 to designate **those of its** members that will serve as members of the Consultative Committee;

6.34 to receive and discuss reports and recommendations from the Consultative Committee and to consider recommendations from the Consultative Committee for submission to Congress.

7 At its first meeting, which shall be convened by the Chairman of Congress, the Council of Administration shall elect four Vice-Chairmen from among its members and draw up its Rules of Procedure.

8 On convocation by its Chairman, the Council of Administration shall meet in principle once a year, at Union headquarters.

9 The Chairman, the Vice-Chairmen and the Committee Chairmen of the Council of Administration shall form the Management Committee. This Committee shall prepare and direct the work of each session of the Council of Administration. It shall approve, on behalf of the Council of Administration, the biennial report prepared by the International Bureau on the work of the Union and it shall take on any other task which the Council of Administration decides to assign to it or the need for which arises in the course of the strategic planning process.

10 The **travel expenses of the** representative of each of the members of the Council of Administration participating in its meetings **shall be borne by his member country. However, the representative of each of the member countries classified as developing or least developed countries according to the lists established by the United Nations shall, except for meetings which take place during Congress,** be entitled to reimbursement of the cost of either an economy class return air ticket or first class return rail ticket, or expenses incurred for travel by any other means, subject to the condition that the amount does not exceed the price of the economy class return **air** ticket. The same entitlement shall be granted to each member of its Committees, Working Parties or other bodies when these meet outside Congress and the sessions of the Council.

11 The Chairman of the Postal Operations Council shall represent that body at meetings of the Council of Administration on the agenda of which there are questions of interest to the body which he directs.

12 The Chairman of the Consultative Committee shall represent it at meetings of the Council of Administration when the agenda contains questions of interest to the Consultative Committee.

13 To ensure effective liaison between the work of the two bodies, the Postal Operations Council may designate representatives to attend Council of Administration meetings as observers.

14 The **member** country in which the Council of Administration meets shall be invited to take part in the meetings in the capacity of observer, if **it** is not a member of the Council of Administration.

15 The Council of Administration may invite any international body, any representative of an association or enterprise, or any qualified person whom it wishes to associate with its work to its meetings, without the right to vote. It may also invite, under the same conditions, one or more member countries concerned with questions on its agenda.

16 If they so request, the following observers may participate in the plenary sessions and Committee meetings of the Council of Administration, without the right to vote:

- 16.1 members of the Postal Operations Council;
- 16.2 members of the Consultative Committee;
- 16.3 intergovernmental organizations interested in the work of the Council of Administration;
- 16.4 other member countries of the Union.

17 For logistical reasons, the Council of Administration may limit the number of attendees per observer participating. It may also limit their right to speak during the debates.

18 The members of the Council of Administration shall take an active part in its work. Observers may, at their request, be allowed to cooperate in the studies undertaken, subject to such conditions as the Council may establish to ensure the efficiency and effectiveness of its work. They may also be invited to chair Working Parties and Project Teams when their experience or expertise justifies it. The participation of observers shall be carried out without additional expense for the Union.

19 In exceptional circumstances, observers may be excluded from a meeting or a portion of a meeting or may have their right to receive documents restricted if the confidentiality of the subject of the meeting or document so requires. This restriction may be decided on a case-by-case basis by any body concerned or its Chair. The aforementioned periods shall be reckoned from the dates of the International Bureau circulars.

2 Proposals for amending the Regulations shall be dealt with by the Postal Operations Council.

3 If the proposal relates to an Agreement or its Final Protocol, only the member countries which are parties to that Agreement may take part in the procedure described in paragraph 1.

Article 126

Notification of decisions adopted between Congresses (Const. 29; Gen. Regs 124, 125)

1 Amendments made to the Convention, the Agreements and the Final Protocols to those Acts shall be sanctioned by notification thereof to the governments of member countries by the Director General of the International Bureau.

2 Amendments made to the Regulations and their Final Protocols by the Postal Operations Council shall be communicated to **member countries and their designated operators** by the International Bureau. The same shall apply to the interpretations referred to in article 36.3.2 of the Convention and in the corresponding provisions of the Agreements.

Article 127

Entry into force of the Regulations and of the other decisions adopted between Congresses

1 The Regulations shall come into force on the same date and shall have the same duration as the Acts laid down by Congress.

2 Subject to paragraph 1, decisions on amending the Acts of the Union which are adopted between Congresses shall not take effect until at least three months after their notification.

Chapter IV

Finance

Article 128

Fixing and regulation of the expenditure of the Union (Const 22)

1 Subject to the provisions of paragraphs 2 to 6, the annual expenditure relating to the activities of bodies of the Union may not exceed the following sums for **2009** and subsequent years: 37,000,000 Swiss francs for the years **2009 and 2010, and 37,235,000 Swiss francs for the years 2011 and 2012**. The basic limit for **2012** shall also apply to the following years in case the Congress scheduled for **2012** is postponed.

2 The expenditure relating to the convening of the next Congress (travelling expenses of the secretariat, transport charges, cost of installing simultaneous interpretation equipment, cost of reproducing documents during the Congress, etc.) shall not exceed the limit of 2,900,000 Swiss francs.

3 The Council of Administration shall be authorized to exceed the limits laid down in paragraphs 1 and 2 to take account of increases in salary scales, pension contributions or allowances, including post adjustments, approved by the United Nations for application to its staff working in Geneva.

4 The Council of Administration shall also be authorized to adjust, each year, the amount of expenditure other than that relating to staff on the basis of the Swiss consumer price index.

5 Notwithstanding paragraph 1, the Council of Administration, or in case of extreme urgency, the Director General, may authorize the prescribed limits to be exceeded to meet the cost of major and unforeseen repairs to the International Bureau building, provided however that the amount of the increase does not exceed 125,000 Swiss francs per annum.

6 If the credits authorized in paragraphs 1 and 2 prove inadequate to ensure the smooth running of the Union, these limits may only be exceeded with the approval of the majority of the member countries of the Union. Any consultation shall include a complete description of the facts justifying such a request.

7 Countries which accede to the Union or are admitted to the status of members of the Union as well as those which leave the Union shall pay their contributions for the whole of the year during which their admission or withdrawal becomes effective.

8 Member countries shall pay their contributions to the Union's annual expenditure in advance on the basis of the budget laid down by the Council of Administration. These contributions shall be paid not later than the first day of the financial year to which the budget refers. After that date, the sums due shall be chargeable with interest in favour of the Union at the rate of 6% per annum from the **fourth** month.

9 Where the arrears of mandatory contributions, not including interest, owed to the Union by a member country are equal to or more than the amount of the contributions of that member country for the preceding two financial years, such member country may irrevocably assign to the Union all or part of the credits owed it by other member countries, in accordance with the arrangements laid down by the Council of Administration. The conditions of this assignment of credit shall be determined by agreement reached between the member country, its debtors/creditors and the Union.

10 A member country which, for legal or other reasons, cannot make such assignment shall undertake to conclude a schedule for the amortization of its arrears.

11 Other than in exceptional circumstances, recovery of arrears of mandatory contributions owed to the Union may not extend over more than ten years.

12 In exceptional circumstances, the Council of Administration may release a member country from all or part of the interest owed if that country has paid the full capital amount of its debts in arrears.

13 A member country may also be released, within the framework of an amortization schedule approved by the Council of Administration for its accounts in arrears, from all or part of the interest accumulated or to accrue; such release shall, however, be subject to the full and punctual execution of the amortization schedule within an agreed period of ten years at most.

14 To cover shortfalls in Union financing, a Reserve Fund shall be established the amount of which shall be fixed by the Council of Administration. This Fund shall be maintained primarily from budget surpluses. It may also be used to balance the budget or to reduce the amount of member countries' contributions.

15 As regards temporary financing shortfalls, the Government of the Swiss Confederation shall make the necessary short-term advances, on conditions which are to be fixed by mutual agreement. That Government shall supervise, without charge, book-keeping and accounting of the International Bureau within the limits of the credits fixed by Congress.

16 The provisions under paragraphs 9, 10, 11, 12 and 13 apply by analogy to the translation costs billed by the International Bureau to member countries belonging to the language groups.

Article 129

Automatic sanctions

1 Any member country unable to make the assignment provided for in article 128.9 and which does not agree to submit to an amortization schedule proposed by the International Bureau in accordance with article 128.10, or which does not comply with such a schedule shall automatically lose its right to vote at Congress and at meetings of the Council of Administration and the Postal Operations Council and shall no longer be eligible for membership of these two Councils.

2 Automatic sanctions shall be lifted as a matter of course and with immediate effect as soon as the member country concerned has paid its arrears of mandatory contributions owed to the Union, in capital and interest, or has agreed to submit to a schedule for the amortization of the arrears.

Article 130

Contribution classes (Const 21; Gen Regs 115, 128)

1 Member countries shall contribute to defraying Union expenses according to the contribution class to which they belong. These classes shall be the following:

class of 50 units;
class of 45 units;
class of 40 units;
class of 35 units;
class of 30 units;
class of 25 units;
class of 20 units;
class of 15 units;
class of 10 units;
class of 5 units;
class of 3 units;
class of 1 unit;

class of 0.5 unit, reserved for the least advanced countries as listed by the United Nations and for other countries designated by the Council of Administration.

2 Notwithstanding the contribution classes listed in paragraph 1, any member country may elect to contribute **a higher number of units than that corresponding to the contribution class to which it belongs, for a minimum term equivalent to the period between Congresses. The announcement of a change shall be made at the latest at Congress. At the end of the period between Congresses, the member country shall return automatically to its original number of contribution units unless it decides to maintain its contribution of a higher number of units. The payment of additional contributions shall increase the expenditure accordingly.**

3 Member countries shall be included in one of the above-mentioned contribution classes upon their admission or accession to the Union in accordance with the procedure laid down in article 21.4 of the Constitution.

4 Member countries may subsequently **be placed in a lower** contribution class, on condition that the change **request is sent** to the International Bureau at least two months before the opening of Congress. **Congress shall give a non-binding opinion on these requests for a change in contribution class. The member country shall be free to decide whether to follow the opinion of Congress. The final decision of the member country shall be transmitted to the International Bureau Secretariat before the end of Congress.** This **change request** shall take effect on the date of the entry into force of the financial provisions drawn up by Congress.

Member countries that have not made known their wish to change contribution class within the required time shall remain in the class to which they belonged up to that time.

5 Member countries may not insist on being lowered more than one class at a time.

6 Nevertheless, in exceptional circumstances such as natural disasters necessitating international aid programmes, the Council of Administration may authorize a temporary reduction in contribution class once between two Congresses when so requested by a member country if the said member establishes that it can no longer maintain its contribution at the class originally chosen. In the same circumstances, the Council of Administration may also authorize a temporary reduction for the non-least developed countries already in the class of 1 unit by placing them in the class of 0.5 unit.

7 The temporary reduction in contribution class in application of paragraph 6 may be authorized by the Council of Administration for a maximum period of two years or up to the next Congress, whichever is earlier. On expiry of the specified period, the country concerned shall automatically revert to its original contribution class.

8 Notwithstanding paragraphs 4 and 5, changes to a higher class shall not be subject to any restriction.

Article 131

Payment for supplies from the International Bureau (Gen Regs 118)

Supplies provided by the International Bureau to **member countries and their designated operators** against payment shall be paid for in the shortest possible time and at the latest within six months from the first day of the month following that in which the account is sent by the Bureau. After that period the sums due shall be chargeable with interest in favour of the Union at the rate of 5% per annum reckoned from the date of expiry of that period.

Chapter V

Arbitration

Article 132

Arbitration procedure (Const 32)

1 If a dispute has to be settled by arbitration, each of the **member countries** party to the case shall select a member country not directly involved in the dispute. When several **member countries** make common cause, they shall count only as a single **member country** for the purposes of this provision.

2 If one of the **member countries** party to the case does not act on a proposal for arbitration within a period of six months **from the date of its sending**, the International Bureau, if so requested, shall itself call upon the defaulting **member country** to appoint an arbitrator or shall itself appoint one ex officio.

3 The parties to the case may agree to appoint a single arbitrator which may be the International Bureau.

4 The decision of the arbitrators shall be taken by a majority of votes.

5 In the event of a tie the arbitrators shall select another **member country**, not involved in the dispute either, to settle the matter. Should they fail to agree on the choice, this **member country** shall be appointed by the International Bureau from among **member countries** not proposed by the arbitrators.

6 If the dispute concerns one of the Agreements, the arbitrators may be appointed only from among the **member countries** that are parties to that Agreement.

7 **If a dispute has to be settled by arbitration between designated operators, the operators concerned shall ask their member countries to act in accordance with the procedure provided for in paragraphs 1 to 6.**

Chapter VI

Final provisions

Article 133

Conditions for approval of proposals concerning the General Regulations

To become effective, proposals submitted to Congress relating to these General Regulations shall be approved by a majority of the member countries represented at Congress and having the right to vote. At least two thirds of the member countries of the Union having the right to vote shall be present at the time of voting.

Article 134

Proposals concerning the Agreements with the United Nations (Const. 9)

The conditions of approval referred to in article 133 shall apply equally to proposals designed to amend the Agreements concluded between the Universal Postal Union and the United Nations, in so far as those Agreements do not lay down conditions for the amendment of the provisions they contain.

Article 135

Amendment, entry into force and duration of the General Regulations

Amendments adopted by a Congress shall form the subject of an additional protocol and, unless that Congress decides otherwise, shall enter into force at the same time as the Acts renewed in the course of the same Congress.

These General Regulations shall come into force on 1 January 2006 and shall remain in force for an indefinite period.

In witness whereof the plenipotentiaries of the Governments of the member countries have signed these General Regulations in a single original which shall be deposited with the Director General of the International Bureau. A copy thereof shall be delivered to each party by the International Bureau of the Universal Postal Union.

1 The Council of Administration shall consist of forty-one members who shall exercise their functions during the period between two successive Congresses.

2 The chairmanship shall devolve by right on the host **member** country of Congress. If that **member** country waives this right, it shall become a de jure member and, as a result, the geographical group to which it belongs shall have at its disposal an additional seat, to which the restrictive provisions of paragraph 3 shall not apply. In that case, the Council of Administration shall elect to the chairmanship one of the member countries belonging to the geographical group of the host **member** country.

3 The forty other members of the Council of Administration shall be elected by Congress on the basis of an equitable geographical distribution. At least a half of the membership shall be renewed at each Congress; no member may be chosen by three successive Congresses.

However, the representative of each of the member countries classified as developing or least developed countries according to the lists established by the United Nations shall, except for meetings which take place during Congress,** be entitled to reimbursement of the cost of either an economy class return air ticket or first class return rail ticket, or expenses incurred for travel by any other means, subject to the condition that the amount does not exceed the price of the economy class return **air** ticket. The same entitlement shall be granted to each member of its Committees, Working Parties or other bodies when these meet outside Congress and the sessions of the Council.

11 The Chairman of the Postal Operations Council shall represent that body at meetings of the Council of Administration on the agenda of which there are questions of interest to the body which he directs.

15 The Council of Administration may invite any international body, any representative of an association or enterprise, or any qualified person whom it wishes to associate with its work to its meetings, without the right to vote. 19 In exceptional circumstances, observers may be excluded from a meeting or a portion of a meeting or may have their right to receive documents restricted if the confidentiality of the subject of the meeting or document so requires. This restriction may be decided on a case-by-case basis by any body concerned or its Chair. The case-by-case situations shall be reported to the Council of Administration and to the Postal Operations Council when matters of interest to the Postal Operations Council are concerned. This restriction may be decided on a case-by-case basis by any body concerned or its Chair. The case-by-case situations shall be reported to the Council of Administration and to the Postal Operations Council when matters of interest to the Postal Operations Council are concerned. Languages used for documentation, for debates and for official correspondence

1 For the documentation of the Union, the French, English, Arabic and Spanish languages shall be used. The Chinese, German, Portuguese and Russian languages shall also be used provided that only the most important basic documentation is produced in these languages. Other languages may also be used on condition that the member countries which have made the request shall bear all of the costs involved.

2 The member country or countries which have requested a language other than the official language constitute a language group.

3 Documentation shall be published by the International Bureau in the official language and in the languages of the duly constituted language groups, either directly or through the intermediary of the regional offices of those groups in conformity with the procedures agreed with the International Bureau. The member countries using the official language shall pay, in respect of the translation of non-official documents, a lump-sum contribution, the amount of which per contribution unit shall be the same as that borne by the member countries using the other International Bureau working language. All other costs involved in the supply of documents shall be borne by the Union. The ceiling of the costs to be borne by the Union for the production of documents in Chinese, German, Portuguese and Russian shall be fixed by a Congress resolution.

7 The costs to be borne by a language group shall be divided among the members of that group in proportion to their contributions to the expenses of the Union. These costs may be divided among the members of the language group according to another system, provided that the

9 For the discussions at meetings of the Union's bodies, the French, English, Spanish and Russian languages shall be admissible, by means of a system of interpretation – with or without electronic equipment – the choice being left to the judgment of the organizers of the meeting after consultation with the Director General of the International Bureau and the member countries concerned.

10 Other languages shall likewise be admissible for the discussions and meetings mentioned in paragraph 9.

11 Delegations using other languages shall arrange for simultaneous interpretation into one of the languages mentioned in paragraph 9, either by the system indicated in the same paragraph, when the necessary technical modifications can be made, or by individual interpreters.

12 The costs of the interpretation services shall be shared among the member countries using the same language in proportion to their contributions to the expenses of the Union. However, the costs of installing and maintaining the technical equipment shall be borne by the Union.

13 **Member countries and/or their designated operators** may come to an understanding about the language to be used for official correspondence in their relations with one another. In the absence of such an understanding the language to be used shall be French

1 Every proposal concerning the Convention, the Agreements and their Final Protocols shall be subject to the following procedure: where a member country has sent a proposal to the International Bureau, the latter shall forward it to all member countries for examination. They shall be allowed a period of two months in which to examine the proposal and forward any observations to the International Bureau. Amendments shall not be admissible. Once these two months have elapsed, the International Bureau shall forward to member countries all the observations it has received and invite each member country to vote for or against the proposal. **Member** countries that have not sent in their vote within a period of two months shall be considered to have abstained. The aforementioned periods shall be reckoned from the dates of the International Bureau circulars.

Article XX

(Article 128 amended)

Fixing and regulation of the expenditure of the Union (Const 22)

1 Subject to the provisions of paragraphs 2 to 6, the annual expenditure relating to the activities of bodies of the Union may not exceed the following sums for **2009** and subsequent years: 37,000,000 Swiss francs for the years **2009 and 2010, and 37,235,000 Swiss francs for the years 2011 and 2012**. The basic limit for **2012** shall also apply to the following years in case the Congress scheduled for **2012** is postponed.

2 The expenditure relating to the convening of the next Congress (travelling expenses of the secretariat, transport charges, cost of installing simultaneous interpretation equipment, cost of reproducing documents during the Congress, etc.) shall not exceed the limit of 2,900,000 Swiss francs.

3 The Council of Administration shall be authorized to exceed the limits laid down in paragraphs 1 and 2 to take account of increases in salary scales, pension contributions or allowances, including post adjustments, approved by the United Nations for application to its staff working in Geneva.

4 The Council of Administration shall also be authorized to adjust, each year, the amount of expenditure other than that relating to staff on the basis of the Swiss consumer price index.

5 Notwithstanding paragraph 1, the Council of Administration, or in case of extreme urgency, the Director General, may authorize the prescribed limits to be exceeded to meet the cost of major and unforeseen repairs to the International Bureau building, provided however that the amount of the increase does not exceed 125,000 Swiss francs per annum.

6 If the credits authorized in paragraphs 1 and 2 prove inadequate to ensure the smooth running of the Union, these limits may only be exceeded with the approval of the majority of the member countries of the Union. Any consultation shall include a complete description of the facts justifying such a request.

7 Countries which accede to the Union or are admitted to the status of members of the Union as well as those which leave the Union shall pay their contributions for the whole of the year during which their admission or withdrawal becomes effective.

8 Member countries shall pay their contributions to the Union's annual expenditure in advance on the basis of the budget laid down by the Council of Administration. These contributions shall be paid not later than the first day of the financial year to which the budget refers. After that date, the sums due shall be chargeable with interest in favour of the Union at the rate of 6% per annum from the **fourth** month.

9 Where the arrears of mandatory contributions, not including interest, owed to the Union by a member country are equal to or more than the amount of the contributions of that member country for the preceding two financial years, such member country may irrevocably assign to the Union all or part of the credits owed it by other member countries, in accordance with the arrangements laid down by the Council of Administration. The conditions of this assignment of credit shall be determined by agreement reached between the member country, its debtors/creditors and the Union.

10 A member country which, for legal or other reasons, cannot make such assignment shall undertake to conclude a schedule for the amortization of its arrears.

11 Other than in exceptional circumstances, recovery of arrears of mandatory contributions owed to the Union may not extend over more than ten years.

12 In exceptional circumstances, the Council of Administration may release a member country from all or part of the interest owed if that country has paid the full capital amount of its debts in arrears.

13 A member country may also be released, within the framework of an amortization schedule approved by the Council of Administration for its accounts in arrears, from all or part of the interest accumulated or to accrue; such release shall, however, be subject to the full and punctual execution of the amortization schedule within an agreed period of ten years at most.

14 To cover shortfalls in Union financing, a Reserve Fund shall be established the amount of which shall be fixed by the Council of Administration. This Fund shall be maintained primarily from budget surpluses. It may also be used to balance the budget or to reduce the amount of member countries' contributions.

15 As regards temporary financing shortfalls, the Government of the Swiss Confederation shall make the necessary short-term advances, on conditions which are to be fixed by mutual agreement. That Government shall supervise, without charge, book-keeping and accounting of the International Bureau within the limits of the credits fixed by Congress.

16 The provisions under paragraphs 9, 10, 11, 12 and 13 apply by analogy to the translation costs billed by the International Bureau to member countries belonging to the language groups.

Article XXI

(Article 130 amended)

Contribution classes (Const 21; Gen Regs 115, 128)

1 Member countries shall contribute to defraying Union expenses according to the contribution class to which they belong. These classes shall be the following:

- class of 50 units;
- class of 45 units;
- class of 40 units;
- class of 35 units;
- class of 30 units;
- class of 25 units;
- class of 20 units;
- class of 15 units;
- class of 10 units;
- class of 5 units;
- class of 3 units;
- class of 1 unit;

class of 0.5 unit, reserved for the least advanced countries as listed by the United Nations and for other countries designated by the Council of Administration.

2 Notwithstanding the contribution classes listed in paragraph 1, any member country may elect to contribute **a higher number of units than that corresponding to the contribution class to which it belongs, for a minimum term equivalent to the period between Congresses. The announcement of a change shall be made at the latest at Congress. At the end of the period between Congresses, the member country shall return automatically to its original number of contribution units unless it decides to maintain its contribution of a higher number of units. The payment of additional contributions shall increase the expenditure accordingly.**

3 Member countries shall be included in one of the above-mentioned contribution classes upon their admission or accession to the Union in accordance with the procedure laid down in article 21.4 of the Constitution.

4 Member countries may subsequently **be placed in a lower** contribution class, on condition that the change **request** is **sent** to the International Bureau at least two months before the opening of Congress. **Congress shall give a non-binding opinion on these requests for a change in contribution class. The member country shall be free to decide whether to follow the opinion of Congress. The final decision of the member country shall be transmitted to the International Bureau Secretariat before the end of Congress.** This **change request** shall take effect on the date of the entry into force of the financial provisions drawn up by Congress. Member countries that have not made known their wish to change contribution class within the required time shall remain in the class to which they belonged up to that time.

5 Member countries may not insist on being lowered more than one class at a time.

6 Nevertheless, in exceptional circumstances such as natural disasters necessitating international aid programmes, the Council of Administration may authorize a temporary reduction in contribution class once between two Congresses when so requested by a member country if the said member establishes that it can no longer maintain its contribution at the class originally chosen. In the same circumstances, the Council of Administration may also authorize a temporary reduction for the non-least developed countries already in the class of 1 unit by placing them in the class of 0.5 unit.

7 The temporary reduction in contribution class in application of paragraph 6 may be authorized by the Council of Administration for a maximum period of two years or up to the next Congress, whichever is earlier. On expiry of the specified period, the country concerned shall automatically revert to its original contribution class.

8 Notwithstanding paragraphs 4 and 5, changes to a higher class shall not be subject to any restriction.

Article XXII

(Article 131 amended)

Payment for supplies from the International Bureau (Gen Regs 118)

Supplies provided by the International Bureau to **member countries and their designated operators** against payment shall be paid for in the shortest possible time and at the latest within six months from the first day of the month following that in which the account is sent by the Bureau. After that period the sums due shall be chargeable with interest in favour of the Union at the rate of 5% per annum reckoned from the date of expiry of that period.

Article XXIII

(Article 132 amended)

Arbitration procedure (Const 32)

1 If a dispute has to be settled by arbitration, each of the **member countries** party to the case shall select a member country not directly involved in the dispute. When several **member countries** make common cause, they shall count only as a single **member country** for the purposes of this provision.

2 If one of the **member countries** party to the case does not act on a proposal for arbitration within a period of six months **from the date of its sending**, the International Bureau, if so requested, shall itself call upon the defaulting **member country** to appoint an arbitrator or shall itself appoint one ex officio.

3 The parties to the case may agree to appoint a single arbitrator which may be the International Bureau.

4 The decision of the arbitrators shall be taken by a majority of votes.

5 In the event of a tie the arbitrators shall select another **member country**, not involved in the dispute either, to settle the matter. Should they fail to agree on the choice, this **member country** shall be appointed by the International Bureau from among **member countries** not proposed by the arbitrators.

6 If the dispute concerns one of the Agreements, the arbitrators may be appointed only from among the **member countries** that are parties to that Agreement.

7 If a dispute has to be settled by arbitration between designated operators, the operators concerned shall ask their member countries to act in accordance with the procedure provided for in paragraphs 1 to 6.

These General Regulations shall come into force on 1 January 2006 and shall remain in force for an indefinite period.

A copy thereof shall be delivered to each party by the International Bureau of the Universal Postal Union.

- 2 The signature of these Acts should not be construed as a decision by the Kingdom of Thailand to alter any rights it has or could claim under any other international agreements or instruments to which it is party.
- 3 The Kingdom of Thailand reserves the right to take any action or measures it deems necessary to safeguard its national interests should the consequences of reservations by any member jeopardize its postal services or affect its sovereignty.

"The Georgian Delegation will protect the rights of its Government by:

- making further statements in the national interest in the event that the Acts, amendments and additions adopted by this Congress directly or indirectly contradict the Constitution of Georgia and/or its national legislation and normative acts, and if any UPU member country fails to observe the UPU Convention, Constitution or Acts;
- taking any action needed for the organization, regulation and functioning of the Postal community and the issuing of postage stamps in compliance with national legislation and normative acts throughout the territory of Georgia, any other action of that kind being illegal;

IX

On behalf of the Bolivarian Republic of Venezuela

Moreover, the signature of the UPU Acts may in no circumstances be interpreted as a renunciation of the rights of the Bolivarian

Republic of Venezuela as a sovereign country or the principles of international law that are specific to it as a sovereign country."

(CONGRÈS–Doc 41.Add 14)

XV

On behalf of the Republic of Turkey

"The delegation of the Republic of Turkey makes the following statement in connection with the participation of the delegation of the Greek Cypriot Administration of Southern Cyprus at the 24th Congress of the Universal Postal Union purportedly on behalf of the 'Republic of Cyprus':

"There is no single authority, in law or in fact, that is competent to represent jointly the Turkish Cypriots and the Greek Cypriots and, consequently, Cyprus as a whole. The Greek Cypriot Administration has, since 1963, represented exclusively the Greek Cypriots and their interests. Therefore, as a guarantor power under the 1960 Treaty of Guarantee, Turkey does not recognize this administration or any of its illegitimate claims.

"In view of the above, Turkey's presence and participation in the work of the Universal Postal Union and its signature of the Final Acts should in no way be construed as recognition by Turkey of the so-called 'Republic of Cyprus', nor should it imply any obligation on the part of Turkey to enter into any dealing with the so-called 'Republic of Cyprus' within the framework of Universal Postal Union activities."

(CONGRÈS–Doc 41.Add 15)

XVI

On behalf of Israel

"The delegation of Israel to the 24th Congress of the Universal Postal Union reiterates the declarations and reservations which it has made in previous UPU Congresses, and rejects unreservedly any declaration or reservation made by any other country of the Union at this 24th Congress (Geneva) the intention of which is to disregard Israel's rights and status as a member of the UPU. Furthermore, any such declaration or reservation is in contravention of both the letter and spirit of the Constitution, Convention and Agreements. The delegation of Israel accordingly considers any such declaration or reservation to be illegal and void, and reserves its rights accordingly."

(CONGRÈS–Doc 41.Add 16)

XVII

On behalf of the Republic of Azerbaijan

"Although Nagorno Karabakh and seven other districts adjacent to it form an integral part of Azerbaijan, they continue to be occupied by Armenia.

"The so-called 'Nagorno Karabakh Republic' is an artificial, illegitimate and unrecognized entity that resulted from the illegal occupation of Azerbaijan's Nagorno Karabakh and neighbouring districts by armed forces of Armenia in 1992 and 1993. Ethnic cleansing of Azerbaijanis had been carried out by Armenia in these occupied territories.

"As a result, more than one million Azerbaijanis uprooted from their permanent places of residence became refugees and internally displaced persons in their own country only because they were Azerbaijanis. Many of them are still living in temporary shelters and residential areas and look forward with impatience and determination to the day when they can return to their homes.

"The international community has taken a clear and unequivocal position with regard to Armenia's aggressive policy towards Azerbaijan. Although four UN Security Council resolutions (822 of 30 April 1993, 853 of 29 July 1993, 874 of 14 October 1993 and 884 of 12 November 1993) demanded the complete, immediate and unconditional withdrawal of occupying forces from the occupied territories of Azerbaijan, none of these resolutions has been implemented by the aggressor.

"In its resolution entitled 'The situation in the occupied territories of Azerbaijan', adopted during its 62nd session on 14 March 2008, the UN General Assembly once again confirmed the 'respect and support to sovereignty and territorial integrity in the internationally recognized borders of the Republic of Azerbaijan' and demanded the 'immediate, complete and unconditional withdrawal of all Armenian forces from all territories of Azerbaijan that are under occupation'. Once again, Armenia has ignored this call from the international community.

"As a result of the continuing occupation of 20% of Azerbaijani territory by Armenia, extensive damage has been caused to Azerbaijan's economy.

"In the territories of the Republic of Azerbaijan occupied by Armenia, it has become impossible to implement the provisions of the Universal Postal Convention concerning the circulation of postage stamps (article 8). With the direct support of Armenia, the puppet regime of the so-called 'Nagorno Karabakh Republic' has been printing illegal postage stamps, in blatant violation of the provisions of the Universal Postal Convention, and promoting their illegal circulation.

"We feel that the Universal Postal Union cannot remain indifferent to such activity and that, on the basis of its own Acts, as well as the UN Charter and the resolutions of the UN Security Council and General Assembly concerning the Nagorno Karabakh conflict between Armenia and Azerbaijan, it should effectively prevent the dissemination of illegal postage stamps by illegal and unrecognized entities and take the necessary measures with regard to its member country Armenia, which supports this kind of activity, in contravention of international law. We also take this opportunity to ask UPU member countries and the companies operating under their legal authority to refrain from any postal relations or communication with the so-called 'Nagorno Karabakh Republic'.

"We do believe that in the future actions of the Universal Postal Union, this kind of activity will be kept under control and that relevant measures will be taken where necessary.

"The Government of Azerbaijan holds the position that the postal administration of the Republic of Azerbaijan is the only relevant postal authority in its territory recognized by the world community and international organizations.

"The Government of Azerbaijan considers any attempt to recognize the so-called illegitimate 'Nagorno Karabakh Republic' as an independent state to be in blatant violation of the territorial integrity and sovereignty of the Republic of Azerbaijan and in violation of all international legal standards, including the right to provide postal services.

"The Government of Azerbaijan states that, in view of the occupation of the Azerbaijan's Nagorno Karabakh and neighbouring districts by the armed forces of Armenia, the Republic of Azerbaijan reserves the right not to apply the provisions of the Universal Postal Convention with regard to Armenia."

XVIII

On behalf of the United Kingdom of Great Britain and Northern Ireland

"The Government of the United Kingdom of Great Britain and Northern Ireland has no doubt about the sovereignty of the United Kingdom over the Falkland Islands, South Georgia and the South Sandwich Islands and their surrounding maritime areas, and rejects the claim by the Government of Argentina to sovereignty over those islands and maritime areas.

"The principle of self determination, enshrined in the charter of the United Nations, underlies our position on the sovereignty of the Falkland Islands. There can be no negotiation on the sovereignty of the Falkland Islands, unless and until such time as the Falkland Islands so wish. The islanders regularly make it clear that they wish the Falkland Islands to remain under British sovereignty.

"The United Kingdom frequently makes its position on the Falkland Islands known to the international community. Our position was last set out in detail by the United Kingdom's Permanent Representative to the United Nations, Sir John Sawers, in a written right of reply dated 1 October 2007 (A/62/469) to the statement by President Néstor Carlos Kirchner of the Argentine Republic in the United Nations General Assembly on 25 September 2007. That remains the United Kingdom's position.

"The United Kingdom has no doubt about its sovereignty over the British Antarctic Territory and in this context draws attention to Article IV of the Antarctic Treaty, to which both the United Kingdom and Argentina are parties."

(CONGRÈS–Doc 41.Add 18)

XIX

On behalf of the Republic of Cyprus

"The delegation of the Republic of Cyprus to the 24th Congress of the Universal Postal Union reiterates the declaration it made at previous UPU Congresses, and rejects unreservedly the declaration and reservation made by the Republic of Turkey on 11 August 2008 (CONGRÈS–Doc 41.Add 15) at the 24th Congress in Geneva in connection with the participation, rights and status of the Republic of Cyprus as a member of the UPU.

"The Turkish positions are totally inconsistent with the relevant provisions of international law and the specific provisions of the mandatory UN Security Council resolutions on Cyprus. It should be noted that, in its resolutions 541(1983) and 550(1984), inter alia, the UN Security Council condemned the purported secession of part of the Republic of Cyprus, regarded its 'unilateral declaration of independence' as 'legally invalid' and called for its withdrawal. It also called on all States not to recognize any Cypriot State other than the Republic of Cyprus and 'not to facilitate or in any way assist the aforesaid secessionist entity'. Lastly, it called on all States to respect the sovereignty, independence, territorial integrity and unity of the Republic of Cyprus.

"The Republic of Cyprus has been a member state of the United Nations since its independence in 1960, and a member state of the European Union from 1 May 2004. It has also been a member of the Universal Postal Union since November 1961 and, in this capacity, participates in all of the organization's activities. The Government of the Republic of Cyprus is the internationally recognized government in Cyprus, with the competence and authority to represent the State, notwithstanding the de facto division of the island as a result of the 1974 Turkish invasion.

"Since 1 May 2004, the Republic of Cyprus has been a full member of the European Union, underscoring the fact that there is only one state in Cyprus. In recognizing the problems caused by the occupation of part of its territory in implementing Community laws, Protocol 10 to the Act of Accession of the Republic of Cyprus to the European Union provides that implementation of the *acquis communautaire* shall be suspended in the area of the Republic of Cyprus over which its Government exercises no effective control.

"In view of the above, the declaration and reservation made by the Republic of Turkey contravene both the letter and spirit of the UPU Constitution, Convention and Agreements. The delegation of the Republic of Cyprus therefore considers any such declaration or reservation to be illegal and null and void, and reserves its rights accordingly."

Rules of Procedure of Congresses

Article 1

General provisions

The present Rules of Procedure (hereinafter referred to as "the Rules") have been drawn up pursuant to the Acts of the Union and are subordinate to them. In the event of a discrepancy between one of their provisions and a provision of the Acts, the latter shall prevail.

Article 2

Delegations

1 The term "delegation" shall denote the person or body of persons designated by a member country to take part in a Congress. The delegation shall consist of a Head of delegation and, if appropriate, his deputy, one or more delegates and, possibly, one or more attached officials (including experts, secretaries, etc.).

2 Heads of delegation, their deputies, and delegates shall be representatives of member countries within the meaning of article 14.2 of the Constitution if in possession of credentials which comply with the conditions laid down in article 3 of these Rules.

3 Attached officials shall be admitted to meetings, and shall have the right to participate in the proceedings, but they shall not normally have the right to vote. However, they may be authorized by the Head of their delegation to vote on behalf of their country at Committee meetings. Such authorizations shall be handed, in writing, to the Chairman of the Committee concerned, before the beginning of the meeting.

Article 3

Delegates' credentials

1 Delegates' credentials shall be signed by the Head of State, the Head of Government or the Minister for Foreign Affairs of the country concerned. They shall be drawn up in due and proper form. The credentials of delegates entitled to sign the Acts (plenipotentiaries) shall specify the scope of such signature (signature subject to ratification or approval, signature ad referendum, definitive signature). In the absence of such specific information, the signature shall be regarded as being subject to ratification or approval. Credentials authorizing the holder to sign the Acts shall implicitly include the right to speak and to vote. Delegates on whom the relevant authorities have conferred full powers without specifying their scope shall be authorized to speak, to vote and to sign the Acts unless the wording of the credentials is explicitly to the contrary.

2 Credentials shall be deposited at the opening of Congress with the authority designated for that purpose.

3 Delegates who are not in possession of credentials or who have not deposited their credentials may, provided their names have been communicated by their Government to the

Government of the host country, take part in the debates and vote from the moment they participate in the work of Congress. The same shall apply to those whose credentials are found to be not in order. Such delegates shall cease to be empowered to vote from the time Congress approves the last report of the Credentials Committee establishing that their credentials have not been received or are not in order until such time as the position is regularized. The last report shall be approved by Congress before any elections other than that of the Chairman of Congress and before approval of the draft Acts.

4 The credentials of a member country which arranges for the delegation of another member country to represent it at Congress (proxy) shall be in the same form as those mentioned in paragraph 1.

5 Credentials and proxies sent by telegram shall not be admissible. However, telegrams sent in reply to requests for information relating to credentials shall be accepted.

6 A delegation which, after it has deposited its credentials, is prevented from attending one or more meetings, may arrange to be represented by the delegation of another **member** country, provided that notice in writing is given to the Chairman of the meeting concerned. However, a delegation may represent only a single country other than its own.

7 The delegates of member countries which are not parties to an Agreement may take part in the debates of Congress concerning that Agreement, without the right to vote.

Article 4 Order of seating

1 At Congress and Committee meetings, delegations shall be seated in the French alphabetical order of the member countries represented.

2 The Chairman of the Council of Administration shall draw lots, in due course, for the name of the country to be placed foremost before the rostrum at Congress and Committee meetings.

Article 5 De jure observers

1 Representatives of the United Nations shall be admitted as observers to attend and take part in the debates of Congress.

2 Restricted Unions shall be admitted as observers to Congress and its Committees.

3 The League of Arab States and the African Union (AU) shall be admitted as observers to Congress and its Committees.

4 Members of the Consultative Committee shall be admitted as observers to Congress and its Committees.

5 The observers referred to in paragraphs 1 to 4 shall not be entitled to vote, but may take the floor with the permission of the Chairman of the meeting.

6 In exceptional circumstances, the right of observers referred to in paragraph 4 to participate in certain meetings, or parts of meetings, may be restricted if the confidentiality of the subject dealt with so requires. They shall be so informed as quickly as possible. This restriction may be decided on a case-by-case basis by any body concerned or its Chairman. Such decisions shall be reviewed by the Bureau of Congress, which shall have the authority to confirm or reverse such decisions by a simple majority vote.

Article 6

Invitees

1 Representatives of UN specialized agencies and intergovernmental organizations shall be designated by the Council of Administration to attend specified meetings of Congress and its Committees when questions of interest to these organizations are discussed.

2 Representatives of any international body, any association or enterprise or any qualified person duly designated by the Council of Administration shall be admitted to specified meetings of Congress or its Committees.

3 The invitees referred to in paragraphs 1 and 2 shall not be entitled to vote but may take the floor with the permission of the Chairman of the meeting.

Article 7

Doyen of Congress

1 The host **member** country of Congress shall suggest the person to be appointed as Doyen of Congress in agreement with the International Bureau. The Council of Administration shall approve this appointment in due course.

2 At the opening of the first plenary meeting of each Congress, the Doyen shall act as Chairman until Congress has elected one. He shall also exercise the functions assigned to him under the present Rules.

Article 8

Chairmanships and vice-chairmanships of Congress and Committees

1 At its first plenary meeting, Congress shall elect, on the proposal of the Doyen, the Chairman of Congress and then approve, on the proposal of the Council of Administration, the appointment of the member countries which are to assume the vice-chairmanships of Congress and the chairmanships and vice-chairmanships of the Committees. These posts will be assigned taking as much account as possible of the equitable geographical distribution of the member countries.

2 The Chairmen shall open and close the meetings over which they preside, direct the debates, give speakers the floor, put proposals to the vote and announce what majority is required for their adoption, announce decisions and, subject to the approval of Congress, interpret such decisions if necessary.

3 The Chairmen shall see that the present Rules are observed and that order is maintained at meetings.

4 Any delegation may appeal to Congress or the Committee against a decision taken by the Chairman on the basis of a provision or interpretation of the Rules. The Chairman's decision shall nevertheless hold good unless rescinded by a majority of the members present and voting.

5 Should the member country appointed to the chairmanship be no longer able to exercise this function, one of the Vice-Chairmen shall be appointed by Congress or the Committee to replace it.

Article 9

Bureau of Congress

1 The Bureau shall be the central body responsible for directing the work of Congress. It shall consist of the Chairman and Vice-Chairmen of Congress and the Chairmen of the Commit-

tees. It shall meet periodically to review the progress of the work of Congress and its Committees and to make recommendations designed to facilitate such progress. It shall assist the Chairman in drawing up the agenda of each plenary meeting and in coordinating the work of the Committees. It shall make recommendations relating to the closing of Congress.

2 The Secretary General of Congress and the Assistant Secretary General, mentioned in article 12.1, shall attend the meetings of the Bureau.

Article 10

Membership of Committees

1 The member countries represented in Congress shall, as of right, be members of the Committees responsible for studying proposals relating to the Constitution, the General Regulations and the Convention.

2 Member countries represented in Congress which are parties to one or more of the optional Agreements shall, as of right, be members of the Committee and/or Committees responsible for the revision of these Agreements. The right to vote of members of the Committee or Committees shall be confined to the Agreement or Agreements to which they are parties.

3 Delegations which are not members of Committees dealing with the Agreements may attend meetings of those Committees and take part in the debates without the right to vote.

Article 11

Working parties

Congress and each Committee may set up working parties to study special questions.

Article 12

Secretariat of Congress and of Committees

1 The Director General and the Deputy Director General of the International Bureau shall act as Secretary General and Assistant Secretary General of Congress, respectively.

2 The Secretary General and the Assistant Secretary General shall attend the meetings of Congress and of the Bureau of Congress and take part in the debates without the right to vote. They may also attend, under the same conditions, Committee meetings or be represented thereat by a senior official of the International Bureau.

3 The work of the Secretariat of Congress, the Bureau of Congress and the Committees shall be performed by the staff of the International Bureau in conjunction with the host **member** country.

4 Senior officials of the International Bureau shall act as Secretaries of Congress, of the Bureau of Congress and of the Committees. They shall assist the Chairman during meetings and shall be responsible for writing the reports.

5 The Secretaries of Congress and of the Committees shall be assisted by Assistant Secretaries.

Article 13

Languages of debates

1 Subject to paragraph 2, French, English, Spanish and Russian may be used for debates, by means of a system of simultaneous or consecutive interpretation.

2 The debates of the Drafting Committee shall be held in French.

3 Other languages may also be used for the debates mentioned in paragraph 1. The language of the host country shall have priority in this connection. Delegations using other languages shall arrange for simultaneous interpretation into one of the languages mentioned in paragraph 1, either by means of the simultaneous interpretation system, when the necessary technical alterations can be made, or by special interpreters.

4 The cost of installing and maintaining the technical equipment shall be borne by the Union.

5 The cost of the interpretation services shall be divided among the member countries using the same language in proportion to their contributions to the expenses of the Union.

Article 14

Languages used for drafting Congress documents

1 Documents prepared during Congress including draft decisions submitted to Congress for approval shall be published in French by the Secretariat of Congress.

2 To this end, documents produced by delegations of member countries shall be submitted in French, either direct or through the intermediary of the translation services attached to the Congress Secretariat.

3 The above services, organized at their own expense by the language groups set up in accordance with the relevant provisions of the General Regulations, may also translate Congress documents into their respective languages.

Article 15

Proposals

1 All questions brought before Congress shall be the subject of proposals.

2 All proposals published by the International Bureau before Congress shall be regarded as being submitted to Congress.

3 Two months before Congress opens, no proposal shall be considered except those amending earlier proposals.

4 The following shall be regarded as amendments: any proposal which, without altering the substance of the original proposal, involves a deletion from, addition to or revision of a part of the original proposal. No proposed change shall be regarded as an amendment if it is inconsistent with the meaning or intent of the original proposal. In case of doubt, Congress or the Committee shall decide the matter.

5 Amendments submitted at Congress to proposals already made shall be handed in to the Secretariat in writing, in French, before noon on the day but one before the day on which they will be discussed, so that they can be distributed to delegates the same day. This time limit shall not apply to amendments arising directly from the debates in Congress or in a Committee. In the latter case, if so requested, the author of the amendment shall submit a written version in French, or in case of difficulty, in any other language used for debates. The Chairman concerned shall read it out or have it read out.

6 The procedure laid down in paragraph 5 shall also apply to the submission of proposals that are not designed to amend the text of the Acts (draft resolutions, draft recommendations, draft formal opinions, etc.) **where these proposals result from the work of Congress.**

7 Any proposal or amendment shall give the final form of the text which is to be inserted in the Acts of the Union, subject, of course to revision by the Drafting Committee.

Article 16

Consideration of proposals in Congress and in Committees

1 Drafting proposals (the number of which shall be followed by the letter R) shall be assigned to the Drafting Committee either direct, if the International Bureau has no doubt as to their nature (a list of such proposals shall be drawn up for the Drafting Committee by the International Bureau), or, if the International Bureau is in doubt as to their nature, after the other Committees have confirmed that they are purely of a drafting nature (a list of such proposals shall likewise be drawn up for the Committees concerned). If, however, such proposals are linked with other proposals of substance to be considered by Congress or by other Committees, the Drafting Committee shall postpone consideration of them until after Congress or the other Committees have taken a decision on the corresponding proposals of substance. Proposals whose numbers are not followed by the letter R but which, in the opinion of the International Bureau, are of a drafting nature, shall be referred direct to the Committees concerned with the corresponding proposals of substance. When these Committees begin work, they shall decide which of the proposals shall be assigned direct to the Drafting Committee. A list of these proposals shall be drawn up by the International Bureau for the Committees concerned.

2 If the same question is the subject of several proposals, the Chairman shall decide the order in which they are to be discussed, starting as a rule with the proposal which departs most from the basic text and entails the most significant change in relation to the status quo.

3 If a proposal can be subdivided into several parts, each part may, if the originator of the proposal or the assembly so agrees, be considered and voted upon separately.

4 Any proposal withdrawn in Congress or in Committee by its originator may be resubmitted by the delegation of another member country. Similarly, if an amendment to a proposal is accepted by the originator of the proposal, another delegation may resubmit the original, unamended proposal.

5 Any amendment to a proposal which is accepted by the delegation submitting the proposal shall be immediately included in the text thereof. If the originator of the original proposal does not accept an amendment, the Chairman shall decide whether the amendment or the proposal shall be voted upon first, starting with whichever departs furthest from the meaning or intent of the basic text and entails the most significant change in relation to the status quo.

6 The procedure described in paragraph 5 shall also apply where more than one amendment to a proposal is submitted.

7 The Chairman of Congress and the Chairmen of Committees shall arrange for the text of the proposals, amendments or decisions adopted to be passed to the Drafting Committee, in writing, after each meeting.

Article 17

Debates

1 Delegates may not take the floor until they have been given permission to do so by the Chairman of the meeting. They shall be urged to speak slowly and distinctly. The Chairman shall afford delegates the possibility of freely and fully expressing their views on the subject discussed, so long as that is compatible with the normal course of the debate.

2 Unless a majority of the members present and voting decides otherwise, speeches shall not exceed five minutes. The Chairman shall be authorized to interrupt any speaker who exceeds the said authorized time. He may also ask the delegate not to depart from the subject.

3 During a debate, the Chairman may, with the agreement of the majority of the members present and voting, declare the list of speakers closed after reading it out. When the list is exhausted, he shall declare the debate closed, although even after the closing of the list he may grant the originator of the proposal under discussion the right to reply to any of the speeches delivered.

4 The Chairman may also, with the agreement of the majority of the members present and voting, limit the number of speeches by any one delegation on a proposal or a certain group of proposals; but the originator of the proposal shall be given the opportunity of introducing it and speaking subsequently if he asks to do so in order to make new points in reply to the speeches of other delegations, so that he may, if he wishes, be the last speaker.

5 With the agreement of the majority of the members present and voting, the Chairman may limit the number of speeches on a proposal or a certain group of proposals; but this limit may not be less than five for and five against the proposal under discussion.

Article 18

Motions on points of order and procedural motions

1 During the discussion of any question and even, where appropriate, after the closure of the debate, a delegation may submit a motion on a point of order for the purpose of requesting:

- clarification on the conduct of the debates;
- observance of the Rules of Procedure;
- a change in the order of discussion of proposals suggested by the Chairman.

The motion on a point of order shall take precedence over all questions, including the procedural motions set forth in paragraph 3.

2 The Chairman shall immediately give the desired clarifications or take the decision which he considers advisable on the subject of the motion on a point of order. In the event of an objection, the Chairman's decision shall be put to the vote forthwith.

3 In addition, during discussion of a question, a delegation may introduce a procedural motion with a view to proposing:

- a the suspension of the meeting;
- b the closure of the meeting;
- c the adjournment of the debate on the question under discussion;
- d the closure of the debate on the question under discussion.

Procedural motions shall take precedence, in the order set out above, over all other proposals except the motions on points of order referred to in paragraph 1.

4 Motions for the suspension or closure of the meeting shall not be discussed, but shall be put to the vote immediately.

5 When a delegation proposes adjournment or closure of the debate on a question under discussion, only two speakers against the adjournment or the closure of the debate may speak, after which the motion shall be put to the vote.

6 The delegation which submits a motion on a point of order or a procedural motion may not, in its submission, deal with the substance of the question under discussion. The proposer of a procedural motion may withdraw it before it has been put to the vote, and any motion of this kind, whether amended or not, which is withdrawn may be reintroduced by another delegation.

Article 19

Quorum

- 1 Subject to paragraphs 2 and 3, the quorum necessary for the opening of the meetings and for voting shall be half the member countries represented in Congress and having the right to vote.
- 2 For votes on amending the Constitution and the General Regulations, the quorum required shall be two thirds of the Union member countries having the right to vote.
- 3 In the case of the Agreements, the quorum required for the opening of the meetings and for voting shall be half the member countries represented at Congress which are parties to the Agreement concerned and have the right to vote.
- 4 Delegations which are present but do not take part in a given vote, or which state that they do not wish to take part therein, shall not be considered absent for the purpose of establishing the quorums required under paragraphs 1, 2 and 3.

Article 20

Voting principle and procedure

- 1 Questions which cannot be settled by common consent shall be decided by vote.
- 2 Votes shall be taken by the traditional system or by the electronic voting system. They shall normally be taken by the electronic system when that system is available to the assembly. However, in the case of a secret ballot, the traditional system may be used if one delegation, supported by a majority of the delegations present and voting, so requests.
- 3 For the traditional system, the methods of voting shall be as follows:
 - a by show of hands. If there is doubt about the result of such a vote, the Chairman, if he so wishes or if a delegation so requests, may arrange for an immediate roll-call vote on the same question;
 - b by roll-call, at the request of a delegation or if so decided by the Chairman; the roll shall be called according to the French alphabetical order of the countries represented, beginning with the country whose name is drawn by lot by the Chairman; the result of the vote, together with a list of the countries grouped according to the way they voted, shall be included in the report of the meeting;
 - c by secret ballot, using ballot papers, if requested by two delegations; in this case, the Chairman of the meeting shall appoint three tellers, **having regard to equitable geographical representation and the level of economic development of the member countries**, and make the necessary arrangements for the holding of a secret ballot.
- 4 For the electronic system, the methods of voting shall be as follows:
 - a non-recorded vote: it replaces a vote by show of hands;
 - b recorded vote: it replaces a roll-call vote; however, the names of the countries shall not be called unless one delegation, supported by a majority of the delegations present and voting, so requests;
 - c secret ballot: it replaces the secret ballot by ballot papers.
- 5 Regardless of the system of voting used, the secret ballot shall take precedence over any other voting procedure.
- 6 Once the voting has begun, no delegation may interrupt it, except to raise a point of order relating to the way in which the vote is being taken.

- 7 After the vote, the Chairman may permit delegates to explain why they voted as they did.

Article 21

Conditions of approval of proposals

- 1 To be adopted, proposals involving amendments to the Acts must:
- a in the case of the Constitution, be approved by at least two thirds of the member countries of the Union having the right to vote;
 - b in the case of the General Regulations, be approved by a majority of the member countries represented in Congress and having the right to vote;
 - c in the case of the Convention, be approved by a majority of the member countries present and voting which have the right to vote;
 - d in the case of the Agreements, be approved by a majority of the member countries present and voting which are parties to the Agreements and have the right to vote.
- 2 Procedural matters which cannot be settled by common consent shall be decided by a majority of the member countries present and voting which have the right to vote. The same shall apply to decisions not concerning changes in the Acts, unless Congress decides otherwise by a majority of the member countries present and voting which have the right to vote.
- 3 Subject to paragraph 5, "member countries present and voting" shall mean member countries which have the right to vote voting "for" or "against", abstentions being disregarded in counting the votes required to constitute a majority, and similarly blank or null and void ballot papers in the case of a secret ballot.
- 4 In the event of a tie, a proposal shall be regarded as rejected.
- 5 When the number of abstentions and blank or null and void ballot papers exceeds half the number of votes cast (for, against and abstentions), consideration of the matter shall be deferred until a subsequent meeting, at which abstentions and blank or null and void ballot papers shall be disregarded.

Article 22

Election of the members of the Council of Administration or the Postal Operations Council

In order to decide between countries which have obtained the same number of votes in elections of members of the Council of Administration or the Postal Operations Council, the Chairman shall draw lots.

Article 23

Election of the Director General and the Deputy Director General of the International Bureau

- 1 The elections of the Director General of the International Bureau and of the Deputy Director General shall take place by secret ballot successively at one or more meetings held on the same day. The candidate who obtains a majority of the votes cast by the member countries present and voting shall be elected. As many ballots shall be held as are necessary for a candidate to obtain this majority.
- 2 "Member countries present and voting" shall mean member countries voting for one of the candidates whose applications have been announced in due and proper form, abstentions and blank or null and void ballot papers being ignored in counting the votes required to constitute a majority.

3 If the number of abstentions and blank or null and void ballot papers exceeds half the number of votes cast in accordance with paragraph 2, the election shall be deferred to a later meeting, at which abstentions and blank or null and void ballot papers shall no longer be taken into account.

4 The candidate who obtains the least number of votes in any one ballot shall be eliminated.

5 In the event of a tie, an additional ballot, and if necessary a second additional ballot, shall be held in an attempt to decide between the tying candidates, the vote relating only to these candidates. If the result is inconclusive, the election shall be decided by drawing lots. The lots shall be drawn by the Chairman.

6 The candidates for Director General and Deputy Director General of the International Bureau may, at their request, be represented at the counting of the votes.

Article 24

Reports

1 The reports of the plenary meetings of Congress shall record the course of the meetings, briefly summarize speeches, and mention proposals and the outcome of the debates.

2 The debates of Committee meetings shall be the subject of reports to Congress. As a general rule, Working Parties shall prepare a report for the body that set them up.

3 Each delegate, however, shall be entitled to ask for any statement made by him to be included in the reports either verbatim or in summary form, provided the French or English text is handed to the Secretariat not later than two hours after the end of the meeting.

4 Delegates shall be allowed a period of twenty-four hours, from the moment when the draft reports are distributed, in which to make their comments to the Secretariat, which, if necessary, shall act as an intermediary between the party concerned and the Chairman of the meeting in question.

5 As a general rule and subject to the provisions of paragraph 4, at the beginning of each meeting of Congress, the Chairman shall submit the report of a previous meeting for approval. The same shall apply in regard to Committee reports. The reports of the last meetings which it has not been possible to approve in Congress or in a Committee shall be approved by the respective Chairmen of the meetings. The International Bureau shall also take account of any comments received from delegates of member countries within forty days of the dispatch of the reports to them.

6 The International Bureau shall be authorized to correct in the reports of meetings of Congress and Committees any clerical errors which were not brought to light when the minutes were approved in accordance with paragraph 5.

Article 25

Appeal against decisions taken by the Committees and by Congress

1 Any delegation may appeal against a decision concerning proposals (Acts, resolutions, etc.) which have been approved or rejected in Committee. Notice of the appeal must be given to the Chairman of Congress, in writing, within 48 hours from the adjournment of the Committee meeting at which the proposal was approved or rejected. The appeal shall be considered during the next plenary meeting.

2 When a proposal has been adopted or rejected by Congress, it can be reconsidered by the same Congress only if the appeal has been supported by at least 10 delegations. Such an appeal must be approved by a two-thirds majority of the members present and voting which have the right to vote. This possibility shall be limited to proposals submitted direct to plenary meetings, it being understood that a single question cannot give rise to more than one appeal.

Article 26

Approval by Congress of draft decisions (Acts, resolutions, etc.)

1 As a general rule, each draft Act submitted by the Drafting Committee shall be studied article by article. The Chairman may, with the agreement of the majority, use a faster procedure, for instance chapter by chapter. Each Act can only be regarded as adopted after an overall favourable vote. Article 21.1, shall apply to such a vote.

2 The International Bureau shall be authorized to correct in the final Acts any clerical errors which have not come to light during the study of the draft Acts, the numbering of articles and paragraphs and references.

3 The drafts of decisions other than those amending the Acts, submitted by the Drafting Committee, shall as a general rule be considered en bloc. The provisions of paragraph 2 shall also apply to the drafts of these decisions.

Article 27

Assignment of studies to the Council of Administration and the Postal Operations Council

On the recommendation of its Bureau, Congress shall assign studies to the Council of Administration and the Postal Operations Council, in accordance with the respective compositions and responsibilities of these two bodies as they are set forth in articles 102 and 104 of the General Regulations.

Article 28

Reservations to Acts

1 Reservations must be submitted in the form of a proposal to the Secretariat in writing in one of the working languages of the International Bureau (proposals concerning the Final Protocol) as soon as possible after adoption of the proposal concerning the article to which the reservation refers.

2 To enable it to distribute proposals concerning reservations to all member countries before adoption of the Final Protocol by Congress, the Congress Secretariat shall set a deadline for the submission of reservations and notify member countries of it.

3 Reservations to the Acts of the Union submitted after the deadline set by the Secretariat shall not be considered by the Secretariat or by Congress.

Article 29

Signature of Acts

Acts finally approved by Congress shall be submitted to the plenipotentiaries for signature.

Article 30

Amendment of the Rules

1 Each Congress may amend the Rules of Procedure. In order to be accepted for discussion, proposals to amend the present Rules, unless submitted by a UPU body empowered to put forward proposals, shall be supported in Congress by at least 10 delegations.

2 To be adopted, proposals for amendments to the present Rules must be approved by at least two thirds of the member countries represented in Congress and having the right to vote.

Article 2

Designation of the entity or entities responsible for fulfilling the obligations arising from adherence to the Convention

1 Member countries shall notify the International Bureau, within six months of the end of Congress, of the name and address of the governmental body responsible for overseeing postal affairs. Within six months of the end of Congress, member countries shall also provide the International Bureau with the name and address of the operator or operators officially designated to operate postal services and to fulfil the obligations arising from the Acts of the Union on their territory. Between Congresses, changes in the governmental bodies and the officially designated operators shall be notified to the International Bureau as soon as possible.

Article 3

Universal postal service

1 In order to support the concept of the single postal territory of the Union, member countries shall ensure that all users/customers enjoy the right to a universal postal service involving the permanent provision of quality basic postal services at all points in their territory, at affordable prices.

2 With this aim in view, member countries shall set forth, within the framework of their national postal legislation or by other customary means, the scope of the postal services offered and the requirement for quality and affordable prices, taking into account both the needs of the population and their national conditions.

3 Member countries shall ensure that the offers of postal services and quality standards will be achieved by the operators responsible for providing the universal postal service.

4 Member countries shall ensure that the universal postal service is provided on a viable basis, thus guaranteeing its sustainability.

Article 4 Freedom of transit

1 The principle of the freedom of transit is set forth in article 1 of the Constitution. It shall carry with it the obligation for each **member country** to **ensure that its designated operators** forward, always by the quickest routes and the most secure means which **they use** for **their own** items, closed mails and à découvert letter-post items which are passed to **them** by another **designated operator**. This principle shall also apply to missent items and **misrouted** mails.

2 Member countries which do not participate in the exchange of letters containing **infectious** substances or radioactive substances shall have the option of not admitting these items in transit à découvert through their territory. The same shall apply to letter-post items other than letters, postcards and literature for the blind. It shall also apply to printed papers, periodicals, magazines, small packets and M bags the content of which does not satisfy the legal requirements governing the conditions of their publication or circulation in the country crossed.

3 Freedom of transit for postal parcels to be forwarded by land and sea routes shall be limited to the territory of the countries taking part in this service.

4 Freedom of transit for air parcels shall be guaranteed throughout the territory of the Union. However, member countries which do not operate the postal parcels service shall not be required to forward air parcels by surface.

5 If a member country fails to observe the provisions regarding freedom of transit, other member countries may discontinue their postal service with that **member** country.

Article 5 Ownership of postal items. Withdrawal from the post. Alteration or correction of address. Redirection. Return to sender of undeliverable items

1 A postal item shall remain the property of the sender until it is delivered to the rightful owner, except when the item has been seized in pursuance of the legislation of the country of origin or destination and, in case of application of article 15.2.1.1 or 15.3, in accordance with the legislation of the country of transit.

2 The sender of a postal item may have it withdrawn from the post or have its address altered or corrected. The charges and other conditions are laid down in the Regulations.

3 Member countries shall **ensure that their designated operators redirect** postal items if an addressee has changed his address, and return undeliverable items **to the sender**. The charges and other conditions are laid down in the Regulations.

Article 6 Charges

1 The charges for the various international postal and special services shall be set by the **member countries or their designated operators, depending on national legislation**, in accordance with the principles set out in the Convention and **its** Regulations. They shall in principle be related to the costs of providing these services.

2 The **member country** of origin **or its designated operator, depending on national legislation**, shall fix the postage charges for the conveyance of letter- and parcel-post items. The postage charges shall cover delivery of the items to the place of address provided that this delivery service is operated in the country of destination for the items in question.

3 The charges collected, including those laid down for guideline purposes in the Acts, shall be at least equal to those collected on internal service items presenting the same characteristics (category, quantity, handling time, etc.).

4 **Member countries or their designated operators, depending on national legislation,** shall be authorized to exceed any guideline charges appearing in the Acts.

5 Above the minimum level of charges laid down in 3, **member countries or their designated operators** may allow reduced charges based on their **national** legislation for letter-post items and parcels posted in **the territory of the member** country. They may, for instance, give preferential rates to major users of the Post.

6 No postal charge of any kind may be collected from customers other than those provided for in the Acts.

7 Except where otherwise provided in the Acts, each **designated operator** shall retain the charges which it has collected.

Article 7

Exemption from postal charges

1 Principle

1.1 Cases of exemption from postal charges, as meaning exemption from postal prepayment, shall be expressly laid down by the Convention. Nonetheless, the Regulations may provide for both exemption from postal prepayment and exemption from payment of transit charges, terminal dues and inward rates for letter-post items and postal parcels relating to the postal service sent by **member countries, designated operators** and Restricted Unions. Furthermore, letter-post items and postal parcels sent by the UPU International Bureau to Restricted Unions, **member countries and designated operators** shall be considered to be items relating to the postal service and shall be exempted from all postal charges. However, the **member country of origin or its designated operator** shall have the option of collecting air surcharges on the latter items.

2 Prisoners of war and civilian internees

2.1 Letter-post items, postal parcels and postal financial services items addressed to or sent by prisoners of war, either direct or through the offices mentioned in the Regulations of the Convention and of the Postal Payment Services Agreement, shall be exempt from all postal charges, with the exception of air surcharges. Belligerents apprehended and interned in a neutral country shall be classed with prisoners of war proper so far as the application of the foregoing provisions is concerned.

2.2 The provisions set out under 2.1 shall also apply to letter-post items, postal parcels and postal financial services items originating in other countries and addressed to or sent by civilian internees as defined by the Geneva Convention of 12 August 1949 relative to the protection of civilian persons in time of war, either direct or through the offices mentioned in the Regulations of the Convention and of the Postal Payment Services Agreement.

2.3 The offices mentioned in the Regulations of the Convention and of the Postal Payment Services Agreement shall also enjoy exemption from postal charges in respect of letter-post items, postal parcels and postal financial services items which concern the persons referred to under 2.1 and 2.2, which they send or receive, either direct or as intermediaries.

2.4 Parcels shall be admitted free of postage up to a weight of 5 kilogrammes. The weight limit shall be increased to 10 kilogrammes in the case of parcels the contents of which

cannot be split up and of parcels addressed to a camp or the prisoners' representatives there ("hommes de confiance") for distribution to the prisoners.

- 2.5 In the accounting between **designated operators**, rates shall not be allocated for service parcels and for prisoner-of-war and civilian internee parcels, apart from the air conveyance dues applicable to air parcels.

3 Literature for the blind

- 3.1 Literature for the blind shall be exempt from all postal charges, with the exception of air surcharges.

- 1.3 In any other case not provided for in this Convention, **designated operators** shall not be liable.
- 1.4 When the loss of or total damage to registered items, ordinary parcels and insured items is due to a case of force majeure for which indemnity is not payable, the sender shall be entitled to repayment of the charges paid **for posting the item**, with the exception of the insurance charge.
- 1.5 The amounts of indemnity to be paid shall not exceed the amounts mentioned in the Letter Post Regulations and the Parcel Post Regulations.

- 1.7 All provisions regarding liability of **designated operators** shall be strict, binding and complete. **Designated operators** shall in no case, even in case of severe fault, be liable above the limits provided for in the Convention and the Regulations.

2 Registered items

- 2.1 If a registered item is lost, totally rifled or totally damaged, the sender shall be entitled to an indemnity set in the Letter Post Regulations. If the sender has claimed an amount less than the amount set in the Letter Post Regulations, **designated operators** may pay that lower amount and shall receive reimbursement on this basis from any other **designated operators** involved.
- 2.2 If a registered item is partially rifled or partially damaged, the sender is entitled to an indemnity corresponding, in principle, to the actual value of the theft or damage.

- 4.3 **Designated operators** may agree to apply, in their reciprocal relations, the amount per parcel set in the Parcel Post Regulations, regardless of the weight.

- 5.2 If an insured item is partially rifled or partially damaged, the sender shall be entitled to an indemnity corresponding, in principle, to the actual value of the theft or damage. It may, however, in no case exceed the amount of the insured value in SDRs.

- 9** When an indemnity is due for the loss of, total theft from or total damage to a registered item, ordinary parcel or insured item, the sender, or the addressee, as the case may be, shall also be entitled to repayment of the charges and fees paid **for posting the item** with the exception of the registration or insurance charge. The same shall apply to registered items, ordinary parcels or insured items refused by the addressee because of their bad condition if that is attributable to the postal service and involves its liability.
- 10** Notwithstanding the provisions set out under 2, 4 and 5, the addressee shall be entitled to the indemnity after delivery of a rifled or damaged registered item, ordinary parcel or insured item.
- 11** The **designated operator** of origin shall have the option of paying senders in its country the indemnities prescribed by its **national** legislation for registered items and uninsured parcels, provided that they are not lower than those laid down in 2.1 and 4.1. The same shall apply to the **designated operator** of destination when the indemnity is paid to the addressee. However, the amounts laid down in 2.1 and 4.1 shall remain applicable.
- 11.1** in the event of recourse against the **designated operator** liable; or
- 11.2** if the sender waives his rights in favour of the addressee or vice versa.
- 12** Reservations concerning **the exceeding of deadlines for inquiries and payment of indemnity to designated operators, including the periods and conditions fixed in the Regulations, shall not** be made, except in the event of bilateral agreement.

Article 22

Non-liability of **member countries and designated operators**

1 **Designated operators** shall cease to be liable for registered items, recorded delivery items, parcels and insured items which they have delivered according to the conditions laid down in their regulations for items of the same kind. Liability shall, however, be maintained:

- 1.1 when theft or damage is discovered either prior to or at the time of delivery of the item;
- 1.2 when, internal regulations permitting, the addressee, or the sender if it is returned to origin, makes reservations on taking delivery of a rifled or damaged item;
- 1.3 when, internal regulations permitting, the registered item was delivered to a private mailbox and the addressee declares that he did not receive the item;
- 1.4 when the addressee or, in the case of return to origin, the sender of a parcel or of an insured item, although having given a proper discharge, notifies the **designated operator that delivered the item** without delay that he has found theft or damage. He shall furnish proof that such theft or damage did not occur after delivery. The term "without delay" shall be interpreted according to national law.

2 **Member countries and designated operators** shall not be liable:

- 2.1 in cases of force majeure, subject to article 13.6.9;
- 2.2 when they cannot account for items owing to the destruction of official records by force majeure, provided that proof of their liability has not been otherwise produced;

- 2.4 in the case of items that fall within the prohibitions specified in article 15;

- 2.7 when the sender has made no inquiry within six months from the day after that on which the item was posted;
- 2.8 in the case of prisoner-of-war or civilian internee parcels;
- 2.9 when the sender's actions may be suspected of fraudulent intent, aimed at receiving compensation.

3 **Member countries and designated operators** shall accept no liability for customs declarations in whatever form these are made or for decisions taken by the Customs on examination of items submitted to customs control.

Article 23

Sender's liability

1 The sender of an item shall be liable for injuries caused to postal officials and for any damage caused to other postal items and postal equipment, as a result of the dispatch of articles not acceptable for conveyance or the non-observance of the conditions of acceptance.

2 In the case of damage to other postal items, the sender shall be liable for each item damaged within the same limits as **designated operators**.

3 The sender shall remain liable even if the office of posting accepts such an item.

4 However, where the conditions of acceptance have been observed by the sender, the sender shall not be liable, in so far as there has been fault or negligence in handling the item on the part of **designated operators** or carriers, after acceptance.

Article 24

Payment of indemnity

1 Subject to the right of recourse against the **designated operator** which is liable, the obligation to pay the indemnity and to refund the charges and fees shall rest either with the **designated operator** of origin or with the **designated operator** of destination.

2 The sender may waive his rights to the indemnity in favour of the addressee. Conversely, the addressee may waive his rights in favour of the sender. The sender or the addressee may authorize a third party to receive the indemnity if internal legislation allows this.

Article 25

Possible recovery of the indemnity from the sender or the addressee

1 If, after payment of the indemnity, a registered item, a parcel or an insured item or part of the contents previously considered as lost is found, the sender or the addressee, as the case may be, shall be advised that the item is being held at his disposal for a period of three months on repayment of the amount of the indemnity paid. At the same time he shall be asked to whom the item is to be delivered. In the event of refusal or failure to reply within the prescribed period, the same approach shall be made to the addressee or the sender as the case may be, granting that person the same period to reply.

2 If the sender and the addressee refuse to take delivery of the item or do not reply within the period provided for in paragraph 1, it shall become the property of the **designated operator** or, where appropriate, **designated operators** which bore the loss.

3 In the case of subsequent discovery of an insured item the contents of which are found to be of less value than the amount of the indemnity paid, the sender or the addressee, as the case may be, shall repay the amount of this indemnity against return of the item, without prejudice to the consequences of fraudulent insurance.

Chapter 3

Provisions specific to letter post

Article 26

Posting abroad of letter-post items

1 A **designated operator** shall not be bound to forward or deliver to the addressee letter-post items which senders residing in **the territory of its member country** post or cause to be posted in a foreign country with the object of profiting by the more favourable rate conditions there.

2 The provisions set out under 1 shall be applied without distinction both to letter-post items made up in the sender's country of residence and then carried across the frontier and to letter-post items made up in a foreign country.

3 The **designated operator** of destination may claim from the sender and, failing this, from the **designated operator** of posting, payment of the internal rates. If neither the sender nor the **designated operator** of posting agrees to pay these rates within a time limit set by the **designated operator** of destination, the latter may either return the items to the **designated operator** of posting and shall be entitled to claim reimbursement of the redirection costs, or handle them in accordance with its **national** legislation.

4 A **designated operator** shall not be bound to forward or deliver to the addressees letter-post items which senders post or cause to be posted in large quantities in a country other than the country where they reside if the amount of terminal dues to be received is lower than the sum that would have been received if the mail had been posted in the country where the senders reside. The **designated operator** of destination may claim from the **designated operator** of posting payment commensurate with the costs incurred and which may not exceed the higher of the following two amounts: either 80% of the domestic tariff for equivalent items, or **the rates applicable pursuant to articles 28.3 to 28.7 or 29.7, as appropriate**. If the **designated operator** of posting does not agree to pay the amount claimed within a time limit set by the **designated operator** of destination, the **designated operator** of destination may either return the items to the **designated operator** of posting and shall be entitled to claim reimbursement of the redirection costs, or handle them in accordance with its **national** legislation.

Part III

Remuneration

Chapter 1

Provisions specific to letter post

Article 27

Terminal dues. General provisions

1 Subject to exemptions provided in the Regulations, each **designated operator** which receives letter-post items from another **designated operator** shall have the right to collect from the dispatching **designated operator** a payment for the costs incurred for the international mail received.

2 For the application of the provisions concerning the payment of terminal dues **by their designated operators, countries and territories** shall be classified in accordance with the lists drawn up for this purpose by Congress in its resolution **C 18/2008, as follows:**

2.1 countries and territories in the target system prior to 2010;

2.2 countries and territories in the target system as of 2010 and 2012 (new target system countries);

2.3 countries and territories in the transitional system.

3 The provisions of the present Convention concerning the payment of terminal dues are transitional arrangements, moving towards a country-specific payment system **at the end of the transition period**.

4 Access to domestic services. **Direct access**

- 4.1 **In principle, each designated operator shall make available to the other designated operators all the rates, terms and conditions offered in its domestic service on conditions identical to those proposed to its national customers. It shall be up to the designated operator of destination to decide whether the terms and conditions of direct access have been met by the designated operator of origin.**
- 4.2 **Designated operators of countries in the target system shall make available to other designated operators the rates, terms and conditions offered in their domestic service, on conditions identical to those proposed to their national customers.**
- 4.3 **Designated operators of new target system countries may opt not to make available to other designated operators the rates, terms and conditions offered in their domestic service on conditions identical to those proposed to their national customers. Those designated operators may, however, opt to make available to a limited number of designated operators the application of domestic conditions, on a reciprocal basis, for a trial period of two years. After that period, they must choose either to cease making available the application of domestic conditions or to continue to make their own domestic conditions available to all designated operators. However, if designated operators of new target system countries ask designated operators of target system countries for the application of domestic conditions, they must make available to all designated operators the rates, terms and conditions offered in their domestic service on conditions identical to those proposed to their national customers.**
- 4.4 **Designated operators of countries in the transitional system may opt not to make available to other designated operators the application of domestic conditions. They may, however, opt to make available to a limited number of designated operators the application of domestic conditions, on a reciprocal basis, for a trial period of two years. After that period, they must choose either to cease making available the application of domestic conditions or to continue to make their own domestic conditions available to all designated operators.**
- 5 Terminal dues remuneration shall be based on quality of service performance in the country of destination. The Postal Operations Council shall therefore be authorized to supplement the remuneration in articles 28 and 29 to encourage participation in monitoring systems and to reward **designated operators** for reaching their quality targets. The Postal Operations Council may also fix penalties in case of insufficient quality, but the remuneration shall not be less than the minimum remuneration according to articles 28 and 29.
- 6 Any **designated operator** may waive wholly or in part the payment provided for under 1.
- 7 **For M bags, the terminal dues rate to be applied shall be 0.793 SDR per kilogramme. M bags weighing less than 5 kilogrammes shall be considered as weighing 5 kilogrammes for terminal dues payment purposes.**
- 8 **For registered items there shall be an additional payment of 0.55 SDR per item for 2010 and 2011 and 0.6 SDR for 2012 and 2013. For insured items, there shall be an additional payment of 1.1 SDR per item for 2010 and 2011 and 1.2 SDR for 2012 and 2013. The Postal Operations Council shall be authorized to supplement remuneration for these and other supplementary services where the services provided contain additional features to be specified in the Letter Post Regulations.**
- 9 **Any designated operator** may, by bilateral or multilateral agreement, apply other payment systems for the settlement of terminal dues accounts.
- 10 **Designated operators may exchange non-priority mail on an optional basis by applying a 10% discount to the priority terminal dues rate.**

11 Designated operators may exchange format-separated mail on an optional basis at a discounted terminal dues rate.

12 The provisions applicable between designated operators of countries in the target system shall apply to any designated operator of a country in the transitional system which declares that it wishes to join the target system. The Postal Operations Council may set transitional measures in the Letter Post Regulations. The full provisions of the target system may apply to any new target designated operator that declares that it wishes to apply such full provisions without transitional measures.

Article 28

Terminal dues. Provisions applicable to **mail flows** between **designated operators of** countries in the target system

1 Payment for letter-post items, including bulk mail but excluding M bags **and IBRS items**, shall be established on the basis of the application of the rates per item and per kilogramme reflecting the handling costs in the country of destination; these costs must be **related to** the domestic tariffs. The rates shall be calculated in accordance with the conditions specified in the Letter Post Regulations.

2 Payment for IBRS items shall be as described in the Letter Post Regulations.

3 The rates per item and per kilogramme shall be calculated on the basis of a percentage of the charge for a 20-gramme priority letter in the domestic service, which shall be **70% for countries in the target system prior to 2010 and 100% for countries entering the target system from 2010 or 2012 (new target system countries).**

4 The Postal Operations Council will conduct a study of the cost of handling inbound mail during 2009 and 2010. - monitoring postal payment orders;
- checking that the information concerning users is up to date;
- reporting suspicious transactions to the competent authorities.

14 Electronic data relating to postal payment orders – data transmitted by electronic means, from one designated operator to another, relating to the execution of postal payment orders, inquiries, alteration or correction of addresses or reimbursement; these data are either entered by designated operators, or generated automatically by their information system, and indicate a change in the status of the postal payment order or of the order request.

15 Personal data – personal identification data referring to the sender or the payee, which may be used only for the purpose for which they were collected.

16 Postal data – data needed for the routing and tracking of a postal payment order or for statistical purposes, as well as for the centralized clearing system.

27 Revocability – the ability of the sender to recall his postal payment order (money order or transfer) up to the moment of payment, or at the end of the validity period if payment has not been made.

28 Counterparty risk – risk that one of the parties to a contract will default, leading to loss or liquidity risk.

29 Liquidity risk – risk that a settlement system participant or a counterpart is temporarily unable to fulfil an obligation in its entirety at the required time.

30 Reporting of suspicious transaction – obligation of the designated operator, based on the national legislation and Union resolutions, to provide its competent national authorities with information on suspicious transactions.

31 Track and trace – system that enables the progress of postal payment order to be monitored and its location and status to be identified at any time.

- 2 The data required to execute the postal payment order shall be confidential.
- 3 For statistical purposes, and possibly also for the purpose of quality of service measurement and centralized clearing, designated operators shall be required to provide the International Bureau of the Universal Postal Union with postal data at least once a year. The International Bureau shall treat all individual postal data in confidence.

Article 9

Technological neutrality

1 The exchange of data necessary for the provision of the services defined in this Agreement shall be governed by the principle of technological neutrality, which means that the provision of these services does not depend on the use of a particular technology.

2 The procedures for executing postal payment orders, including the conditions for depositing, entering, dispatching, paying and reimbursing orders and for processing inquiries, and the time limit for making the funds available to the payee, may vary according to the technology used for transmitting the order.

3 Postal payment services may be provided on the basis of a combination of different technologies.

1.1 The postal payment services shall be provided by the designated operators via their network(s) and/or via any other partner network in order to ensure accessibility to these services for the greatest number.

It shall be made subject to the fulfilment by the issuing designated operator of its obligations towards the paying designated operator regarding instalments or the provision of a liaison account.

6 Setting of rates

- 6.1 The issuing designated operator shall set the price of postal payment services.

(Proposal 04, 1st plenary meeting)

Decision C 2/2008

Admission of the media to the 24th UPU Congress

Congress,

Decides

to allow the media to be present at the meetings of the 24th UPU Congress in the capacity of listeners without the right to speak or to vote. The Chairman of Congress and the Chairmen of each Committee shall have the freedom to exclude the media if this proves necessary for the confidentiality of certain meetings.

(Proposal 43, 1st plenary meeting)

Decision C 3/2008

Interpretation of the term "member country" replacing "postal administration" in the Acts of the Union

Congress,

In view of

the need to amend the Acts of the Union, including the replacement of the term "postal administration" hitherto used in the Acts of the Union with the terms "member country" and "designated operator", as requested by resolution C 11/2004 adopted by the Bucharest Congress (hereinafter referred to as the "replacement"), as well as the need to prevent an obstacle for each member country to ratify or accept the Acts of the Union which would be caused by the replacement,

Considering

the fact that each member country was allowed to define the term "postal administration" stipulated in the Acts of the Union within the framework of its national legislation before the replacement, based on resolution C 29/1994 adopted by the Seoul Congress, meaning that some member countries interpreted the term "postal administration" as "governmental authorities responsible for postal services which are stipulated in the Acts of the Union" and that this replacement does not intend to change the concept of the aforementioned resolution and the location of power of supervision over postal services stipulated in the Acts of Union,

Declares officially that

without prejudice to the definition provided in the Acts of the Union, the term member country may include, in order to implement the obligations arising from the Acts of the Union, the "governmental authorities responsible for postal services stipulated in the Acts of the Union" within the framework of member countries' national legislation, as the context requires.

(Proposal 21, Committee 3, 1st meeting)

Decision C 4/2008

Admission of proposals presented between 23 January 2008 and 12 February 2008

Congress,

Noting

that the decision to bring forward the opening of the 24th Universal Postal Congress from 13 August 2008 to 23 July 2008 was taken by the Council of Administration on 8 February 2008, which is less than six months before the opening of Congress,

Considering

that Union member countries were informed by circular letter No. 2150(DER.POT)1149 of 26 July 2007 and International Bureau circular No. 20 of 21 January 2008 that they could submit proposals for Congress until 12 February 2008, by virtue of article 122, §§ 1 and 2, of the General Regulations,

Taking into account

the impossibility, for member countries and the two Councils, of abiding by a new deadline of 22 January 2008,

Also considering

that the retroactive application of such a new deadline, to the detriment of Union member countries and predating the date of its notification, would go against a fundamental legal principle,

Decides

to accept all proposals that reach the International Bureau by 24.00 hours, Swiss time, on 12 February 2008 as having been presented in time.

(Proposal 38, Committee 3, 1st meeting)

Resolution C 5/2008

Postal economics

Congress,

Considering
the excellent, internationally recognized research work carried out by the Postal Economics Project Group of the Postal Operations Council during the Bucharest cycle,

Having observed
internal and external sector stakeholders' interest in better understanding the economics of postal infrastructure and networks worldwide,

Acknowledging
that the work conducted by the group sustains development and cooperation policies and regional plans,

Further noting
that research efforts aimed at facilitating the improvement of postal infrastructure in developing countries must be pursued so that the sector contributes to economic and social development and fosters trade,

Recognizing
that the policy issues covered by the research work of the group constitute priorities for governments involved in reform of their postal sector, poverty reduction and economic inclusion strategies, and are therefore of primary interest to the Council of Administration,

Charges

the Council of Administration:

- to further develop the postal economics research work during the Nairobi cycle;
- to determine the relevant economic policy issues to be covered by research;
- to examine regulation models and measure their impact on universal service;
- to invite international donors and other relevant multilateral agencies to participate in the research work and discussions of the group;
- to encourage renowned academic institutions to share their analysis of the postal sector economy with the group;
- to ensure that the results of these research and outreach activities are shared with and taken into consideration by the International Bureau and the relevant Union groups involved in cooperation and universal service activities for the benefit of member countries, especially the developing and least developed countries, in their national development plans.

(Proposal 56, Committee 8, 1st meeting)

Resolution C 6/2008

Development cooperation policy of the Universal Postal Union for the period 2009–2012

Congress,

Having examined

the joint reports presented by the Council of Administration, the Postal Operations Council and the International Bureau on development cooperation in the Universal Postal Union (CONGRÈS–Docs 29, 30 and 30.Add 1),

Noting

the positive results from the implementation of the development cooperation programme during the period 2005–2008, particularly the achievements within the framework of regionalization of development cooperation and, at national level, the integrated postal reform and development plan (IPDP),

Also noting

the contribution made by Regional Advisers in implementing cooperation policy in the field, particularly by helping developing countries to achieve the objectives of the Bucharest World Postal Strategy,

Aware

that, through the development of a three-dimensional global postal network (physical, electronic and financial), the UPU is called upon to play an even more active role in the service of its member countries,

Convinced

of the need to include UPU development cooperation policy within the framework of the Nairobi Postal Strategy,

Decides

- i to continue to apply the regional approach during the 2009–2012 period, in the form of regional development plans and regional projects, as the main tools for implementing the Nairobi Postal Strategy in the field;
- ii to continue to help developing countries implement postal sector reform by means of integrated postal reform and development plans (IPDPs);
- iii to help designated postal operators acquire the structures needed to provide quality universal postal service and improve their position in the domestic postal market;
- iv to continue to provide UPU assistance to the least developed countries and countries in special situations, in the form of multi-year integrated projects (MIPs), subject to the resources available;
- v to also take account of the priority needs of other developing countries;
- vi to continue the expansion and promotion of distance learning through the TRAINPOST system and the training of experts and further training of managers in the priority areas of the Nairobi Postal Strategy, particularly in the form of regional and international partnerships;
- vii to assign at least 60% of the resources available in the Union's regular budget for development cooperation to assistance projects for developing countries;
- viii to maintain UPU presence in the field by adapting it to the many different needs involved in implementing the regional approach and to the financial options for development cooperation;

- ix to support, in so far as the needed resources are available, the efforts of countries seeking to obtain financial resources for the postal sector from funding institutions to carry out investment projects and projects to modernize postal services;
- x to develop institutional and sectoral partnerships as part of international initiatives (Millennium Development Goals, Aid for Trade, Connect Africa) in order to give the postal sector access to external funding,

Invites

- i countries receiving aid to marshal their human, financial and material resources and, in the spirit of good governance, to make the best possible use of that aid;
- ii the Restricted Unions to support the joint implementation of regional development plans and provide the necessary resources for this;
- iii industrialized countries and other donors to help and support the implementation of regional development plans;
- iv all Union member countries to contribute to the Special Fund, making it possible to finance technical assistance activities, particularly in the area of training,

Instructs

the Council of Administration and the Postal Operations Council to take appropriate measures to ensure the implementation of Union development cooperation policy, and in particular:

- to set the total budgetary credit earmarked for development cooperation in the Programmes and Budgets for the 2009–2010 and 2011–2012 cycles at a level at least equal to that of the 2005–2006 and 2007–2008 cycles;
- to finalize the development cooperation programme for 2009–2012 on the basis of this resolution and the Nairobi Postal Strategy,

Also instructs

the International Bureau:

- to adapt the methods and means of UPU presence in the field to the needs of the regional approach and to the resources available for development cooperation;
- to use the budget credits for development cooperation for financing, as a priority, projects other than those financed by the Quality of Service Fund (QSF); combined QSF/MIP financing based on simplified procedures may be considered for least developed countries with limited QSF resources,

Further charges

the Council of Administration, the Postal Operations Council and the International Bureau, each within its area of expertise, to take into account the transversal role of development cooperation with the aim of further strengthening information exchange and cooperation between the various Union bodies in their work on behalf of Union member countries, particularly developing countries.

(Proposal 39, Committee 8, 2nd meeting)

Resolution C 7/2008

Customer relations and customer service

Congress,

Conscious

of the importance of making the needs of customers the key focus of all activities of the Post as reflected in the mission and activities of the Union,

Noting

the emphasis placed on customer issues by the 2004 Congress and in the Bucharest World Postal Strategy and,

Stressing

the value of partnerships and partnering between the postal operators and their customers in the customer satisfaction value chain, at international, regional and national levels,

Recognizing

- that weak links in the service delivery value chain will have a strong impact on all of the suppliers and their capacity to provide quality services to customers as promised and expected;
- that despite the efforts being made to increase the focus on customer service, there is not yet universal implementation of standards, guidelines and best practices by all of the service suppliers in the universal service value chain and network;
- the need to share knowledge, best practices and conduct benchmarking to monitor and ensure progress,

Urges

the postal operators of Union member countries to:

- make the needs of customers the key focus of their activities;
- adopt and promulgate a customer service charter;
- commit to act as customers and suppliers to each other;
- share information, resources and experience in targeted customer service areas;
- make customer relations management and customer service a key focus of their training programmes;
- participate in the activities undertaken at Union level,

the Restricted Unions to:

- support the efforts of their members to become customer driven;
- facilitate the development of marketing expertise,

Instructs

the Postal Operations Council, in conjunction with the International Bureau, to ensure that appropriate attention is paid to POC and CA initiatives and proposals that impact on customers, particularly initiatives and proposals that may affect costs and prices, and that, where possible, formal consultation with customer groups is undertaken to gauge external opinion,

Further instructs

the Postal Operations Council, in conjunction with the International Bureau, to:

- assist the postal operators of Union member countries to become more customer oriented, facilitating the sharing of best customer relations practices and developing capacity and capabilities in all areas of customer service relationships;
- monitor developments and participate in the work of other organizations at regional and international levels in the areas of customer services and customer relations;
- include in its work programme the following key issues:
 - a Customer service charter: encourage and facilitate its adoption;
 - b Customer satisfaction surveys: encourage and facilitate the undertaking of surveys which include both end customers and internal customers in the service delivery value chain. Apply benchmarking to monitor progress;
 - c Customer service and complaints management: ensure that continual improvement of the complaints-handling process and the overall quality of service and customer service are a permanent focus and objective of postal organizations;
 - d Training of staff in customer management and service areas: the Union's activities devoted to capacity building, including the related training programmes, should place emphasis on customer issues;
 - e Customer service commitment to build a customer-supplier relationship: all of the postal operators of Union member countries with universal postal service obligations should commit to act on customers' needs and act as customers and suppliers to each other;
 - f Customer day: take steps to encourage member countries to hold a customer day each year to improve interaction with, and seek feedback from, customers,

Invites

the Consultative Committee to participate actively in POC customer relations activities to ensure that customer issues are brought to the fore in POC deliberations.

(Proposal 31, Committee 7, 1st meeting)

Resolution C 8/2008

Markets and marketing development

Building capacity and capabilities in the areas of marketing and sales – assuring sound knowledge of the markets – facilitating access to the broadest knowledge and expertise available within the industry

Congress,

In view of
the rapid pace of change in the postal industry worldwide in terms of globalization, competition, a new technological environment and more sophisticated and demanding customers,

Noting that
there is in many cases a capacity and capability gap between postal operators and market requirements, particularly in terms of market knowledge,

Noting that
positioning the universal postal network to be an effective and valued infrastructure and a vehicle for economic and social development in all Union member countries requires all of the links in the network to be capable of providing effective solutions to partner postal organizations in the service delivery chain and also to customers,

Acknowledging

the benefits of globally and regionally-focused research activities which enable governments, regulators, the bodies of the Union, and postal operators of member countries to increase knowledge and responsiveness to evolving markets' requirements, customers' needs and current and predicted changes in the postal industry,

Instructs

the Postal Operations Council and the International Bureau to:

- a initiate appropriate research projects concerning part or all of the postal sector and/or business, monitoring changes within the industry and making available to the bodies of the Union and to the member countries the outcomes of the research undertaken or accessed on a partnership basis;
- b develop adequate programmes and projects including the development of management guides and tools (i.e. implementation of a capacity-building approach), with a view to supporting the Posts in building sustainable capacity and capabilities in the various areas of markets, marketing and sales;
- c establish sharing networks and industry partnerships at international, regional and national levels and set up adequate working structures to facilitate the roll-out and implementation of the targeted projects and activities;
- d launch appropriate development projects aimed at facilitating access to markets and making it easier for customers to undertake international trade through the postal network, particularly for small and medium companies and for businesses operating from a "home" environment,

Urges

Postal operators and Restricted Unions to:

- a facilitate capacity-building in the targeted areas;
- b set up adequate working structures and partnerships to manage the targeted activities;
- c contribute to resource networking,

Invites

Governments to:

- a ensure that policy-making and the mechanisms put in place to regulate markets will not constitute barriers to markets development and the effectiveness of the postal network;
- b help build effective infrastructure, capacity and capabilities needed to facilitate markets development and making the postal network a valued infrastructure for economic and social development;
- c pay particular attention to what needs to be done in markets and marketing development to enable countries, particularly in the developing world, to identify and take advantage of the potential for development and be in a position to better serve the different customer groups,

Invites

the Consultative Committee to participate actively in POC markets development through sharing of knowledge and expertise in this field.

(Proposal 32, Committee 7, 1st meeting)

Resolution C 9/2008

Direct mail markets development

Congress,

Taking note
of the activities undertaken during the period 2005–2008 aimed at developing direct mail markets around the world,

Considering

- direct mail's growing importance in terms of overall letter-mail volumes;
- that direct mail is helping to counter the decline of traditional letter mail;
- that the development of direct mail markets encompasses numerous opportunities to increase the volumes, revenues and profitability of the postal services;
- that increased direct mail activities promote the growth of many other traditional and value-added postal products and services, including letters, parcels, logistics and financial services,

Aware

that countries and regions are at different stages of direct mail market development,

Acknowledging

the economic benefits to countries, designated operators and other industry stakeholders in the direct mail value chain,

Convinced

of the value of strengthening relations with these stakeholders for mutual benefit,

Recognizing

the value and positive role of the Union and its Direct Mail Advisory Board in guiding the Postal Operations Council on matters relating to direct mail and in providing valuable industry expertise to postal operators in general,

Urges

Member countries and their designated operators to undertake activities aimed at:

- fostering the development of the local direct mail market as a means of promoting economic and market expansion;
- increasing direct mail volumes domestically and internationally;
- increasing expertise in direct mail marketing as used by businesses to acquire and retain customers;
- educating other stakeholders about direct mail and direct marketing so that they acquire the necessary skills;
- improving knowledge of the direct mail market and developing tools to monitor volume growth and quality,

Instructs

the Postal Operations Council, in conjunction with the International Bureau, to:

- continue the work of the DMAB, aimed at fostering the growth of direct mail as a factor of economic and market expansion, by increasing market knowledge and by developing the expertise of stakeholders at all levels;

- continue to promote the development of direct mail markets worldwide in partnership with the industry,

Also instructs

the International Bureau to maintain at least the current level of resources to manage and implement the activity plans defined by the DMAB.

(Proposal 33, Committee 7, 1st meeting)

Resolution C 10/2008

Postal market development

Congress,

In view of
the rapidly changing postal environment, including globalization, liberalization, competition, regulation, new technologies and more sophisticated customer demand,

Noting
the urgent need for postal services to become more enterprising, innovative and viable, and the particular need for developing countries to upgrade postal networks and services,

Also noting
the twin imperatives of governments to effect change without impairing the postal services' ability to maintain and improve services, including the provision of high quality universal service,

Recognizing
the gap between UPU designated operators in terms of market knowledge,

Acknowledging
the activities undertaken by the Postal Operations Council (POC) during the 2005–2008 period, directed at facilitating access to knowledge and expertise in market development,

Further noting
the valuable cooperation and results achieved through the work of POC Project Groups,

Also acknowledging
the emphasis placed on postal market development in the Nairobi Postal Strategy,

Mindful that
the market segments of letter post, and value-added letter services, parcels and postal financial services, will continue to be valued businesses of designated operators,

Aware
of the value to the customer and the postal industry of other products and services in the courier, express, logistics and E-business market segments,

Further acknowledging
the benefits of market growth that flow to all postal sector stakeholders,

Urges

governments to:

- provide the necessary framework for the growth of postal markets;

- create a business environment that will enable and encourage the postal services to improve performance and satisfy customer needs,

Invites

designated operators and Restricted Unions to:

- cooperate with the bodies of the Union to increase market knowledge and respond rapidly to the changing business environment;
- take advantage of the postal infrastructure to diversify the portfolio of products and services made available through the postal network;
- improve capabilities in marketing and sales functions,

Instructs

the Postal Operations Council to:

- facilitate the growth of letter post, parcels and postal financial services markets, as well as express services, logistics and E-business, including hybrid mail, E-shopping, electronic postal certification and .post;
- increase market knowledge by monitoring changes and measuring growth within the industry and disseminating the information widely to all stakeholders;
- develop programmes designed to increase capabilities in business development, marketing and sales;
- create or maintain business relationships and partnerships at international level that help meet the market growth objective,

Also invites

the Consultative Committee to participate actively in the work of the POC to facilitate market growth.

(Proposal 37, Committee 7, 1st meeting)

Resolution C 11/2008

Future work on development of an action plan for letter post

Congress,

Conscious

that the mission of the Union, as set out in the Preamble to its Constitution "... is to stimulate the lasting development of efficient and accessible universal postal services of quality in order to facilitate communication between inhabitants of the world ...",

Recognizing

that the universal postal service is a core value of the Union and of its members in order to support the single postal territory of the Union, as expressed in article 3 – Universal postal service of the Universal Postal Convention (Bucharest),

Realizing

that the permanent provision of quality basic postal services at all points in the territory of the member countries of the Union, at affordable prices, carries with it the need to "... ensure that the universal postal service is provided on a viable basis, thus guaranteeing its sustainability.", as set

out in article 3, paragraph 4, of the Convention, and that basic and supplementary letter-post services constitute a fundamental core of quality basic postal services throughout the world,

Noting however

that, despite specific mandates given by past Congresses to consider how to improve various letter-post services, there is no integrated, forward-looking plan that would address the fundamental needs of the world's inhabitants for modernized letter-post services and the specific challenges and opportunities for letter-post services in a 21st century environment,

Recognizing

that other product and service areas covered under the Acts of the Union, such as postal parcels, postal financial services, electronic products and services and EMS, have benefited from being guided by a similar integrated overall action plan that takes into account all aspects of how the Union and its various stakeholders can mobilize resources and innovate to ensure the continued success of the Union's member countries in these areas, and to foster international trade and postal development,

Exhorts

the Postal Operations Council to:

- support all viable means to foster universal postal service for letter-post services through innovation and appropriate investment in the modernization of basic and supplementary letter-post services so as to ensure its sustainability;
- encourage initiatives to effect the positive changes needed to assure the sustainability of basic and special letter-post services on the territory of their respective member countries,

Further exhorts

the parties concerned to take active steps to invest in modernized basic and supplementary letter-post services, with a view to fostering the sustainability and economic viability of the universal postal service for letter post,

Instructs

the bodies of the Union:

- to all take active steps, in their respective areas of responsibility, to ensure the development of an integrated, forward-looking overall plan for letter-post services within the ambit of the Universal Postal Union, as a critical part of the Union's strategic planning for the future;
- to establish a group responsible for developing such an integrated action plan for the period 2010–2013 and beyond, with emphasis on:
 - market conditions and customer expectations,
 - a strategy for letter-post services,
 - product segmentation (including a review for the classification of mail items within the letter post and parcel post segments), development and improvement plans, and timetables,
 - extending the exchange of electronic data, quality of service measurement and the integration of additional service features and linking them with pay-for-performance incentives where appropriate,
 - a harmonious implementation of the action plan developed through cooperation and coordination between the bodies of the Union;

- to take, prior to the 2012 Congress, specific initiatives within their respective areas of responsibility to put in place elements of the action plan that they have developed and approved;
- to present to the 2012 Congress, as appropriate, proposals designed to ensure the implementation of elements of the overall action plan during the 2014 to 2017 period.

(Proposal 59, Committee 7, 1st meeting)

Resolution C 12/2008

Innovation as key to the future of the postal network

Congress,

Noting

the dramatic changes taking place in the postal environment and the accelerating speed of transformation, which require changes in postal products, business models, solutions and management practices,

Recognizing

the need to keep pace with ongoing developments and to adapt postal products and procedures in line with the new demands arising from recent advancements and transformations,

Re-emphasizing

the mission of the Union to "stimulate the lasting development of efficient and accessible universal services of quality",

Acknowledging

the role of innovation and of innovative postal products, solutions and business models in efforts to maintain and further strengthen the competitiveness of member countries,

Decides

to mark the four-year cycle ending with the 2012 Union Congress by highlighting the theme "Innovation in the postal sector",

Invites

member countries to take account of advances in the development of postal products, solutions and business models, and to endeavour to create new and adaptive services and trends based on those advances,

Instructs

the Postal Operations Council, assisted by the International Bureau, to:

- set up an internal body responsible for conducting regular studies on innovation in the postal sector (innovative postal products, solutions, business models and management practices);
- promote a culture of innovation among member countries;
- formulate measures to promote innovation and evaluate the impact of innovation on quality of service;
- develop a strategy for innovation in the international postal service;

- benchmark innovative products, solutions, business models and management practices;
- submit the results and findings of this work to the Council of Administration.

(Proposal 63, Committee 7, 1st meeting)

Resolution C 13/2008

Insured service

Congress,

Considering
resolution C 27 of the 2004 Bucharest Congress on customer relations, which focused on helping designated operators to become more customer-oriented and responsive to their changing needs,

Also considering
concepts such as "customer care", which is already included in the Union mission, and the importance given in postal strategies to the role of the customers in promoting postal services and increasing the range of services according to the needs of the customers,

Aware
of the fact that the provision of insured letter-post items is a potential growth area for the international mail services and the existence of the insured service in almost all the Union member countries, especially those with strong labour markets, will not only attract the attention of customers, but also increase the revenue and traffic of designated operators,

Instructs

the Postal Operations Council to study the subject and, in collaboration with the International Bureau, take the necessary action for collecting the views of all the member countries as regards the inclusion of this service among the basic services, and adopt suitable strategies in this regard.

(Proposal 79, Committee 7, 1st meeting)

Resolution C 14/2008

International registered, insured and Express services (international value-added letter services)

Congress,

Acknowledging
that the provision of value-added letters is a potential growth area for international mail services because customers have high expectations and need to know quickly, by electronic means, first of all if and when their registered or insured letter or Express item has arrived in the destination country and, secondly, if it has been delivered or if delivery has been attempted,

Aware
that a number of designated operators are scanning registered, insured and Express items on receipt so that confirmation of delivery can be transmitted electronically, resulting in designated operators of origin being able to improve their customer service by uploading this information to their domestic websites so that customers can see the information themselves,

Further aware

that this also reduces costs and time, in that it eliminates the need for customers to contact their local customer care service,

Recognizing

that these services have been improved and developed to meet the needs of customers, in particular, the growth in small packets resulting from Internet purchases and business documents,

Noting

that Letter Post Regulations relating to *Exprès* items, registered items and insured items have been amended to facilitate these developments and amended further to facilitate the use of an electronic CN 08,

Instructs

the Postal Operations Council:

- to monitor the further development of these international value-added letter services by seeking progress reports from the designated operators;
- to encourage all Union member countries and their designated operators to exchange data concerning these international value-added letter services, in accordance with the Union's technical standards, by incorporating further provisions for this in the Letter Post Regulations, if necessary.

(Proposal 80, Committee 7, 1st meeting)

Resolution C 15/2008

Quality of Service Fund

Congress,

Having examined

the report submitted by the Postal Operations Council on the progress of the Quality of Service Fund (CONGRÈS–Doc 31 and Add 1),

Noting

that in its eight years of activity, the QSF has launched more than 400 projects which have had a substantial impact in terms of improving the quality of the mail service in over 150 beneficiary designated operators,

Observing

that, through the volume of financial resources released, the Fund has become a vital component in the Union's development cooperation system,

Aware

that the Fund's innovative structures and operating rules have enabled the Board of Trustees, with the support of the International Bureau and in collaboration with the Restricted Unions, to manage the Fund's financial resources effectively and foster close regional cooperation, as demonstrated by the regional and global projects,

Concerned

that, despite the changes in the method of calculating QSF contributions introduced by the Bucharest Congress, the revenues generated do not appear to adequately address the service quality investment costs of the least developed countries (LDCs) and certain countries in a special position,

Bearing in mind

the need to rationalize and expedite the use of all the resources available, and the ongoing concern about ensuring the overall coherence of the Union's activities, more specifically in the area of development of service quality for international mail with focus on performance measurement and evaluation and enhancement of network operations,

Persuaded

that the efforts made by the Board of Trustees and the Postal Operations Council with the support of the International Bureau to optimize and simplify the Fund's rules must be continued, as must the efforts to coordinate the formulation, monitoring and evaluation of QSF projects,

Also convinced

that extending the Trust's duration and guaranteeing the funding for its activities for 2010 to 2013 would be fully consistent with Objective 1 of the Nairobi Postal Strategy and would constitute a major source of funding for activities related to the fields described in article 7.2.1 of the QSF Deed of Trust,

Further convinced

that, depending on the decisions taken on terminal dues and assuming that international mail flows remain stable, it would be desirable that the level of annual financing generated by the Fund between 2006 and 2009 be maintained, as far as possible, from 2010 to 2013,

Attentive

to the need to hold elections to choose the members of the QSF Board of Trustees, whose current incumbents have remained in place since 2001,

Decides:

- that the date for dissolving the Trust, which is currently set at 31 December 2012, shall therefore be postponed until 31 December 2016;
- that the link between the Fund and terminal dues shall be maintained;
- that QSF projects should continue to focus on improvements in the quality of service of beneficiary designated operators, particularly the quality of the inbound letter-mail flows subject to terminal dues;
- that the Fund's objectives and the fundamental responsibilities of the Board of Trustees as the Trust management body reporting to the POC shall remain unchanged for the period 2010–2013;
- that QSF work on improving the quality of the universal service in the beneficiary designated operators shall continue during the 2010–2013 period;
- that new elections for membership in the QSF Board of Trustees shall take place after the 24th Congress,

Instructs:

- the Postal Operations Council:
 - to modify article 2.3 of the Deed of Trust so that a new QSF Board of Trustees can be elected before the end of the Trust;
 - to propose, at its 2009 session, procedures for electing the members of the QSF Board of Trustees, bearing in mind that the structure and timing of these elections should ensure both the accountability of Board members and a high level of continuity of knowledge and experience within the Board of Trustees itself;
 - to produce, on the basis of recommendations formulated by the Board of Trustees, updates to the Deed of Trust, the Project Management Manual and the Financial Management Manual, bearing in mind the need to:

- take account of the Congress decisions, in particular those concerning the lists of QSF settlor and beneficiary designated operators, as well as the level and method of calculating QSF contributions,
 - analyze and adapt the rules governing the QSF,
 - facilitate access to Fund resources and accelerate the submission of project proposals and use of available QSF funds by introducing further flexibility in the procedures applicable to the operational and financial management of QSF projects, including regional and global projects,
 - facilitate the submission and implementation of projects relating to quality measurement systems such as the global monitoring system endorsed by the Union which are financially affordable for the beneficiary designated operators;
- the International Bureau:
 - to continue to provide the secretariat for the Board of Trustees and administer the QSF accounts during the 2010–2016 period,
 - in view of the Nairobi Postal Strategy and its implementation, in particular through regional development plans, to take into account the benefits of aligning QSF projects with other projects assisting improvements to the postal networks and the formulation of regional and global QSF projects,
 - to encourage beneficiary designated operators to present projects financed by the QSF and multi-year integrated projects (MIPs).

Resolution C 16/2008

Management of the work of the Union – Further reform of the UPU

Congress,

Recalling

that since the 1989 Washington Congress, the Union has been making efforts to keep its mission, structure and working methods constantly under review to adapt itself in the rapidly changing postal environment and to reflect the interest of its member countries and all players in the postal sector,

Noting

that the 1994 Seoul Congress put in place the current structure of the Union, subsequently creating the Consultative Committee under the purview of the Council of Administration as a framework for effective dialogue between stakeholders at the 2004 Bucharest Congress,

Observing

that most member countries have undergone postal sector reform,

Reaffirming

the need to continue the Union reform process with a view to adapting to shifting requirements in a rapidly changing environment which affects the Union and its members, as stated in resolution C 54/2004 of the Bucharest Congress,

Recognizing with appreciation

the work carried out by the Structure and Constituency of the Union Project Group and Committee 1 of the Council of Administration concerning the continuing reform of the Union,

Also recognizing

the work accomplished by the Acts of the Union Project Group to introduce greater precision in the Acts through the expanded use of definitions of the terms "member country" and "designated operator" in place of the term "postal administration",

Acknowledging

the need to further define and more clearly distinguish the proper role of these entities under the Acts and all players within the Union, and to improve its structure and the organization of its work in order to better address a variety of the Union's issues – governmental, legal and regulatory, economic, operational and technical – which have become more and more complex,

Taking into consideration

the vision defined in the Nairobi Postal Strategy of the postal sector as an essential component of the global economy with the three-dimensional strategic direction of the Union – whether in terms of the three aspects of interconnection, development and governance or of the three elements of the worldwide network – physical, electronic and financial,

Keeping in mind

that the Universal Postal Union is an intergovernmental organization and one of the specialized agencies of the United Nations system,

Instructs

the Council of Administration to establish a working group composed of 10 members of the Council of Administration, 10 members of the Postal Operations Council and the Chairman of the Consultative Committee, with fair regard to geographical representation and level of economic development, which will be responsible for:

- conducting a study on the impact of new market players in the postal sector on the Union and its mission and activities;
- studying possible adjustments to the mission of the Union contained in the preamble to the Constitution, including the practical impact, if any, on the Union's status as a UN specialized agency;
- studying ways to better structure and improve the functioning of Union bodies, with a view to facilitating implementation of the strategy, improve the efficiency of the decision-making processes and working methods of Union bodies, and study how to make optimum use of resources;
- studying various issues relating to the organization and financing of Union extrabudgetary activities;
- studying the role of the Restricted Unions in order to maximize existing synergies, thus improving global performance;
- reporting on the progress of work and presenting recommendations to the Council of Administration based on the results of the studies,

Also instructs

the Council of Administration:

- to establish the rules of procedure of the working group and designate its Chairman from among the 10 CA members;
- to formulate proposals for reform, based on the working group's recommendation, for submission to the 25th Congress,

Charges

the Postal Operations Council to designate its representatives for participating in the study on reform,

Encourages

member countries to participate actively in Union reform activities by providing as much input and as many new ideas as possible, to enable the Union to adapt to the rapidly changing and dynamic environment in order to respond effectively to the needs of its membership and maintain its leadership in postal services worldwide.

(Proposal 60, 5th plenary meeting)

Resolution C 17/2008

Classification of countries and territories for terminal dues and Quality of Service Fund purposes

Congress,

Bearing in mind

the ongoing reform of the Union terminal dues system, which is intended to be country-specific and affordable, and must maintain the universal service obligation of affordable and accessible postal services for all persons,

Taking into account

the classification of countries, which defines member countries and territories as either target, new target or transition countries,

Considering

that the "one size fits all" approach to postal development indicators and the linked country classification will unavoidably result in an extremely limited number of results that might not be equitable,

Conscious

that the growing impact of globalization is resulting in a number of smaller member countries having to make rapid transitions from agricultural economies to service economies,

Also conscious

that certain countries that are mostly dependent on diminishing natural resources are transitioning to service economies,

Aware

that rapid shifts to service economies do not permit the timely but critical social and other infrastructural development for these member countries, or the training and development of their peoples to access the new economic mainstreams of these economies,

Noting

that globalization has seen a growing trend in multinational corporations relocating their operations to these newly established service economies, including the relocation of a vast number of highly paid but transient workers who have the core competencies and skills to support these operations,

Also noting

that several member countries that essentially depend on natural resources in their national economies attract, in a noticeable way, foreign workers from other developing or least developed countries, and that these foreign workers exceed in their numbers the local populations,

Also aware

that these foreign workers can be either highly paid compared to the local population, or lowly paid compared to the local population, either instance creating an imbalance in the purchasing capacity of the populations,

Acknowledging

that in these new markets there will, for the foreseeable future, be a multi-tiered economy which will skew the statistical data and criteria used to classify these member countries, specifically the GNI and GDP,

Realizing

that these data will not accurately reflect the economic realities of the local populations of these member countries,

Observing

that any increases in local postal tariffs have the potential to place these administrations in conflict with the universal service obligation of the Universal Postal Union for their populations,

Instructs

the Council of Administration:

- to develop and implement a process for submission of well argued and evidenced appeals to account for anomalies or inconsistencies in individual country classification cases;
- to reclassify countries which can prove with well argued evidence that there are valid reasons why their right to be kept in the transition system should be preserved;
- to hear any appeals and issue a decision no later than the Council of Administration session of 2009.

(Proposal 71.Rev 1, Committee 5, 2nd meeting)

Resolution C 18/2008

Classification of countries and territories for terminal dues and Quality of Service Fund (QSF) purposes

Congress,

Having adopted

the provisions of the Union's new terminal dues system,

Considering

that Bucharest Congress resolution C 13/2004 instructed the Council of Administration to establish an acceptable system for the classification of countries,

Having observed

that the need for preferential terminal dues rates decreases with the country-specific potential to self-finance postal development and increases with the country-specific difficulties in serving the postal territory and with the postal service level provided,

Noting

that the gross national income per capita reflects the potential to self-finance postal development and that the average costs per letter reflect the difficulties in serving the postal territory,

Bearing in mind

that the special needs of small countries/territories, i.e. small island developing countries/territories and land-locked countries/territories in similar circumstances, have to be fully taken into consideration,

Recognizing

the special needs of least developed countries for preferential treatment,

Decides

- to endorse the methodology for the classification of countries in five groups, as described in CONGRÈS–Doc 19.Rev 1.Annexes 1 and 2, subject to the following adjustments:
 - the maximum value of the postal development indicator (PDI) in Group 5, used for purposes of classification in Group 4, should not include the highest PDI value of countries found to be eligible for graduation from the list of least developed countries (LDCs) prepared by the United Nations Economic and Social Council (UNECOSOC);
 - paragraph 24 in CONGRÈS–Doc 19.Rev 1.Annex 2 should be deleted so that countries are not assigned to a different group solely on the basis of not having provided tariff data for purposes of classification;
- to adopt a four-year classification cycle as of 2010;
- on the classification of countries in five groups for terminal dues and quality of service fund purposes, as shown in the lists in Annex 1. The provisions concerning terminal dues rates and levels of contribution and access to QSF funds are specified in the Convention,

Authorizes

the Council of Administration to decide on the temporary downward reclassification of countries due to war or extremely severe economic crisis.

Resolution C 19/2008**Leveraging wider sector involvement to make development cooperation more effective and forward-looking**

Congress,

Considering

- that two important programmes of the Nairobi Postal Strategy aim, respectively, at "improving access to universal postal service" and "embracing new technologies to help universal service providers to be more efficient";
- that modernization of designated operators and the development of innovative products are among the conditions for achieving the main objectives of postal development,

Recognizing

the functions of the International Bureau in the area of development cooperation, set out in the General Regulations,

Also recognizing:

- that a wide range of technologies that facilitate access to the postal network, protect revenue collection, optimize postal operations and reduce the cost of processing mail are currently available and are being continuously improved;
- that the needs of mailers, large and small, need to be effectively addressed by Posts in terms of products, services and prices,

Acknowledging:

- that the Union plays a key role in helping member countries get acquainted with new technologies as they become available;
- that the Union has developed effective principles and mechanisms (regional development plans, IPDPs) which help member countries define their reform and modernization priorities;

- that country priorities, as defined at the regional level, include areas of improvement such as "a secure physical network", "secure tracking of movements of mail" (Africa), "creation of the conditions to maximize the use of new technologies so as to enhance performance and meet customers' changing needs" (Latin America and the Caribbean), and the development of cost accounting systems, cost studies, kiosks or telecentres (Asia Pacific),

Affirms

- that effective partnerships between Union member countries and third parties can facilitate dissemination of a wide range of postal technologies, and help Posts meet the challenges of liberalizing markets and the changing needs of customers;
- that effective partnerships between postal operators and their clients (the postal users) can help to secure the future of the wider postal sector;
- that the Union, following in the footsteps of other organizations of the U.N. system, benefits from a gradual and controlled involvement of the wider postal sector in the Union's development cooperation activities,

Instructs

the Postal Operations Council and the Council of Administration, when implementing the Union cooperation policy:

- to encourage their members, and in particular those from the least developed countries, to avail themselves of cost-effective, affordable technologies that preserve the postal network, facilitate the secure collection of revenues, and enhance the value of postal services;
- to seek as needed the advice and expertise of the members of the Consultative Committee and member countries in the formulation and evaluation of development cooperation projects for the ultimate benefit of Posts and users/customers;
- to examine, in liaison with the Consultative Committee, the possibilities of launching public/private partnerships in the context of the Union, with a view to allowing the development of projects which are designed to help universal service providers be more efficient, in accordance with CA decisions and the rules applicable to cooperation development.

(Proposal 88, Committee 8, 3rd meeting)

Resolution C 20/2008

Nairobi Postal Strategy

Congress,

Taking account of:

- the fruitful and intensive discussions which took place during the UPU's Strategy Conference in Dubai in November 2006;
- the work of the Council of Administration and the Postal Operations Council in the area of strategic planning;
- the conclusions and views expressed during a series of regional round tables, held throughout 2007, which provided over 150 countries with the opportunity to discuss the draft Nairobi Postal Strategy while outlining their own regional priorities;
- the results of the work of Congress as a whole,

Also taking account of
the draft Nairobi Postal Strategy, prepared collaboratively by the CA, the POC and the International Bureau, which takes into consideration the views expressed during a general consultation of the Chairmen of the CA and POC Committees, Action Groups and Project Groups, all Union member countries, and the Restricted Unions,

Aware
of the continuing need to adapt the provision of postal services to developments in the postal environment and the changing needs of customers,

Approves

the Nairobi Postal Strategy,

Appeals urgently

to governments, designated operators and the Restricted Unions to take all necessary action to implement the Nairobi Postal Strategy, adapting it as necessary to their regional, national and legislative particularities,

Invites

the regions and the Restricted Unions to integrate the relevant elements of the Nairobi Postal Strategy into their respective priorities and action programmes,

Instructs

the permanent bodies of the Union, in accordance with the provisions set out in its General Regulations:

- to implement the objectives and programmes defined in the Nairobi Postal Strategy;
- to take without delay, within the framework of their respective competencies, all appropriate measures to attain the objectives set and, to this end, determine means of implementing the strategies to achieve the expected results;
- to regularly examine the state of implementation of the Nairobi Postal Strategy and, following this examination, to:
 - make whatever changes in direction and adjustments that are necessary;
 - reassign available resources, whilst noting that the degree of implementation of the Nairobi Postal Strategy will be subject to the ceiling of expenses set and approved by Congress as well as by the budget established and approved by the newly-elected CA;
- to support member countries in the implementation of the Nairobi Postal Strategy, in particular by establishing procedures for carrying out the strategies;
- to regularly disseminate the results achieved to Union member countries;
- to report to the next Congress on the results achieved and the experiences recorded.

(CONGRÈS–Doc 38.Add 2, 5th plenary meeting)

Resolution C 21/2008

Continuation of activities to study and refine the Acts of the Union after the 24th Congress

Congress,

Commending

the Acts of the Union Project Group and Committee 2 of the Council of Administration for their accomplishments during the four-year cycle from 2005 to 2008,

Observing

that the Acts of the Union Project Group undertook to study measures to introduce greater precision in the Acts through the expanded use of definitions and differentiation between the terms "postal administration", "member country" and "designated operator",

Considering

that the effort to review, clarify, and harmonize the Acts of the Union will promote their readability and thereby simplify interpretation of the Acts,

Noting with satisfaction

that the UPU practical guide for drafting legislative texts was published as a result of the work carried out by the Acts of the Union Project Group,

Anticipating

that the introduction and adoption of amendments to the Acts at this Congress may require further substantive review of the texts,

Convinced

that the provisions of the Acts of the Union as well as other legal texts of the Union should be further reviewed and refined in order to ensure the coherence and harmonization of the texts of the UPU Acts during the next four-year cycle after the 24th Congress,

Instructs

the Council of Administration, with the support of the International Bureau:

- to review the Acts of the Union in order to identify inconsistencies and enhance the clarity of these Acts;
- to submit proposals to modify the Acts of the Union to the next Congress.

(Proposal 06, Committee 3, 2nd meeting)

Resolution C 22/2008

Study on the topical value of certain provisions of the Acts of the Union

Congress,

Aware

that the Convention of the Universal Postal Union came into force on 1 July 1875, that the regulatory framework of the Union has since then undergone numerous changes, and that it has been adapted from time to time over the years,

Noting

that in spite of all these changes certain provisions of the Acts of the Union may have become obsolete or may no longer meet the realities of the present day,

Also aware

that the international postal market is changing rapidly and that international universal postal services nowadays compete with other forms of communication, notably electronic services, which are often considered to be more modern and more efficient,

Acknowledging

that an initiative for updating the Acts of the Union will be considered as another sign that the world's postal services are going along with such developments and are making serious efforts to align the regulations for the exchange of international mail with trends in society and technical progress,

Also acknowledging

that such an initiative is not intended to redo all the good work carried out in the recent past for the recast of the Acts of the Union, and will have no influence whatsoever on the guiding principles of the Acts of the Union, but has to be considered as a logical next step in the continuous process of bringing the provisions of the Acts of the Union up to date in order to maintain and enhance their value for optimal regulation of the exchange of international mail,

Convinced

that the awareness that the topical value of the provisions of the Acts of the Union is under permanent scrutiny will contribute to the recognition of the Acts of the Union as the undisputed base for the regulation of the exchange of international mail now and in the future,

Also convinced

that a broadly based initiative will ensure an integral approach and will thus prevent Union members from each submitting proposals for certain areas of interest only, which could result in a lack of coherence,

Instructs

The Council of Administration and the Postal Operations Council to take the necessary initiatives for undertaking a common study for the determination of those provisions of the Convention and the Letter Post and Parcel Post Regulations which may have become obsolete or may need to be adapted or completed to align them with related developments, and giving guidance to the realization of solutions on the basis of the findings.

(Proposal 46, Committee 3, 2nd meeting)

Resolution C 23/2008

Development of postal security standards

Congress,

Acknowledging

that the provision of quality universal postal services relies upon a secure and efficient postal network,

Further acknowledging

that the modern Post will be dependent on a harmonized approach to the protection of employees, property and mail,

Noting

the need to develop and maintain consumer trust and to secure interagency electronic communications,

Further noting

that the development of standards is an integral component in improving the interoperability, quality and efficiency of the three-dimensional postal network,

Aware

of the World Customs Organization's development of the SAFE Framework of Standards to Facilitate Global Trade,

Also aware

of the development of regional and international cargo supply chain security models which do not adequately address the operational needs for the postal sector,

Understanding

the complexity of the international mail transportation network and endorsing the development of security measures based upon a risk analysis of the current threats and vulnerabilities and the certification and accreditation of systems,

Recognizing

the need for the Universal Postal Union and its members to be proactive in the development of security-related standards which are dedicated to the postal sector,

Endorses

the development of minimum security standards and procedures to facilitate the overall security of the international mail transportation network,

Charges

the Council of Administration, the Postal Operations Council and the International Bureau, each within its own area of responsibility, to manage the development of physical and process security standards which are sufficiently flexible and possess the ability to be adapted within the existing operational risk management framework of each designated operator. The minimum security standards should include the broad areas of mail transportation equipment, access control, personnel security and screening, physical and procedural security, information technology security and training.

(Proposal 05.Rev 1, Committee 7, 3rd meeting)

Resolution C 24/2008

Future organization of UPU standardization activities

Congress,

Having considered

the report of the Postal Operations Council on Union standardization activities (CONGRÈS-Doc 22),

Having noted

the considerable achievements resulting from the activities of the Union's Standards Board (SB) during the 2005–2008 period,

Aware

that standardization is considered as a core activity of the Union and a vital part of the functioning of the Union,

Recognizing

that standards will be a key pillar of the Nairobi Postal Strategy,

Further recognizing

the need to strengthen the role of the Union in the development of standards for the postal sector,

Convinced

that the Union should continue to play a leading role in postal standardization activities and should adopt a proactive approach in facilitating developments in this area,

Stressing

the importance of maintaining the Union as the worldwide authority on postal standards,

Aware

that standards are an important part of the field of interest of government representatives/regulators in Union activities,

Invites

governments:

- to recognize the usefulness of Union standards for improving the quality of postal services for their citizens;
- to participate actively in the Union standards development process,

Also invites

designated operators:

- to use Union standards in their daily mail handling operations;
- to participate actively in the Union's standards development process,

Charges

the Postal Operations Council with re-establishing the Standards Board, empowering it:

- to manage the process of development and approval of Union standards;
- to enable postal services to raise their quality and efficiency and to increase interconnection between designated operators through the continued development, publication and implementation of new and existing standards;
- to increase the visibility of Union standards among designated operators, especially those of developing countries, through the publication and wide circulation of Union standards, and through targeted information campaigns;
- to provide solutions which can be applied both to designated operators and other organizations in accordance with commercial, regulatory or legal decisions taken by the Union's Councils and by Congress;
- to adapt its working methodologies so as to promote greater openness, and wider participation by users, manufacturers, Consultative Committee members and other stakeholders, in its work,

Further invites

the Postal Operations Council:

- to maintain the Standards Board, reporting direct to Committee 1 (Standards and Procedures), and entrust it with the handling of all Union standardization activities (in cooperation with the other bodies of the Union);

Recommendation C 26/2008

Philatelic Code of Ethics for the use of UPU member countries

Congress,

Referring

- to article 8 of the Universal Postal Convention (Bucharest 2004), which establishes the status of the postage stamp;
- to article RL 115 of the Bucharest Letter Post Regulations, which specifies the characteristics of postage stamps and postal prepayment impressions; and
- to the Philatelic Code of Ethics adopted by the Bucharest Congress under recommendation C 26/2004,

Observing

that postage stamps continue to have a commercial value when used for philatelic purposes,

Recognizing

that the Philatelic Code of Ethics as adopted by the Bucharest Congress has provided valuable guidance to the issuing postal authorities of UPU member countries in maximizing the value of postage stamps to collectors and issuing postal authorities,

Reaffirms

its commitment to the production of high quality, ethical stamps, and to a vibrant philatelic market,

Recommends

that all issuing postal authorities observe the procedures set out in the attached revised Philatelic Code of Ethics when issuing and supplying postage stamps and postal products.

(Proposal 36.Rev 1, Committee 7, 2nd meeting)

Annexe 1

Philatelic Code of Ethics for the use of UPU member countries

The Philatelic Code of Ethics for the use of member countries comprises the following recommendations:

1 Issuing postal authorities creating philatelic products shall ensure that the use of the postage stamps and other means of denoting payment of postage does not lead to the creation of such postal products as would not result from the exercise of proper postal procedures.

1.1 Philatelic products within the scope of this code include, but are not limited to:

- postage stamps, as defined in article 8 of the Universal Postal Convention (Bucharest 2004);

- cards and first day covers;
- presentation packs and albums;
- stamp yearbooks;
- envelopes with embossed or pre-cancelled/pre-printed stamps;
- cachets for special occasions and events and related products;
- stamps with surcharges, in conformity with article RE 306 of the Regulations of the Beijing Convention.

1.2 Other means of indicating payment (e.g. franking marks, postage paid indicia and other labels) are permitted in accordance with article 8 of the Bucharest Convention, but are not considered to be postage stamps.

2 Issuing postal authorities shall not authorize such use of cancellation dies, hand stamps or other official informative or operational markings as would not result from the exercise of proper postal procedures.

2.1 Issuing postal authorities shall not permit the use of such cancelling or marking devices by persons other than their own employees.

2.2 In certain exceptional cases, and provided that direct supervision is exercised by their employees, issuing postal authorities may authorize the use of these cancelling or marking devices by persons other than their own employees.

2.3 Where issuing postal authorities contract out part of their operational activity and in particular cancellation, the contract shall specify that the cancelling and marking devices shall be used for operational purposes only and in strict accord with the proper postal procedures of the issuing postal authority concerned, which shall ensure that this rule is strictly observed.

3 In the sale of products for philatelic purposes incorporating postage stamps, issuing postal authorities shall ensure that the handling of the postage stamp itself and the use of cancellation dies, hand stamps, cachets and other marking devices is in conformity with their respective postal procedures.

4 For each issue of postage stamps, issuing postal authorities shall ensure that these are printed in sufficient quantity to meet potential operational requirements and foreseeable philatelic needs. In employing cancellation dies, hand stamps and cachets for special occasions or events, issuing postal authorities shall ensure that a sufficient quantity of philatelic products is available to meet requirements. Although issuing postal authorities may not be able to make every stamp issue available from every outlet, they must nonetheless make sure that their customers and philatelists are well-informed at all times where each postage stamp issue is available for postal and philatelic purposes.

4.1 Issues of postage stamps depicting particular regions of a country or territory may be produced, so long as they comply with the requirements of this Code of Ethics and that customers and philatelists are well-informed at all times of their availability for postal purposes.

4.2 Issuing postal authorities shall take care to ensure that they issue stamps which help meet market demands. They shall ensure that the number of stamps issued each year is limited to that which their market will accept. If policies are still to be decided, issuing postal authorities should respond cautiously to market demand to avoid oversupply. They shall not saturate the market and thus drive philatelists and collectors away from the hobby.

5 In choosing themes, logos, emblems and other design elements for their issues of postage stamps, issuing postal authorities shall, at all times, respect intellectual property rights.

6 If issuing postal authorities offer their customers personalized stamps, they shall establish a legal framework to protect the latter's status, in accordance with their national law.

- 7 Whilst issuing postal authorities have no control over the use of postage stamps or articles entrusted to the postal service for postal purposes once they have been sold, they shall nevertheless:
- 7.1 Not support or acquiesce in any artifice intended to enhance sales of their postage stamps or products incorporating postage stamps by suggesting a potential scarcity of these products.
 - 7.2 Avoid any action which might be taken as declaring approval of or conferring official status on products of unofficial origin incorporating postage stamps.
 - 7.3 In the event that they appoint agents to market their philatelic products, instruct such agents to observe the same procedures and practices as those of the issuing postal authorities themselves, to respect the provisions of the Philatelic Code of Ethics and of the issuing postal authority's national postal legislation. Issuing postal authorities shall not permit agents to operate or alter their proper postal procedures nor to control philatelic procedures
 - 7.4 Specifically prohibit the sale or disposal by their agents of their postage stamps or products incorporating postage stamps below face value. In remunerating their agents, issuing postal authorities shall obviate as far as possible any need for agents to sell postage stamps or philatelic products incorporating postage stamps above face value. Due allowance may be made for national or local variations in sales and other taxes which may be pertinent, including at international philatelic exhibitions.
 - 7.5 Issuing postal authorities shall retain full responsibility for the printing and delivery of postage stamps and related philatelic products, either directly, or by making sure that all contractual obligations are fully respected and fulfilled by the agent, in order to avoid any misunderstanding between partners.
 - 7.6 Establish separate contractual provisions for the printers entrusted with producing the stamps and the agents responsible for marketing them.
 - 7.7 Printing of postage stamps should only be awarded to security printers that have signed up to the Code of Ethics for postage stamp security printers and that have achieved or undertaken to achieve certification as a security printer.
- 8 Issuing postal authorities shall not produce postage stamps or philatelic products that are intended to exploit customers.
- 9 Issuing postal authorities shall acknowledge in all their philatelic activities that, while their stamps represent symbols of national identity and culture, such stamps retain a secondary value beyond face value only because philatelists and collectors choose to purchase them. Issuing postal authorities pledge to abide by this code of conduct in order to ensure the long-term survival of the philatelic market in each country.

Recommendation C 27/2008

Initiatives for the sustainable reduction of the negative environmental impact of the postal sector

Congress,

Recalling

the adoption of recommendation C 15/1999 entitled "Environment – Adoption, in the context of the Post, of a policy on sustainable development" and resolution C 16/1999 entitled "Beijing Declaration on Environmental Protection" at the 22nd Congress in Beijing in 1999, and the adoption of resolutions C 64/2004 entitled "Work relating to the environment" and C 67/2004 entitled "The role of Posts in environmental matters" at the 23rd Congress in Bucharest in 2004,

Recognizing

that the impact of postal operations on the environment has been studied and analyzed in detail through a number of beneficial studies conducted by the Sustainable Development Project Group, through the regular updating of the Post and the Environment Operational Guide, through the organizing of a sustainable development symposium, through closer cooperation with the United Nations Environment Programme, and so forth,

Welcoming

the efforts made to increase awareness of the importance of environmental issues and to cultivate a common awareness concerning the specific measures at the seminar held in Dakar in July 2006 and the symposium on sustainable development held in Berne in April 2007,

Taking into account

the fact that specific programmes to reduce the Post's negative impact on the environment, implemented by designated operators or member countries, are more likely to have a broad positive impact,

Recommends

that the designated operators of member countries promote initiatives such as those listed below, aimed at reducing the negative impact on the environment, and to inform the public of progress with these initiatives in their own country:

- initiatives to save energy and natural resources, including cutting down the volume of CO₂ emissions, electric power consumption, fuel consumption, copy paper consumption, and water and sewerage use, resulting from postal service activities;
- initiatives to build, expand and/or remodel post office buildings by taking into consideration methods for the reduction of CO₂ emissions per unit area, through post office buildings that are environment-friendly;
- initiatives for the procurement of environmentally friendly articles, reduction in stocks of printed matter and uniforms, reduction of materials used for packing and packaging, etc.;
- initiatives in connection with logistics, for the introduction of low-emission vehicles and the reduction of CO₂ emissions per tonne of postal items as an effort to promote the protection of the environment in terms of logistics by converting their systems, reduction in the total emission volume of NO_x, the introduction of fuel-efficient and super low-emission gas vehicles, the promotion of driving techniques that are environment-friendly, etc.;
- initiatives in connection with the reduction of waste materials, including the formulation of manual procedures on waste disposal, taking into consideration the control of waste production, the reuse and recycling of articles, and 100% recycling of postage stamps and postcards that are destroyed by Posts because of printing errors, etc.;
- initiatives in connection with socially beneficial activities in the environmental sector as a part of activities to protect the environment in communities, including cleaning on a volunteer basis, construction of flowerbeds, tree planting, and organizing seminars and lectures on the environment.

Resolution C 28/2008

Development of E-commerce in developing countries and the least developed countries

Congress,

Noting

Bucharest Congress resolution C 15/2004 on the development of E-shopping through designated operators,

Further noting

the subsequent work by the International Bureau arising from the Congress resolution,

Considering

the key objectives of the Nairobi Postal Strategy and its strategic programmes,

Further considering

the work of the Telematics Cooperative and the invaluable efforts by the Union to support the growth of E-shopping worldwide,

Bearing in mind

the rising costs of providing postal services in developing countries and the least developed countries,

Also considering

the declining volumes in traditional mail products,

Recognizing

- the digital divide between the least developed countries, developing countries and industrialized countries;
- the special challenges facing the least developed countries and developing countries (funding E-commerce, providing an effective infrastructure, enforcing technical and operational standards, eliminating potential fraud and creating an enabling legal environment),

Urges

the Council of Administration to implement a special programme aimed at assisting developing countries and the least developed countries to successfully meet the five challenges mentioned above and enable designated operators to take full advantage of the abundant opportunities offered by E-commerce.

(Proposal 70, Committee 7, 3rd meeting)

Resolution C 29/2008

Work relating to customs matters

Congress,

Noting

that customs processes form an integral and important part of the entire postal logistics chain which facilitates free and secure global trade,

Further noting

the important nature of the work being carried out by the Customs Support Project Group since its creation by the 2003 POC as a forum where specialists of Posts can work on customs-related

matters, and by the WCO-UPU Contact Committee, which enables strong ongoing collaboration between the two organizations to address issues of common interest,

Considering

that in the area of customs matters, there is a need:

- to closely follow new developments relating to customs regulations for international mail shipments impacting upon Union customs procedures;
- to develop and maintain standards for Union customs EDI messaging and to promote exchange of EDI messaging data among designated operators and between designated operators and customs authorities;
- to complete the Postal Export Guide, which is an information system to provide UPU member countries and their designated operators with electronic access in order to carry out searches to ascertain whether the intended exports are prohibited, restricted or admitted in the country of destination;
- to further improve compliance with customs declarations, and Union customs procedures;
- to pursue development of joint WCO-UPU guidelines for closer coordination between national customs and designated operators on a range of operational issues, including security of the mails and improved efficiency and speed of customs clearance processes;
- to strengthen capacity-building actions among Union member countries by developing E-learning courses and implementing training workshops at the regional level;
- to address safety and security concerns, including the monitoring of the situation regarding infringements of intellectual property rights in relation to postal traffic,

Convinced

that achieving these objectives should be considered as a high priority in the Nairobi Postal Strategy,

Further convinced

that continuously having a group of postal specialists as the Union authority on customs matters under the name of the UPU Customs Group and the WCO-UPU Contact Committee as the joint forum between Posts and customs authorities will facilitate achieving the objectives,

Charges

the Postal Operations Council, in collaboration with the International Bureau, to take all measures to attain the objectives by creating the UPU Customs Group within its structure and re-establishing the UPU-WCO Contact Committee to continue collaboration between the two organizations and pursue joint actions in areas of common interest.

Resolution C 30/2008

Prioritization and funding of market analysis for parcels business

Congress,

In view of

the changes in the international markets, with rising demand for services relating to the movement of goods and merchandise,

Considering

that the postal service is a player in the international movement of goods and merchandise,

Acknowledging

the objective of the Nairobi Postal Strategy of fostering growth of the postal market and services,

Noting

that designated operators must respond appropriately to the increased demand for services that facilitate and develop international commercial exchanges through the movement of goods and merchandise,

Also acknowledging

that the availability to customers of a network whose service features and pricing are compatible with the realities and needs of the market is of fundamental importance,

Also noting

that designated operators cannot achieve optimum focus for developmental work on service features and pricing aspects without due reference to the market and customers,

Stressing

that designated operators will benefit from better understanding best practice customer services, pricing and products offered in the market and benchmarking against best practice service providers,

Further noting

that official international development assistance for trade facilitation purposes is expected to be increased in order to foster inclusive globalization, and could represent an opportunity for expansion of the postal market,

Aware

that certain initiatives, particularly those that impact on costs, can translate into customer issues which adversely impact upon the international movement of goods and merchandise,

Instructs

the Postal Operations Council, in collaboration with the International Bureau, to undertake appropriate external research and robust analysis to better inform on those activities and initiatives which are regarded as impacting upon customers and markets, particularly where adverse implications are foreseen, in terms of aspects such as changes in costs to customers,

Also instructs

the Council of Administration to allocate priority funding to those initiatives and activities that are designed to retain and develop the postal market for the international movement of goods and merchandise in order to enable designated operators to respond effectively to the increasing demand for services and facilitate global growth in exports for small and medium-sized businesses,

Urges

member countries, their designated operators and Restricted Unions to:

- consider customer and market impacts when formulating proposals for national and regional application, particularly for inbound traffic;
- utilize external research and market analysis as a prerequisite step in any activity or proposal to modify service features or pricing for the international movement of goods and merchandise;
- consider the development of parcels as a priority within the framework of the regional development plans.

(Proposal 07, Committee 7, 2nd meeting)

Resolution C 31/2008

Future parcel-post development strategies and associated activities

Congress,

Having considered

the report of the Postal Operations Council on future parcel post development strategies and associated activities (CONGRÈS-Doc 24), and the objectives of the Nairobi Postal Strategy,

Having noted

the considerable achievements that have been obtained from the activities of the POC Parcels Group during the 2005–2008 period (CONGRÈS-Doc 24. Annex 1),

Aware

that parcel post development activities are a core activity of the Union and a vital part of its functioning,

Convinced

that the UPU should continue to play a leading role in parcel post development activities and should adopt a pro-active approach in facilitating development in this area, and should provide adequate funding within the regular budget of the Union to meet the requirements detailed in CONGRÈS-Doc 24, section VIII,

Stressing

the importance of raising the profile of the postal parcel service within the context of the Union,

Considering

the need to take action to increase the designated operators' share of ordinary parcels in the growing global parcels market,

Recognizing

the need to convince the customer that the designated operators can provide a parcel product which offers competitive quality of service and fully meets the demands of the marketplace,

Also aware

of the urgent need to review and re-invigorate the postal parcel product in order to make it more competitive and capitalize on market growth opportunities, including the use of new technologies such as E-business,

Further aware

of the complexity of the Parcel Post Regulations and the importance of the clarity of their content to designated operators,

Invites

member countries:

- to take measures to enable designated operators to provide a good quality parcel service as part of the universal service, to stimulate the economy and reinforce social cohesion;
- to acknowledge the role that Union parcel post development activities play in enhancing and improving the quality of the postal parcel service for their citizens and businesses, and more particularly small and medium-sized businesses;
- to ensure that their designated operators better manage the relationship with their customers and become as commercial, competitive and efficient;

- to ensure that their designated operators focus both on the challenges facing the international postal parcels industry and on implementing the strategies required to meet these challenges,

Also invites

designated operators to participate actively in the Union parcel post development process,

Instructs

the Council of Administration to provide adequate resource and funding for the Union's parcel post development activities as described in CONGRÈS-Doc 24,

Convinced

that the further promotion of quality addressing and postcode systems and the profile raising of improved address quality, including the development of addressing standards should be considered as strategically important Union activities,

Urges

the governments of member countries which have not yet established and made effective use of a quality addressing and/or postcode system:

- to take necessary measures to develop a quality addressing and/or postcode system by creating a working structure composed of relevant national authorities, designated operators and any other important stakeholders;
- to allocate the funds necessary to achieving this goal wherever possible and seek necessary funding from international, regional and national aid organizations;
- to cooperate with the Union towards this end, wherever necessary drawing up national projects or taking part in regional technical assistance projects,

Urges also

the designated operators of member countries:

- to actively participate and implement the S42 and P14 addressing standards, as well as other standards where possible;
- to share, where possible through the Union, with other designated operators practical information on international changes of address, domestic changes of address, mail redirection (moved, not known) data, if possible using a secure Internet domain,

Charges

the Postal Operations Council, in conjunction with the International Bureau, to:

- establish clear policy guidelines for implementing sound addressing systems through a national or regional approach;
- foster continuous dialogue with relevant international donor agencies and other intergovernmental organizations for pursuing consistent, coherent and coordinated addressing system policies;
- seek partnerships with relevant international donor agencies and other intergovernmental organizations in relevant projects aimed at implementing and improving addressing systems at the national or regional level;
- take necessary measures to provide technical assistance to the governments of Union member countries towards the establishment and effective use of a quality addressing and/or postcode system, particularly by developing a national project or participating in a specific regional project;
- take necessary measures to raise the profile of improved addressing quality, enabling the continued development and technological evolution of addressing products and services;
- further develop and promote standards on addressing, with particular attention to the postal sector needs for physical and electronic aspects of addressing, in cooperation with the ISO and other international, regional and national organizations;
- promote, where possible, the practical exchange of information on address changes and any other relevant information, in close cooperation with the Consultative Committee and other appropriate bodies;
- inform and consult the Council of Administration and the Consultative Committee on developments with respect to addressing-related activities,

Charges further

the Council of Administration:

- to propose solutions for the funding of projects carried out in this field.

(Proposal 15, Committee 7, 3rd meeting)

that the support and involvement of the partners of the philatelic sector and close cooperation between them are integral to the success of philately,

Recalling

that the Bucharest Congress, in resolution C 50/2004, established an action plan for the development of philately because:

- philately constitutes an important part of the business of the Post and provides appreciable support for the Post and for postal development in general;
- postage stamps and philatelic products continue to represent a considerable source of revenue for the Post, both when used for normal postal purposes, and from the commercial and philatelic points of view;
- postage stamps represent a specific brand image distinguishing the postal service from private sector delivery services;
- postage stamps continue to serve as ambassadors for countries and their postal services, both nationally and internationally;
- the increased use of postage stamps by the private sector, particularly the direct marketing sector, and the use of personalized stamps represent additional advantages for the promotion of the postal service,

Aware

that many governments are transforming their designated operators into commercial entities, and introducing competition into the letter-post market, but that few have really considered the question of philately during this process,

Considering

that the experiences of postal enterprises whose governments have already moved in this direction can provide valuable lessons to others,

Recognizing

that the issuing of postage stamps as the symbols and brand image of the country and issuing postal authority calls for particular attention and the designation of a single official authority for this purpose,

Noting with satisfaction

the introduction and development of the world stamp numbering system (WNS) as a tool for registering and verifying legal stamp issues,

Urges

- the governments of member countries to:
 - request issuing postal authorities, when issuing stamps, to take into consideration the needs of consumers of basic postal services and collectors, as well as the social and cultural value of the stamps;
 - give due consideration to regulatory questions associated with stamp issuing and philately, including copyright and intellectual property laws;
 - put in place legal mechanisms to guarantee the right of designated operators to issue postage stamps in accordance with the UPU Convention;
 - contribute to the maintenance of tied contributions for the development of philately in order to meet urgent needs, primarily in the area of training,
- issuing postal authorities to:
 - participate fully in the world postage stamp numbering system (WNS);
 - monitor the philatelic market to ensure compliance with national laws on the issuing of stamps and to do their utmost to eliminate or prevent abuses;
 - provide the UPU with information at their discretion on the development of the market;
 - adopt and implement best practices to ensure the participation of industry stakeholders at national level and their cooperation and support at international level;
 - participate more in youth philately activities,

Instructs

the Postal Operations Council to:

- pursue dialogue with partners in the philatelic sector and coordinate philatelic development activities;
- continue its work on determining the most effective and efficient means of informing the members and the philatelic industry about postage stamps officially issued by issuing postal authorities;
- continue to promote the application of best practices and sound business principles in the philatelic sector through targeted activities and training;
- pursue the implementation of training programmes for issuing postal authorities, including innovation, techniques for developing the philatelic market, the use of new technologies and improved security techniques for the issue of postage stamps;
- reflect on the creation of a model database for the online sale of postage stamps for developing and least developed countries;
- define a joint strategy with the International Federation of Philately (FIP) to help issuing postal authorities to implement programmes aimed specifically at young people;
- implement a strategy encouraging UPU member countries to include in their annual philatelic programmes global themes requested by United Nations agencies;
- define a flexible and consistent policy within the framework of the philately development plan, so as to preserve the unique characteristics of the postage stamp, protecting its intrinsic collector value and attributes that distinguish it from other forms of postal prepayment;
- adopt flexible and innovative approaches to the marketing positioning of philatelic products, in keeping with the unique profile of the postage stamp as the core philatelic product.

Resolution C 37/2008

Counterfeit and pirated items sent through the post

Congress,

Noting

that the postal channel is used, together with other distribution channels, for the sending of counterfeit and pirated items,

Notwithstanding

the work on intellectual property under way at other competent international organizations,

Noting further

that the POC Committee 3 Customs Support Project Group has carried out a study on customs and security-related issues concerning intellectual property matters in the Union,

Realizing

that the results of the study revealed that the designated operators have no legal competence in determining whether an item is counterfeit or whether a customs declaration has been falsely completed,

Considering

that it is the responsibility of the competent national authorities to define counterfeit items in accordance with their national legislation,

Also realizing

that the legislation of member countries on how to deal with counterfeit and pirated items varies from country to country,

Aware

that the above problems cause operational difficulties and legal problems for the countries concerned,

Urges

UPU member countries, in the context of their national legislation, to encourage their designated operators to:

- take all reasonable and practical measures to support Customs in their role in identifying counterfeit and pirated items in the postal network;
- cooperate with the relevant national and international authorities to the maximum possible extent in awareness-raising initiatives aimed at preventing the illegal circulation of counterfeit goods, particularly through postal services.

(Proposal 40, Committee 4, 3rd meeting)

Resolution C 38/2008

The role of the postal sector in the Information Society

Congress,

Noting

governments' commitment at the World Summit on the Information Society (WSIS) to using information and communication technologies (ICTs) to achieve internationally agreed development goals, including those contained in the Millennium Declaration,

Also noting

the commitments within the WSIS outcome documents related to the worldwide postal network:

- the commitment of WSIS stakeholders to "building ICT capacities to improve access and use of postal networks and services" (WSIS outcome paragraph 90h);
- the need to "establish sustainable multi-purpose community public access points, providing affordable or free-of-charge access to the various communications resources, notably the Internet, that should have sufficient capacity to provide assistance to users in post offices, with special emphasis on rural and underserved areas" (WSIS outcome paragraph 10d);
- the necessity to "design specific training programmes in the use of ICTs in order to meet the educational needs of information professionals such as postal workers" (WSIS outcome paragraph 11k);
- that "in disadvantaged areas, the establishment of ICT public access points in places such as post offices can provide effective means for ensuring universal access to the infrastructure and services of the Information Society" (WSIS outcome paragraph 23);
- that "in the context of national E-strategies, ICT connectivity should be provided and improved for all post offices by 2015" (WSIS outcome paragraphs 6d and 9c),

Aware

of the role of the postal sector and the Union as facilitators of E-business as defined in the WSIS outcome (Action Line C7),

Taking into account

that Objective 2 of the draft Nairobi Postal Strategy includes a programme aimed at increasing awareness of the role of the postal sector in the Information Society,

Recognizing

the increased cooperation activities of the Union with organizations such as the World Trade Organization (WTO), the United Nations Conference on Trade and Development (UNCTAD), the International Labour Organization (ILO), the International Organization for Migration (IOM) and the International Telecommunication Union (ITU) that have resulted from the participation of the Union at the WSIS,

Also recognizing

the status of the Union as an official member of the UN Group on the Information Society (UNGIS),

Further noting

the participation of the Union in the ITU "Connect the World" initiative, the Connect Africa Summit and other relevant UN meetings,

Taking into consideration

the role played by the postal sector in E-government facilitation in many countries and its potential role in E-health and E-learning projects and policies,

Noting

the importance of modernizing postal networks – with less than half of post offices worldwide still not connected to the Internet,

Observing

the transforming influence of ICTs on the postal sector,

Invites

all Union member countries:

- to include utilization of postal networks and services when formulating national ICT policies;
- to consider the contribution of the postal network when developing policies and strategies in the area of E-business and E-government;
- to take into account the electronic dimension of postal services when legislating the postal sector;
- to encourage cooperation between postal operators and external partners to enable developing countries to equip themselves with the necessary infrastructure, technology and know-how and thus contribute to reducing the digital divide,

Instructs

the bodies of the Union:

- to support the participation of the Union in relevant Information Society events;
- to encourage the creation of a postal modernization fund aimed at helping the Union and the postal sector fulfil the mandate bestowed upon them by the WSIS;
- to develop policies on the Union's participation in the Information Society,

Charges

the International Bureau:

- to monitor the development of ICT-related products and services by postal operators and to create a comprehensive database in that connection;
- to develop training programmes to educate postal sector workers in the use of ICTs;
- to prepare benchmarks and share best practices in the area of new technologies;
- to develop closer links with the Global Alliance for ICTs and Development and other relevant UN and development organizations as well as with donors to mobilize resources in the implementation of Information Society capacity-building projects in the postal networks;
- to advocate for the role of the postal sector in the Information Society.

(Proposal 14, 6th plenary meeting)

Resolution C 39/2008

Strategic planning activities

Congress,

Recalling

the progressive establishment of a strategic planning process within the Union, starting with the Declaration of Hamburg in 1984, and continuing with the Washington General Action Plan, the Seoul Postal Strategy, the Beijing Postal Strategy and the Bucharest World Postal Strategy at successive Congresses,

In view of

the report on the implementation of the Bucharest World Postal Strategy (CONGRÈS–Doc 16) and the presentation of the Nairobi Postal Strategy (CONGRÈS–Doc 38),

Aware

of the need for flexible strategic planning in order to guide the Union's activities in a changing postal environment,

Recognizing

that strategic planning helps the postal services of member countries to better meet the needs of their customers,

Noting with satisfaction:

- the steady progress made toward implementing a strategic planning process in the Union that is based on results obtained;
- the continued improvements made to the Union's Programme and Budget, which allows for better and more transparent planning of the Union's activities, in accordance with available resources,

Acknowledging

the work of the combined CA and POC Strategic Planning Group, particularly in the areas of establishing guidelines for the setting of priorities for implementation of the Nairobi Postal Strategy, developing future scenarios for the postal sector, and results-based management,

Urges

member countries to adopt a strategic planning process as a way to provide improved postal services to their citizens,

Invites

member countries to participate fully in the Union's strategic planning process through regular reporting on results obtained in achieving the objectives of the Nairobi Postal Strategy,

Charges

the Council of Administration and the Postal Operations Council, in accordance with the provisions set out in the Union's General Regulations, and, as appropriate, in consultation with the Consultative Committee, with:

- providing advice on current strategic planning methodologies;
- coordinating analysis work, or gathering existing analyses, on the postal environment, with a view to integrating the findings into the Union's strategic planning process;

- continuing to develop, in conjunction with the International Bureau, quantifiable and independently verifiable information, ideally in the form of annual report cards, about member countries' attainment of the objectives of the Nairobi Postal Strategy;
- in conjunction with the International Bureau, regularly updating the Programme and Budget on the basis of results obtained, of the setting of priorities, of available financing and of changes in the postal environment;
- continuing the development of a results-based management concept in its strategic planning process;
- developing and carrying out, in cooperation with the International Bureau, methodologies, including annual or biennial surveys, to seek the views of member countries on the priorities for the strategic plan of the 2012 Congress and all projects, programmes and activities to be included in the 2011–2012 and 2013–2014 Union Programmes and Budgets;
- developing and implementing a methodology for reordering the Union Programme and Budget by priorities, as these priorities are expressed by member countries,

Instructs

the International Bureau, in accordance with the provisions of the Union's General Regulations, to:

- carry out regular monitoring and dissemination of the results obtained through implementation of the NPS, and to make an annual report to the Councils, and a final report to the 2012 Congress, that focus on quantifiable results;
- make use of analyses of the postal environment in order to make proposals to the Councils on the content of the strategic plan;
- prepare, for the Council of Administration and on the basis of directives issued by the Councils, the draft Strategy to be submitted to Congress;
- develop and recommend adjustments to the Programme and Budget.

(Proposal 75 amended by proposal 83, 6th plenary meeting)

Resolution C 40/2008

International law in the field of trade in services. WTO-UPU relations

Congress,

Conscious

of the influence that developments in the World Trade Organization will continue to have on postal policy making within the Union and at the national level,

Aware

of the fact that certain rules in the field of trade in services within the WTO may already apply to postal services in so far as such services are not provided in the exercise of governmental authority as laid down in article I.3 of the General Agreement on Trade in Services (GATS),

Noting

that services negotiations under the Doha Development Agenda have incorporated discussions on new rules that could relate to postal services, and that the outcome of such discussions may be reflected in the final text of the agreement,

Acknowledging

that cooperation between the Union and the WTO is necessary to ensure coherence between their activities, and that, to this end, the Union became an ad hoc observer of the WTO Council for Trade in Services (CTS) in April 2006,

Convinced

- of the need for the Union to inform its member countries of the implications of World Trade Organization agreements on the postal sector, both at national and international levels;
- of the benefit of harmonizing the interests of the postal sector with applicable rules of other international organizations,

Instructs

the Council of Administration, in conjunction with the International Bureau, and in the context of the Union's ad hoc observer status in the CTS, to:

- monitor developments in the WTO service negotiations under the Doha Round relating to postal services and keep Union members informed of developments in this field;
- provide information, as appropriate, to Union members concerning compatibility between the rules of the Union and those of the World Trade Organization.

(Proposal 47.Rev 1, Committee 3, 5th meeting)

Resolution C 41/2008

Promoting "best practice" experiences on postal regulatory issues

Congress,

Considering

that, with the fast changing internal and external environment, postal reform in member countries has been accelerated in recent years, and more and more member countries have separated regulatory and operational functions, meaning that ensuring the sustainable development of the postal service in the new environment has become an important issue for the Union,

Recognizing

that member countries' postal reform aims to promote postal development and guarantee the implementation of efficient and accessible universal postal service, so as to better enhance regulatory and operational functions and better adapt the universal service to the demands of the public and of social-economic development,

Also recognizing

that, in the context of the opening up of postal markets, protecting fair competition and improving service quality has become a common concern for governments and regulators, meaning that it is important to exchange regulatory experiences among the postal regulators in different countries worldwide,

Instructs

the Council of Administration, in conjunction with the International Bureau, to:

- organize postal regulation forums or seminars during the annual meetings of the Council of Administration;
- collect and publish each year information related to universal service, postal reform and legislation, as well as market regulation of member countries.

(Proposal 66, Committee 3, 5th meeting)

Resolution C 42/2008

Study on establishing a permanent Universal Postal Convention and Postal Payment Services Agreement

Congress,

Considering
the benefit of ensuring the legal stability of the international postal service between member countries by establishing a permanent Universal Postal Convention and Postal Payment Services Agreement (hereinafter referred to as "Convention" and "Agreement", respectively),

Recognizing
the amount of work of the member countries, due to the present procedure on the Convention and Agreement, which requires the existing Convention and Agreement to be wholly replaced by the new ones adopted at each Congress,

Also taking into account
the time necessary for the member countries to consider the effect of having such a permanent Convention and Agreement,

Instructs

the Council of Administration, in conjunction with the International Bureau, to:

- undertake a study with the purpose of determining whether it would be beneficial to establish a permanent Convention and Agreement;
- draft any proposals that are necessary as a result of the study and submit them to the 25th Congress;
- ensure that all interested member countries have the opportunity to take part in the aforementioned study.

(Proposal 87.Rev 1, Committee 3, 5th meeting)

Resolution C 43/2008

Future work on remuneration systems for letter-post items exchanged between the designated operators of UPU member countries. Coordination of work on remuneration for other types of items

Congress,

Considering
the mandates given by the Bucharest Congress to ensure that the remuneration systems to be proposed to the 24th Congress promote fulfilment of the obligation to provide universal service and preserve the integrity of the postal network,

Recalling
that the provisions of the Bucharest Convention concerning terminal dues contain transitional arrangements leading to the adoption of a country-specific cost-based remuneration system,

Recognizing
that the financial relations between designated operators should be governed by existing principles and objectives (i.e. based on elements specific to each country and linked to the quality of the services rendered), and should take into account the environment in which the Posts operate, particularly as regards the opening of postal markets to competition,

Noting

the results of the extensive studies on market conditions, country classification, customer needs, quality of service and remuneration conducted by the Council of Administration and the Postal Operations Council in the lead-up to the 24th Congress,

Acknowledging

the positive impact of the linking of terminal dues to the quality of service, with a measurement system that began in 2005 and now has 29 participants from both target and transition countries,

Also acknowledging

that the Union's Quality of Service Fund is an important resource for improving the quality of the letter-post service in developing countries,

Taking into account

regulatory requirements and customer interests,

Mindful

of the need to seek compatibility between the remuneration aspects of letter-post services and the rules of the World Trade Organization,

Recognizing also

the need to review the state of various letter-post services (including letters, small packets, direct access and supplementary services) and product development/enhancement opportunities based on market positioning,

Further acknowledging

that, in order to develop market-oriented letter-post services that are subject to country-specific, cost-based remuneration systems before the end of the transition period, all member countries and/or designated operators need to have, and provide, relevant and reliable information on:

- their domestic market, tariff and cost conditions, with the continuing assistance of the International Bureau in the area of cost accounting development for developing countries;
- the statistical data used to classify member countries,

Also taking into account

the modifications to the terminal dues system adopted by the 24th Congress,

Considering also

that these modifications represent an additional step in the process of bringing a country-specific cost-based system into general use,

Believing

that notwithstanding the provisions to be adopted by the 24th Congress, there is still much to do to provide market-oriented letter-post services which are subject to country-specific and cost-based remuneration,

Recognizing further

that the objective of bringing all member countries into a country-specific, cost-based remuneration system by the recommended deadline of 31 December 2013 cannot be achieved without placing a serious financial burden on some developing countries,

Also believing

that questions regarding the levels of remuneration applied to the different types of postal items exchanged between member countries (letters, parcels, EMS items) are a concern of the Union and that effective coordination will lead to greater consistency of treatment,

Considering further

that the Union's work on remuneration systems should be organized under conditions that will help to contain the associated costs,

Instructs

the Council of Administration:

- to ensure that affordable universal service and the integrity of the postal network are maintained;
- to ensure that, allowing for exceptions, the application of country-specific, cost-based remuneration principles will be universal by 31 December 2017;
- to ensure that, to the greatest extent possible, there is a gradual transition of all countries not presently applying country-specific, cost-based remuneration to this state during the period 2014–2017; to that end, a proposal should be submitted to the 25th Congress taking into account:
 - changes in the market, including the regulatory and postal environment, at national and international levels;
 - the experience gained from the transition of countries in 2010 and 2012, and the market, customer and financial impacts involved;
- to formalize the process of collecting the following national data:
 - applicable tariffs;
 - statistical data used for classification;
 - delivery standards for inward mail and the corresponding quality targets;
- to approve the terms of reference of a Postal Operations Council study to establish the relationship between domestic tariffs and the cost of processing inward international mail,

Also instructs

the Postal Operations Council to carry out the following work:

- Letter-post market and remuneration systems:
 - conduct a study to review the market conditions, including relevant economic studies such as comparative price levels and price elasticities, with special focus on product segmentation; the results of the study should be available by the end of the first year of the cycle;
 - assess the impact on markets and on designated operators of the new terminal dues rates implemented by the 24th Congress;
 - identify the improvements required to the current remuneration system in order to meet the needs of the market and of member countries;
 - propose remuneration for other supplementary services (e.g., registered and insured letters);
 - conduct a study for modelling the relationship between domestic tariffs and the cost of processing inward international mail, and propose to the 2012 Congress a methodology for applying the resulting rate(s) at national, regional or worldwide level;
 - determine whether it is appropriate to devise a formula for converting the domestic tariffs of the destination country into terminal dues rates and, if so, devise such a formula, taking into account, where applicable:
 - a multiple-tariff referencing system in order to develop an accurate linearization methodology and business rules to produce terminal dues rates that are closest to actual costs; and

- the special situation of countries whose domestic tariffs are set on a social basis and do not cover the costs of providing inbound letter-post delivery services;
- review and update the postal development indicator for all member countries;
- conduct a study of the cost of handling inbound mail during 2009 and 2010; if this study reveals a percentage different from the 70% set out in Convention article 29.2, the POC may consider revising the percentage applied for 2012 and 2013;
- review whether it is appropriate to adjust the 100-tonne threshold for the application of the revision mechanism as set out in article 30 of the Convention and, if so, make a recommendation on this adjustment;
- Statistics, accounting and operations:
 - develop and promote automated statistical, accounting and operational systems that can lead to economic and commercial improvements to remuneration systems;
 - further develop the statistical, accounting and operational procedures for direct access;
- Quality of service link:
 - continue to implement the link between quality of service and terminal dues on the basis of principles established by Congress and ensure that appropriate and affordable monitoring systems are available;
 - propose tools to assess the performance of quality of service measurement systems against fixed objectives (cost, reliability, return on investment);
 - propose a timetable for the participation of designated operators in the measurement system based on Congress decisions regarding classification;
- Direct access:
 - review the conditions for offering this service;
- Internal air conveyance dues:
 - review whether it is appropriate and, if so, how to incorporate internal air conveyance dues into base letter-post remuneration, to allow this remuneration system to be eliminated;
 - report the study results to the next Congress and recommend any necessary changes;
- Quality of Service Fund:
 - ensure that appropriate levels of contribution are assigned to the countries most in need;
- Report to the Council of Administration on progress with the terminal dues work.

(Proposal 25.Rev 1, Committee 5, 4th meeting)

Resolution C 44/2008

Continuation of universal postal service activities after the 24th Congress

Congress,

Reaffirming

that the mission of the Union is to stimulate the sustainable development of efficient and accessible universal postal services of quality in order to facilitate communication for every citizen in the world,

Recognizing

that one of the most important objectives of the UPU Nairobi Postal Strategy is to promote a universal postal service adapted to the social, economic and technological environment,

Considering

that actions to facilitate access to the postal service support the efforts of the international community to tackle poverty, since they provide more opportunities, more independence and more security for the poor,

Recognizing

the role of the Union as a specialized agency of the UN to actively develop various activities with a view to sharing responsibility for achieving the United Nations Millennium Development Goals by 2015,

Also recognizing

that the Post plays a pivotal role in a nation's economic development by providing a basic infrastructure for communication and distribution of goods, thus contributing to the development of the world economy,

Instructs

the Council of Administration, in cooperation with the Postal Operations Council and the International Bureau, to continue the following activities concerning the universal postal service after the 24th Congress:

- conduct studies with a view to understanding the options for financing the universal postal service, particularly in an environment characterized by the gradual liberalization of the postal market, and communicate the study results to all Union member countries;
- promote "best practice" experiences gained by member countries in their provision of sustainable postal services, in terms of governance and particularly by combining new technology with the postal network and services;
- develop projects to help member countries or regional groups to define a sustainable universal postal service taking into account various indicators;
- continue to monitor, on a yearly basis, the progress made by member countries and their designated operators in providing the universal postal service, using a monitoring/measurement system for the application of standards in the five main areas of the universal postal service, and inform Union member countries on a regular basis of the evolution of the universal postal service in the different regions of the Union.

(Proposal 02, Committee 3, 5th meeting)

Resolution C 45/2008

UPU Global Monitoring System (GMS)

Congress,

Confident

that improvement of international postal service quality is of primary importance for the Universal Postal Union,

Taking into account

- the decision of the Beijing Congress to develop an operational and implementation plan to link quality of service to terminal dues, in conformity with the conditions of each designated operator, for the purpose of improving the quality of the international postal service;

- the decision of the Bucharest Congress to implement the link between quality of service and terminal dues, and in particular to see to it that appropriate monitoring systems are made available;
- the decision of the Bucharest Congress to evaluate the quality of service measurement systems and propose the necessary improvements to enable the maximum number of countries to participate,

Convinced

that the system for monitoring quality of service results, which will form the basis for the terminal dues remuneration, should be uniform, credible and accessible to all designated operators of Union member countries,

Recognizing

that this system shall be based on external measurements, with testing independent of designated operators,

Aware

that the results of the monitoring system will enable designated operators to take appropriate actions to rectify weaknesses identified in their operations to improve quality,

Also recognizing

the need to evaluate the achievements of designated operators in implementing projects financed through the Quality of Service Fund,

Noting

the need to supplement the provisions of the Letter Post Regulations, particularly the part dealing with performance indicators and the monitoring system,

Taking note of

the UPU Global Monitoring System (GMS) design as set forth in the technical specifications developed by the Bucharest Postal Operations Council,

Further recognizing

that the key principles of the GMS are that the system should be:

- customer-driven;
- globally applicable;
- affordable;
- transparent;
- sufficiently accurate and reliable;
- external to UPU members;
- diagnostic;
- locally relevant;
- continuous,

Also noting

that the GMS can be used by designated operators as the core system for monitoring service quality and quality of service linked to terminal dues, and can also serve as a tool for evaluating the achievements of designated operators in implementing projects financed through the Quality of Service Fund,

Instructs

the Postal Operations Council:

- to develop and pursue a GMS pilot programme in order to test the technical specifications and make appropriate revisions, in accordance with the findings and the input of the member designated operators;
- to coordinate agreement on the GMS ready for implementation, taking into account the Congress decisions on the transition of countries to the target system;
- to continue refinement and development of the technical design, financing arrangements, governance structure, legal issues and other elements needed for implementing the GMS;
- to ensure that the GMS can be used for the quality of service terminal dues link;
- to implement the GMS as a Union global system,

Also instructs

the International Bureau, to lend its full support to the effective implementation of the GMS,

Encourages

designated operators to participate in the implementation of the GMS.

(Proposal 45, Committee 7, 5th meeting)

Resolution C 46/2008

Survey on quality of service programmes

Congress,

Bearing in mind

that the International Bureau, through its Quality of Service Unit, serves as a key resource for member countries and their designated operators in improving their quality of service,

Noting

that the success of the quality of service programmes carried out by the Quality of Service Unit depends on the resources available to it, which are limited,

Aware

that the Global Monitoring System, and new quality of service programmes regarding parcels, will require significant resources to plan, implement and maintain,

Taking into account

that the current quality of service programmes cover a wide range of projects that include continuous testing, sequential testing, consultancy missions, quality certification and pilot projects,

Informed

that available data show that member countries do not take full advantage of the performance results provided by the International Bureau regarding end-to-end quality of service measurement,

Considering

that by far the most important objective of the Nairobi Postal Strategy is "enhancing quality of service and efficiency of the postal network",

Convinced

that successful implementation and management of the Global Monitoring System will require urgent prioritization of available resources,

Recognizing

that the capabilities of the Global Monitoring System may replace those of current quality of service testing programmes,

Instructs

the International Bureau:

- to issue a survey to seek the views of member countries and their designated operators about whether the current quality of service programmes managed by the International Bureau meet their needs and which programmes are most beneficial;
- to make recommendations to the 2009 Postal Operations Council, based on the results of the survey, about which quality of service programmes should be maintained and how those to be maintained should be prioritized.

(Proposal 53.Rev 1, Committee 7, 5th meeting)

Resolution C 47/2008

Cooperation with the airline industry

Congress,

Recalling

that the cooperation between the Universal Postal Union and the International Air Transport Association (IATA), which has existed for more than half a century, is in the best interests of both organizations,

Aware

that the Union signed a new Memorandum of Understanding (MOU) with IATA in March 2007, laying a strategic and solid partnership between the two organizations,

Noting

that a comprehensive Airmail Work Plan has been designed by the IATA–UPU Contact Committee in the light of the above MOU,

Noting also

that studies are being carried out by the IATA–UPU Contact Committee to realize the objectives set out in the Airmail Work Plan,

Considering

that efforts to speed up and simplify the transmission and handling of airmail should be continued,

Realizing

that airlines and designated operators should focus more on standardization and an increased use of electronic data interchange (EDI) to improve the quality of service and security of international mail,

Recognizing

that the rapid and reliable movement of mail and the consistent and accurate reporting of mail movement status are in the common interest of both designated operators and airlines,

Certain

that the important work being undertaken by the IATA-UPU Contact Committee will yield beneficial results for both organizations, thus bringing about qualitative changes in the airmail sector,

Charges

the Postal Operations Council to continue collaboration with the airline industry, to find common opportunities for improvement and to undertake new initiatives.

(Proposal 55, Committee 7, 5th meeting)

Resolution C 48/2008

Communication of quality of service measurement results to member countries

Congress,

Bearing in mind

the work accomplished by the Strategic Planning Group to develop report cards that show the degree to which member countries and designated operators have achieved the objectives of the Nairobi Postal Strategy,

Taking into account

the fact that a central purpose of these report cards is to indicate, in quantifiable terms, progress made by individual member countries in implementing the Nairobi Postal Strategy, and that the measurements of the quality of service attained by designated operators of destination in delivering inward letter-post and parcel-post items are key indicators for this purpose,

Recognizing

that quality of service measurements form, in part, the basis for terminal dues payments for letter-post items provided for in the Universal Postal Convention,

Aware

that serious efforts are underway to develop methodologies to link quality of service measurement results and inward land rates for parcels,

Noting

the considerable financial and management resources invested by the Union to develop and deploy systems to measure quality of service,

Convinced

that the publication of measurement results is essential to ensure transparency and produce tangible evidence that the investments made to measure quality of service contribute to the overall improvement in quality,

Instructs

the Council of Administration and the Postal Operations Council to:

- determine the most appropriate manner to publish the results of letter-post and parcel-post quality of service measurements attained by individual designated operators of destination in accordance with the provisions of the Universal Postal Convention; and
- decide whether these results should be published in the annual report cards on implementation of the Nairobi Postal Strategy.

(Proposal 57.Rev 1, Committee 7, 5th meeting)

Resolution C 49/2008

Border control

Congress,

Noting

that not only Customs, but also other border agencies may be involved in the control of items at a country's borders,

Considering

that the word "Customs" as used in article 18 of the Universal Postal Convention as well as in the Letter Post and Parcel Post Regulations is to be interpreted in a wide sense and is to cover all officially authorized border agencies associated with the control of postal items at a country's borders, in accordance with the national legislation of each country,

Recognizing

the need to identify these agencies and their competence as specified in the national legislation of each country,

Invites

the member countries to provide the International Bureau with information about the competencies of their border agencies,

Instructs

the International Bureau

- to maintain a global register of the responsible agencies of each country;
- to insert appropriate comments under article 18 of the Convention and under the relevant articles of the Regulations.

(Proposal 68, Committee 7, 5th meeting)

Resolution C 50/2008

Use of Internet-based letter post inquiry processing software

Congress,

Conscious
of the need to process letter-post inquiries at the speed required by customers,

Having noted
that the standard means of transmitting customer inquiries do not meet existing needs in terms
of speed,

Considering
that the Internet is extensively used as a working tool at all levels worldwide,

Instructs

the Postal Operations Council:

- to conduct a study with a view to introducing letter-post inquiry processing software that incorporates the CN 08 forms provided by countries (of origin and of destination) and generates periodic reports and statistics that will allow the inquiry processing times of designated operators to be measured;
- to ascertain whether new software needs to be developed, or if the technological platform could be shared with an existing system;
- to propose a solution for designated operators wishing to use a system with the above-mentioned features,

The system adopted should allow:

- a inquiry-processing times to be shortened;
- b inquiry response times between designated operators to be monitored, which would prevent the payment of excessive amounts in compensation solely in order to comply with deadlines but without resolving the inquiry;
- c undue recourse to compensation to be monitored, and a record to be kept of individuals/institutions that make abusive use of the compensation mechanism.

(Proposal 78, Committee 7, 5th meeting)

Resolution C 51/2008

EMS Cooperative

Congress,

Recognizing

- that EMS is offered, on the basis of article 14 of the Universal Postal Convention, and the EMS Standard Agreement (CONGRÈS–Doc 26), by the great majority of designated operators of member countries and territories as an integral element of the postal offer effectively complementing the traditional range of letter-post and parcel-post services;
- that EMS has considerable commercial and strategic importance for postal services and for their customers;

- that in most member countries and territories EMS is the only practical and affordable means of providing universal access to international express services for the private customer and many small enterprises,

Noting

the progress and achievements of the EMS Cooperative, as a structure within the POC, providing a global focus to allow the worldwide EMS network to better meet the needs of postal customers,

Accepting

the need for the Union to continue to support ongoing EMS activities, particularly for those Union members that are not members of the EMS Cooperative,

Acknowledging

that the EMS Cooperative is financed by its members and that it pays for all EMS programmes and activities, including all direct staff costs, from its own budget,

Further acknowledging

that non-members of the EMS Cooperative also benefit directly from the programmes and developments of the EMS Cooperative,

Decides

to continue to finance, through the Union budget, the institutional and other support costs of maintaining the EMS Unit at the International Bureau. The costs to be supported shall include those for the accommodation of the EMS Unit (at its current staffing level); its office and IT services; logistic support – including production and distribution of documents; translation and interpretation for Union meetings; personnel and financial management support; legal advice, and any other costs incurred by the International Bureau in respect of the EMS Unit which are not currently allocated to EMS chapters in the Union's Programme and Budget,

Charges

- the EMS Cooperative, under the POC:
 - a to maintain within the framework of the UPU strategy its responsibilities for all operational, commercial, technical and economic matters concerning EMS, having authority to make and amend EMS recommendations and establish EMS standards in all these areas, taking into account directives from the Union bodies;
 - b to present an annual report to the POC and, where appropriate, to the CA;
- the POC to present a report to the next Congress on the progress of EMS activities and their financing,

Instructs

the International Bureau to:

- a continue to provide the EMS Unit (at its 2003 staffing level) with office accommodation, furniture and equipment, free of any rent or other accommodation charges;
- b continue to provide support to the EMS Cooperative by covering all its institutional and other support costs as specified in this resolution, without cost to the Cooperative;
- c ensure that designated operators which are not members of the EMS Cooperative continue to benefit from established Union EMS programmes and publications;
- d continue to promote EMS activities for those designated operators which are not members of the Cooperative.

Asks

member countries and territories whose designated operators are not EMS Cooperative members to join the Cooperative on the basis of the excellent results achieved (see CONGRÈS–Doc 26).

(Proposal 84, Committee 7, 5th meeting)

Resolution C 52/2008

Quality of Service Programme for 2009–2012

Congress,

Considering

the improvement of international postal service quality to be a key objective for the Union,

Taking into account

- the encouraging results achieved by implementing the Quality of Service Programme 2005–2008;
- a number of problems observed with the results of the implementation of resolution C 29/2004, including the fact that the worldwide aggregate results for the J + 5 standard and the 65% performance target were misleading (instability of the links to be tested), and the inconsistency in the number of days required by the different mail distribution networks for the end-to-end transmission of mail);
- the need to set a service standard and quality target in the international quality of service field;
- the fact that the customer's main focus is on reliability,

Noting

the need for the Union to continue its work relating to the improvement of quality,

Decides

- to implement a Quality of Service Programme for the period 2009–2012 as set out in CONGRÈS–Doc 21a;
- to set the global quality of service standard at J + 5 (the fifth working day after the day of posting) and the target for attainment of this standard at 80%, which should be achieved by 2012 by progressively raising the annual target;
- that this standard and target shall apply to the international priority letter post between those areas and/or cities that are most important in terms of international postal exchanges in each member country,

Instructs

the Postal Operations Council, in cooperation with the Council of Administration, the Consultative Committee and the International Bureau, to:

- take the necessary measures to achieve significant results in the various areas covered by the Quality of Service Programme and submit a report on its execution to the next Congress;
- establish a bottom-up approach based on process mapping in order to set bilateral and regional service standards for all member countries in order to maximize involvement and commit themselves to the work necessary to reach the agreed standard and target;

- weight and aggregate the bilateral and regional service standards, quality targets and measurement results to truly reflect the performance of the bilateral links within the region as well as global Union performance;
- organize and coordinate continuous measurement of compliance with the service standard and quality target,
- set appropriate targets for 2009, 2010 and 2011 with a view to achieving 80% by 2012,

Urges

- a governments and regulators to:
 - provide active support for the implementation of the Quality of Service Programme;
 - set national quality standards;
 - ensure compliance with these standards by the designated postal operator;
 - define conditions for compliance with the worldwide quality standard;
 - participate in the activities of the Union and Restricted Unions in the field of quality of service,
- b the designated postal operators to:
 - actively participate in implementation of the Quality of Service Programme;
 - do their utmost to improve the quality of the postal services offered;
 - set bilateral and regional service standards and quality targets;
 - continuously measure compliance with these bilateral and regional service standards and quality targets, through at least one of the tests organized by the Union or by the Restricted Unions, or on the basis of bilateral and multilateral agreements;
 - continuously analyze the results of these tests and take measures to help achieve the objective of compliance with these bilateral and regional service standards and quality targets;
 - use the country-specific and regional measurement reporting as a tool for quality analysis and improvement,
- c the Restricted Unions to:
 - participate in the activities initiated in the framework of the Quality of Service Programme;
 - coordinate the setting of the bilateral and regional service standards and quality targets;
 - lend their support to regional actions to improve compliance with these bilateral and regional service standards and quality targets.

(Proposal 85, Committee 7, 5th meeting)

Resolution C 53/2008

Future strategy and activities of the Telematics Cooperative and its financing

Congress,

Recalling:

- resolution C 27 of the 1994 Seoul Congress, resolution C 52 of the 1999 Beijing Congress and resolution C 66 of the 2004 Bucharest Congress concerning Union activities in the field of EDI exchanges from 1995 to 2008;
- the success of telematics activities since 1994;
- the widespread adoption of Postal Technology Centre (PTC) software among all members, from the least developed countries to the industrialized countries,

Bearing in mind

the report of the Postal Operations Council concerning Union telematics activities (CONGRÈS-Doc 25a),

Aware:

- of the strategic importance of Union telematics activities for all Union member countries;
- that the telematics network infrastructure and activities are crucial for further improving postal products and services, for maintaining a quality universal service obligation, for further postal developments in the information society, for reducing the digital divide between members and for helping to solve some important problems such as the future universal service and the question of remittances for migrant workers;
- that, to be most effective, the use of technology has to be embedded in a common approach of business, operational and technical measures combined with a continuous evaluation and improvement cycle,

Noting:

- that a Telematics Cooperative was established within the POC with the aim of developing synergies between Posts and stimulating the development of the postal service through the use of modern technologies;
- that an electronic network infrastructure and state-of-the-art IT solutions owned by the Union and affordable for all members ensures electronic exchange capability between all members and the automation of important postal operational processes irrespective of their postal development status, and hence provides the possibility of further quality and service enhancements of postal services that would not otherwise be possible;
- that for all data transported through the Union's electronic network and processed by its own solutions on its own premises, confidentiality and protection are guaranteed;
- that the Union's electronic network infrastructure and software solutions have open interfaces to guarantee interoperability with other postal networks and systems;
- that the Telematics Cooperative is carrying out significant work to support members not only in areas closely related to the use of PTC software but also in the field of operational consulting and EDI monitoring to maintain and improve electronic infrastructure, alert members of exchange problems, and improve operational processes, quality of service and performance of postal operations, mainly in the developing and least developed countries;
- that the work in the advanced electronic services (AES) area also ensures know-how transfer, which promotes the availability of new technologies for all members, such as S43 and EPCM, RFID standards, E-shopping, global hybrid mail and the .post electronic infrastructure allowing for electronic delivery of universal services;

- that the Telematics Cooperative is supporting the IB in strategic areas such as the development of EDI standards, relations with important postal partners such as airlines (IATA), Customs and other international organizations, and the Union's involvement in the information society,

Further noting:

- the inability of the Telematics Cooperative to finance tasks not directly related to development, deployment, operation and support of PTC software solutions from fees received for product maintenance, network services, assistance missions, product development or the member contributions;
- the attractiveness of the postal market for venture capital and other market financing mechanisms for investments in global postal services;
- that the required funds to enable research, development and commercialization of new high-potential postal products and services may need to come from external resources,

Considering:

- the digital divide in terms of operational development and differences in the development levels of members;
- the large number of designated operators that have willingly joined the Telematics Cooperative,

Recognizing:

- the achievements of the Cooperative to date and its efforts aimed at improving and developing postal services (CONGRÈS-Doc 25a);
- that the strategy of the Telematics Cooperative (CONGRÈS-Doc 25b) is closely linked to the Nairobi Postal Strategy and that the activities of the Telematics Cooperative are essential for the implementation of the Nairobi Postal Strategy,

Convinced:

- that the development gap can be reduced by:
 - making the same state-of-the art IT solutions and infrastructure usable by, and affordable to, all members;
 - providing ongoing support and advice on business and operational matters;
 - providing a worldwide electronic infrastructure such as .post to give every citizen and small, medium or large business the possibility of participating in global trade without discrimination and in a trusted environment verified by the Union members' designated operators;
- that the Telematics Cooperative will do all it can to considerably speed up the introduction of telematics and other technologies designed to improve communications between designated operators and their partners, narrow the technology gap between them and with other market players, raise the quality of the international postal service and facilitate the expansion of current services and the development of new ones,

Decides:

- to approve the strategy of the Telematics Cooperative 2009–2012 (CONGRÈS-Doc 25);
- to continue to finance, through the Union budget, the institutional costs connected with maintaining the PTC at the International Bureau (IB), which cover use of the PTC's premises, the PTC's administrative and logistical services, including translation services, interpretation services during UPU meetings, the production and dispatch of documents, staff management and financial management, and legal services;

- to finance Telematics Cooperative activities not closely linked to the use of PTC standard software but supporting business development, operational process improvement, quality initiatives, adoption of new technologies, development of postal products, standards and other support tasks for the IB,

Charges

- the POC:
 - with assuming competency for all strategic, operational and technical matters concerning Telematics Cooperative activities;
 - with presenting a report to the next Congress on the progress of telematics activities;
- the Telematics Cooperative with assuming competency for strategy execution, operation, and technical and economic telematics aspects, giving it the authority to make and amend telematics recommendations,

Further charges

- the CA with supervising Telematics Cooperative finances through the examination and approval of the IB budget and annual accounts;
- the CA with presenting a report to the next Congress on the financing of the Telematics Cooperative;
- the Telematics Cooperative with presenting an annual report to the POC and the CA;
- the CA with supporting arrangements that will allow the Telematics Cooperative to fund development projects such as .post, PREM (postal registered e-mail), etc.,

Instructs

- the International Bureau:
 - to maintain the Postal Technology Centre as a service provider with responsibility for implementing the strategies approved by Congress and by the Telematics Cooperative in the field of telematics and technology;
 - to continue providing financial support to the Telematics Cooperative in line with resolution C 66/2004;
 - to support policy developments and arrangements required to enable the use of external financing of developments in the area of E-services;
 - to ensure relevant cooperation between Telematics Cooperative activities and IB processes and programmes;
 - to continue to promote the activities of the Telematics Cooperative and encourage designated operators to join it and to contribute actively to its activities,
- the Telematics Cooperative:
 - to cooperate closely with the IB in order to make the most efficient use of available resources and expertise,

Invites

the CA to co-finance the Telematics Cooperative by covering Telematics Cooperative costs which are related to the IB support activities.

(Proposal 44, Committee 7, 5th meeting)

Resolution C 54/2008

Postal air waybill numbers

Congress,

Reiterating
its considerations and its will expressed in resolution C 33/2004,

Aware
that information technology developments combined with stringent operational processes now enable traceability of postal receptacles during their end-to-end international transportation,

Highlighting
the fact that postal receptacles' traceability during their end-to-end international transportation is a determining factor in the improvement of service quality and security for postal consignments,

Noting

- that the IATA-UPU Contact Committee has approved the use of the postal air waybill number combined with a product code enabling the identification of postal consignments and the application of processes that are specific to them;
- that the work of the IATA-UPU Group on EDI issues has led to the adoption by the Standards Board of standard M39 on EDI messages exchanged between designated operators and between these operators and air carriers;
- that standard M39 allows the exchange of postal air waybill numbers between stakeholders;
- that designated operators which modified their CARDIT system to include the postal airway bill number and product code to enable the identification of postal consignments can receive the relevant tracking data on the aforementioned topics from the airlines concerned,

Also noting

- that the use of postal air waybill numbers combined with the postal product code enabling the identification of postal consignments and the application of processes that are specific to them is a beneficial element in the interoperability of air transportation systems;
- that it affords uninterrupted traceability in cases where successive flights of the same airline or of different airlines are used;
- that it also enables the booking of capacity with air carriers, thus contributing to the sustainable availability of transport capacity which enables the reliability of postal flows;
- that it will also help to bring about paper-free transport of postal consignments in the future. In the effort to realize paper-free transport of postal consignments in the future, securing a clear record of each delivery is indispensable,

Convinced

- that the use of postal air waybill numbers combined with the postal product code will only produce its full benefits if all stakeholders in the international postal flow processing chain are able to use this number and this code to identify postal consignments as such in order to apply the required processes and if the various authorities concerned facilitate this use;
- that the designated operators would, in their contacts with customs authorities and border protection agencies or any other agency taking part in the postal processing chain in their respective countries, benefit from resolutions taken by the main international organizations involved with international air transport,

Endorses

the results of the work of the IATA-UPU Contact Committee, the IATA-UPU Group on EDI issues and the Standards Board concerning the use of postal air waybill numbers combined with the postal product code,

Invites

designated operators to use postal air waybill numbers combined with the postal product code with a view to improving traceability of postal flows,

Urges

member countries:

- to inform their respective authorities involved in the postal flow processing chain about the use of postal air waybill numbers combined with the postal product code and to ask them to make the necessary arrangements to facilitate this use;
- to encourage the international organizations, whether with regional or worldwide coverage, in which they are involved, to acknowledge the use of postal air waybill numbers combined with the postal product code and to facilitate this use by all operators concerned,

Instructs

- the Postal Operations Council:
 - in close cooperation with the IATA-UPU Contact Committee and the WCO-UPU Contact Committee, and with the support of the International Bureau, to undertake all necessary discussions with the World Customs Organization (WCO), with a view to obtaining from the latter acknowledgement of the use of the postal air waybill number combined with the postal product code, in addition, as the case may be, to the usual practices for postal identification and processing, without this use causing any change in the applicable customs procedures;
 - in close cooperation with the IATA-UPU Contact Committee, and with the support of the International Bureau, to undertake all necessary discussions with the International Civil Aviation Organization (ICAO), with a view to obtaining from this organization acknowledgement of the use of the postal air waybill number combined with the postal product code, in addition, as the case may be, to the usual practices for postal consignments identification and processing, ensuring that this use does not interfere with the postal legal status;
- the IATA-UPU Contact Committee:
 - in close cooperation with the International Bureau, and in the light of the Memorandum of Understanding signed between the UPU and the International Air Transport Association (IATA), to undertake all necessary discussions with IATA, with a view to disseminating information about the postal air waybill number combined with the postal product code to its members and promoting its use by them,

Decides

that any change to the UPU Regulations related to the exchange of international postal flows must lead to the gradual elimination of the use of paper-based documentation and promote procedures based on electronic data capture and electronic data interchange (EDI),

Consequently instructs

the Postal Operations Council to ensure strict enforcement of the aforementioned decision.

(Proposal 62.Rev 1, Committee 7, 5th meeting)

Recommendation C 55/2008

Developing closer relations with international, regional and national organizations for practical cooperation projects in postal sector development in the field of information and communication technology (ICT)

Congress,

Endorsing

the work done by the POC Electronic Products and Services Group in studying and analyzing in detail the benefits of expanding the offer of postal products through the use of new technologies and preparing a report to Congress on future activities to be considered,

Noting

the progress made by the Telematics Cooperative's Advanced Electronic Services User Group in developing new technology tools, including a sector standard for secure Internet communication and an electronic infrastructure for authenticated postal services, to help modernize designated operators,

Welcoming

the efforts made by various international, regional and national organizations in endeavours such as eProcurement, eHealth and eParticipation, which stress the importance of adopting new technologies for improving postal sector efficiency and effectiveness,

Taking into account

that if greater cooperation is developed, the implementation of specific programmes by various international, regional and national organizations in the area of new technologies could benefit member countries and their designated operators, and have a greater effect on a broader scale for all postal exchanges (letters, parcels, financial services, digital postal service) among member countries,

Recognizing

the limited financial and human resources available to the Union for undertaking specialist digital postal projects,

Also recognizing

the substantial human and financial resources available in various international, regional and national organizations for developing and modernizing postal markets,

Recommends

that the bodies of the Union, with assistance from the International Bureau:

- study ways to improve cooperation with various international, regional and national organizations, including the possible creation of a permanent liaison between them and the Union;
- engage in practical discussions with various international, regional and national organizations on cooperative activities for market development in E-services areas seen as a priority by member countries.

(Proposal 90, Committee 7, 5th meeting)

Resolution C 56/2008

Expanded use of electronic data interchange (EDI)

Congress,

Bearing in mind

that expeditious customs clearance of postal items is essential to the overall quality of international postal services,

Taking into account

the fact that the submission of information about postal shipments in electronic form to customs authorities in advance of shipment can significantly accelerate the clearance of postal items,

Conscious

that service and efficiency improvements can be achieved if designated operators of origin and destination transmit data on inbound and outbound international postal items, for the purposes of customs clearance, in advance of receipt or dispatch of the items,

Aware

that governments of many Union member countries are liberalizing their postal markets, as a result of which possible differences between customs clearance procedures for designated operators and integrators may come under increasing scrutiny,

Acknowledging

that in liberalized markets, designated operators may find it advantageous to collaborate with, and use the services of, private sector commercial operators for the delivery of postal items,

Realizing

that expanded use of EDI messages to transmit customs data on postal items can create the conditions under which the customs clearance regulations are applied in the same manner to both postal shipments and similar shipments carried by private sector delivery firms,

Observing

that the rapid developments in technology in the postal sector are placing increasing pressure on designated operators to implement the transmission of customs data on international postal items,

Convinced

that increased use of electronic transmissions of customs information on postal items from designated operators to customs authorities can not only become a valuable tool for combating terrorism and other threats to the security and safety of international mail exchanges, but can also improve operations, reduce administrative costs and facilitate assessment procedures,

Mindful

of the close cooperation between the Universal Postal Union and the World Customs Organization to align the import and export of mail with the guidelines outlined in the Framework of Standards to Secure and Facilitate Global Trade,

Pleased

to note that the Postal Operations Council, through the work of the EMS Cooperative, the Parcels Group, the Telematics Cooperative and the Postal Security Action Group, has developed, deployed and promoted applications and actions to expand the transmission of data concerning international mail exchanges,

Understanding

that designated operators have disparate levels of resources, expertise, hardware, and manpower with respect to implementing electronic customs manifesting,

Also mindful

of the mission of the UPU "to stimulate the lasting sustainable development of efficient and accessible universal postal services of quality in order to facilitate communication between the inhabitants of the world",

Further mindful

of the importance of data and privacy protection in view of the long-standing reputation of the Posts as guardians of the integrity of the mail,

Instructs

the Postal Operations Council to:

- develop and maintain standards consistent with best practices and privacy obligations or national legislation in connection with data protection and postal secrecy for UPU-Customs EDI messaging, through the Standards Board, in cooperation with the World Customs Organization,
- promote, in cooperation with the World Customs Organization, the use of EDI transmissions between designated operators and from designated operators to local customs authorities for the clearance of postal items,
- draw up a plan involving the relevant POC groups and in consultation with the UPU-WCO Contact Committee for the implementation of transmission of EDI customs messages on postal items in a phased-in manner, to be determined after appropriate study, including identifying products, types of mail impacted, customer and operator capabilities, operational impacts, and performance measures.

(Proposal 91, Committee 7, 5th meeting)

Resolution C 57/2008

Consultative Committee – improving the integration of CC members and further strengthening their role in all UPU activities

Congress,

Recalling

that the Bucharest Congress created the Consultative Committee with the aim of providing the UPU with a framework for effective dialogue between stakeholders,

Noting

that the Consultative Committee has made remarkable contributions in various areas of UPU activities – regulatory, operational, technical and strategic,

Recognizing

that there is a strong willingness for CC members to participate in and contribute to the work of the UPU, thus contributing to the attainment of the UPU goals and mission,

Convinced

that the UPU as a whole would benefit from increased participation by representatives from the wider postal sector,

Convinced further

that it would be beneficial for the UPU to reinforce the concept of public/private partnership within the activities of the Union,

Acknowledging

the need to improve the integration of CC members and further strengthening their role in all UPU activities,

Taking into account

the results of studies on UPU reform, particularly concerning the Consultative Committee, carried out by the Structure and Constituency of the Union Project Group and Committee 1 of the CA, with the support of the International Bureau,

Instructs

the Council of Administration, in cooperation with the Consultative Committee and with the support of the Postal Operations Council and the International Bureau:

- to study ways of strengthening the role and contribution of the Consultative Committee in UPU activities, particularly concerning the following questions:
 - a to further enlarge the membership of the CC, in order to allow for broader representation throughout the entire postal sector and better worldwide geographic representation;
 - b to clearly define the roles and responsibilities of the three members representing each Council (CA, POC), in relation to the CC and to the Council they represent;
 - c to encourage additional voluntary contributions from CC members, in kind or financial, for conducting a specific project or study;
 - d to further increase CC members' level of financial contributions to the UPU budget;
 - e to set up a system of coordination between the CC and both the Council of Administration and the Postal Operations Council, with the support of the International Bureau, which promotes and strengthens CC members' participation in all UPU activities, particularly at the beginning of a new cycle,
- to formulate proposals based on the results of the study for submission to the next Congress; and
- to put in place, where necessary and possible, certain measures prior to the next Congress.

(Proposal 19.Rev 1, Committee 3, 6th meeting)

Resolution C 58/2008

Postal accounts – Resolving frequent or extended debts

Congress,

Realizing

that the delivery designated operators of UPU member countries incur heavy expenses in carrying out their obligations under the UPU Acts to handle, process, transport and deliver inward letter-post items and postal parcels, as well as other types of postal items that they receive (such as EMS),

Recognizing

that specific provisions of the UPU Convention, Letter Post Regulations and Parcel Post Regulations contain obligatory prescriptions regarding, for example, the amount to be paid by the sending designated operator to the receiving designated operator for the postal items received, and the related preparation and settlement of postal accounts,

Noting

that the UPU Letter Post Regulations and Parcel Post Regulations contain provisions relating to the interest that is payable by the sending (debtor) designated operator to the delivery (creditor) designated operator in cases of overdue payments relating to those postal accounts,

Realizing further

that, despite those provisions relating to interest payable, there is an ongoing debt situation in which numerous debtor designated operators have considerable arrears with numerous creditor designated operators, with many accounts in arrears for one or two years and often longer,

Concerned

that there currently are no remedies prescribed in the UPU Acts enabling creditor designated operators to take effective measures to ensure that debtor designated operators liquidate in full the outstanding debts owed to them, if need be, through a payment schedule acceptable to the creditor designated operator concerned,

Aware

nonetheless that, in many of its programmes, the UPU takes due account of countries affected by natural disasters or in special situations,

Instructs

The Postal Operations Council to quickly undertake a study of this situation in order to:

- document and assess the current overall situation concerning debts on postal accounts between the designated operators of UPU member countries as regards postal items exchanged between them pursuant to the UPU Acts (particularly letter-post items and postal parcels, but also other items such as EMS);
- identify and recommend, as required, changes to the UPU Letter Post Regulations and Parcel Post Regulations that would put in place a mechanism enabling creditor designated operators to take decisive and timely action to collect the amounts (including applicable interest) seriously in arrears;
- examine the need to provide a concurrent mechanism whereby the creditor designated operator, in such cases, provides the UPU International Bureau with evidence of the outstanding debt and a copy of the notice that the creditor designated operator is sending to the debtor postal operator regarding the action it is taking;
- put into effect, as soon as practicable following their approval by the Council after completion of the study, the recommended changes that are within the scope of the Council's responsibilities, in the manner that it deems to be the most appropriate;
- draft, if applicable, one or more Congress proposals resulting from this study, for submission to the 2012 Universal Postal Congress;
- ensure nonetheless that due account is taken, in a manner to be determined in the course of the study, of countries affected by natural disasters or in special situations which are not in a position to clear their financial debts relating to postal accounts straightaway,

Also instructs

the Postal Operations Council to determine the most effective manner for carrying out the study proposed and which group or body is to be charged with leading the work,

Invites

the Council of Administration to consider, if applicable, possible recommendations resulting from this Postal Operations Council study which fall within its own area of responsibilities.

(Proposal 74, Committee 5, 5th meeting)

Resolution C 59/2008

Making the wording of reservations more explicit

Congress,

Considering
that ambiguity in the text of reservations may cause misunderstandings,

Aware
of the importance of preventing any partiality in the interpretation of the Acts and the relevant Protocols,

Invites

all UPU member countries to use explicit wording in the texts of their reservations to the different Acts of the Union.

(Proposal 76, Committee 4, 5th meeting)

Recommendation C 60/2008

Lack of documentation when handing over airmail and S.A.L. dispatches

Congress,

Noting
that, increasingly, incoming dispatches are not accompanied by CN 37, CN 38 and CN 41 forms,

Also noting
that a large number of verification notes need to be raised as a result of the missing forms,

Further noting
that replacement delivery bills need to be prepared, and then to be validated and signed by the airlines and that it is currently difficult to monitor what was actually dispatched, as a result of which bags are often lost and/or mislaid. This situation gives rise to insecurity, and generates costs in terms of man-hours and operational materials,

Considering
that article RL 190 of the Letter Post Regulations and article RC 178 of the Parcel Post Regulations clearly provide for the form of delivery of dispatches and the generation of the appropriate number of copies of the respective forms,

Also considering
that some designated operators are failing to comply with these articles,

Recommends

that countries be urged to comply with the existing provisions and to take all necessary steps to rectify the situation with respect to incoming dispatches.

(Proposal 77, Committee 4, 5th meeting)

Recommendation C 61/2008

Council of Administration and Postal Operations Council – Committee Structures

Congress,

With a view to
further improving the quality and efficiency of the work of the Council of Administration and the Postal Operations Council after the 2008 Congress,

Noting
that there was a general consensus in the last cycle that the POC structure was too heavy for the POC to organize its work in an efficient way,

In view of
the need to reduce the number of POC bodies and deliver the most efficient decision-making process for the Councils and more balanced distribution of work between the Council of Administration and the Postal Operations Council, taking into consideration the nature of the work,

Also in view of
the need for strategic planning activities to be carried out under the purview of the Council of Administration, by means of the creation of a joint Committee of the CA and POC under the structure of the CA,

Appreciating
the work carried out by the Structure and Constituency of the Union Project Group and Committee 1 of the Council of Administration concerning the continuing reform of the Union,

Invites

the Council of Administration and the Postal Operations Council at their respective constituent meetings to consider CONGRÈS-Doc 11, in so far as they deem it desirable, and to draw upon the Councils' views set out in Annex 1 hereto concerning the composition and functions of the Committees.

(Proposal 54, Committee 3, 6th meeting)

Structure of Committees

Recommendation C 62/2008

Principles for allocation of responsibilities within the Council of Administration and the Postal Operations Council – Code of conduct

Congress,

Recognizing

the need to establish a code of conduct for the allocation of responsibilities within the Councils which will enable the candidates best able to perform the various functions within the bodies of the Councils to be selected, in a transparent and equitable manner, from among the members elected to these Councils,

Confirming

that it is up to each new Council to organize its own work, to draw up its own Rules of Procedure and thus adopt its own structure,

Recommends

that the Council of Administration and Postal Operations Council follow the annexed principles established for the allocation of responsibilities within the Councils.

(Proposal 92, Committee 3, 6th meeting)

Annexe 1

Principles for allocation of responsibilities within the Council of Administration and the Postal Operations Council – Code of conduct

Creation of ad hoc Committee

1 The Committee's mission shall be to examine the candidatures for the vice-chairmanship of the CA, and the chairmanships or vice-chairmanships of the Committees and/or Project Groups of Councils, and to submit a recommendation on this subject to the CA and POC respectively at their constituent meeting.

Composition of the ad hoc Committee

2 The Committee shall comprise:

- the incoming and outgoing Directors General of the IB, having an advisory role;
- the incoming and outgoing Chairmen of the CA and POC;
- from each Council, five representatives, one from each geographical group.

The Committee shall choose its Chairman from among its members.

3 The ad hoc Committee shall be assisted in its work by the International Secretariat. It may, if it deems necessary, invite the Chairman of the Consultative Committee to attend as an observer.

Selection process

4 All member countries elected to the CA and POC shall be sent, within a set time, a call for candidatures and a form asking them to provide the following information:

- the priority areas in which the member country wishes to work;
- the commitments that the member country can make in order to carry out the responsibilities in question;
- the logistical or human resources support it will provide in order to carry out the responsibilities.

5 In the document calling for candidates, the responsibilities to be carried out by the Chairman and Vice-Chairman of a Committee or Project Group shall be set out. A deadline shall be set for the return of the forms to the Secretariat.

6 The candidatures received shall be analyzed.

7 The Chairmen and Vice-Chairmen of CA and POC Committees and working groups shall be designated on the basis of the following criteria, which are to be applied flexibly so as to offer encouragement to those member countries wishing to invest in the chairmanship of a Committee or Project Group. The criteria shall not, moreover, be cumulative:

- logistical and human resources capability of the candidate member country for the given responsibility;
- experience based on former responsibilities taken on within the member country, the region or the Union. This experience shall be based in particular on a system of evaluation by results of projects managed and on the level of regular attendance at meetings during a previous cycle. This criterion shall not be applied in such a way as to discriminate against a country wishing to invest in a chairmanship or vice-chairmanship of a Committee or Project Group for the first time;
- equitable geographical distribution between industrialized and developing countries, linked to the level of economic development. This distribution shall be based on the principles applied within the Postal Operations Council;
- equitable allocation of functions between the Council of Administration and the Postal Operations Council;
- the results of the Council of Administration and Postal Operations Council membership elections.

8 In principle, the Committee shall present only a single candidate for each post, which shall be appointed by consensus.

- When more than one member country has been presented for a post, an election shall be held to select the member country for that post.
- A member country whose candidature for a post has not been approved by the Committee shall be entitled to submit and defend that candidature before the Council concerned. In this case, an election shall be held.

Resolution C 63/2008

Extraterritorial offices of exchange (ETOE) and international mail processing centres (IMPCs)

Congress,

Noting

the stabilizing effect of Bucharest Congress resolution C 44/2004 on the growth of ETOEs and on the number of countries in which they operate, due mainly to:

- the requirement that the UPU member country in which an ETOE is located must give its agreement to the establishment of an ETOE, according to its national policy;
- the granting to the UPU member country of destination of a choice in determining how to treat items received from an ETOE, according to its national policy;
- better notification requirements for registering with the UPU as an international mail processing centre (IMPC);
- the recommendation that UPU member countries announce their policies with respect to ETOEs, and the subsequent publication of these policies by the International Bureau,

Bearing in mind

article 2 of the Convention, adopted at the Bucharest Congress, which requires UPU member countries to announce the entity or entities (governmental entity and designated operator(s)) responsible for fulfilling the obligations arising from the Acts of the Union on their territory,

Acknowledging

that national policies of UPU member countries may differ on the issue of ETOEs,

Noting also

that international mail processing centres (IMPCs) have been registered to private companies,

Also bearing in mind

that the UPU has endeavoured to seek compatibility between the Acts of the Union and WTO disciplines such as most favoured nation status, non-discrimination and equal access,

Aware

of the fact that there remain legitimate operational concerns with respect to the handling of items received from ETOEs and IMPCs registered to private companies in the areas of:

- applying UPU procedures and forms for Customs and airlines;
- security issues regarding the identity of the real sender of the mail;
- return of verification notes;
- undeliverable items;
- lack of operational and contact information for the destination country;
- correct remuneration for the delivery of items received,

Considering

that UPU forms are fundamental components of the UPU Acts,

Taking into account

the work already begun by the POC (Standards Board) to review technical standards such as S10, S34 and S35, in order to facilitate identification of sender operators,

Decides

- i that the operator designated by a UPU member country under article 2 of the Convention may continue to request registration of IMPCs established for its own purposes and on its own national territory;
- ii that the governmental entity of the UPU member country provided under article 2 of the Convention shall make the registration request or provide written authorization for all other IMPCs to be established on its territory;
- iii to continue the suspension of requests for registration of IMPCs to private companies, referring a decision on the matter to the Council of Administration and the outcome of its study,

Invites

UPU member countries

- to review and notify the International Bureau of their national policies on ETOEs and on IMPCs registered to private companies, taking into account other national policies and the need to use agreed standards and procedures;
- to respect and observe the conditions laid out in resolution C 44/2004;
- to respect the national policies defined by other UPU members,

Instructs

the Council of Administration, in consultation with the Postal Operations Council, to conduct a study of ETOEs and IMPCs, to include the organization of domestic postal markets and the effect of national or regional policies on the UPU and on the UPU Acts (Convention, Regulations, UPU forms, including the implications of a declaration of multiple operators through article 2 of the Convention and the registration of IMPCs to private companies), as well as on other agreements reached at the UPU level (airlines and customs handling, worldwide quality of service measurement, Quality of Service Fund, etc.),

Also instructs

the Postal Operations Council:

- to study and adjust, or recommend the adjustment of, the information requirements in standard S34 and on paper UPU forms in such a way that the origin and the operator of the mail is clearly identifiable to the destination operator, as well as to the airlines and customs authorities handling the mail, in order to bring information requirements for ETOEs and IMPCs registered to private companies, in line with the requirements of other offices of exchange established by UPU designated operators;
- to study the operational issues involved in a situation where more than one operator in the same country dispatches or receives international items, including the impact on barcode structure, on track and trace systems, on quality measurement systems, etc.;
- to review current policies and make recommendations on the referencing of technical standards in the UPU Regulations,

Further instructs

the International Bureau, in liaison with the POC:

- to manage the registration process, maintain and publish lists of active IMPCs, by type and by location, and make them readily available and accessible; this would include IMPCs:
 - registered by the operators designated to fulfil the Acts of the Union, for their own purposes and on their own territory;

- registered as ETOEs;
- registered as IMPCs by private companies;
- registered as military IMPCs;
- to collect and share with other member countries and designated operators:
 - information on UPU member country policies (entities notified under article 2 of the Convention, policies and conditions for establishing ETOEs on their territory and for receiving ETOE items, etc.);
 - operational information on ETOEs and IMPCs registered to private companies.

(Proposal 23, Committee 3, 7th meeting)

Resolution C 64/2008

Cooperation in the area of postal statistics

Congress,

Taking into account

that the Universal Postal Union (UPU), as the specialized agency of the United Nations dealing with the postal field, is responsible for making relevant information and analyses on the development of the sector available to its members,

Noting

the role of the UPU as a specialized agency of the United Nations qualified to gather, analyze, publish, harmonize and improve postal statistics,

Aware

that the postal statistics published by the International Bureau represent an important working tool for member countries, and need to respond to the expectations and information needs of all postal sector players,

Considering

the importance of statistical data that are reliable, consistent and relevant for the macro-economic studies carried out by the Council of Administration and Postal Operations Council, and for the application of the methodology for classification of countries and territories for participation in the target terminal dues system and the Quality of Service Fund,

Also aware

of the need to guarantee the confidentiality of certain information provided, if member countries so wish,

Strongly encourages

member countries and designated operators to provide the International Bureau with:

- reliable, consistent and relevant statistical data, and especially data relating to:
 - a postal infrastructure,
 - b volumes of letter post, postal parcels and express items,
- statistical data that are reliable, consistent and relevant for classification of countries for terminal dues system and Quality of Service Fund purposes;
- other statistical information needed for macro-economic studies carried out within the Council of Administration and Postal Operations Council,

Calls on

the associations which form part of the postal sector, and in particular the members of the Consultative Committee, to furnish reliable, consistent and relevant data relating to the infrastructures used and volumes of activity of their members, so that indicators for the whole sector can be established at the worldwide level,

Instructs

the International Bureau:

- to publish the *Postal Statistics* yearbook on the basis of the information provided by member countries, regulatory authorities, designated operators and private-sector associations;
- to organize the processing of raw data according to the fundamental principles of official statistics, and to restrict access to raw data to persons tasked by the International Bureau with the processing of data;
- to ensure the confidentiality of the information provided if member countries so wish. Where confidential processing is requested, the data transmitted shall be used only to calculate the totals needed for analysis of the worldwide and regional situation and shall under no circumstances be published individually;
- to contribute to the establishment and improvement of a compilation of statistics;
- to continue training activities in the area of postal statistics with a view to improving the availability, quality, and reliability of statistical information.

(Proposal 26, Committee 3, 7th meeting)

Resolution C 65/2008**Impact of new technologies on the activities of the Union**

Congress,

In view of

the reports on the work of the Council of Administration and the Postal Operations Council with regard to electronic postal data and the various electronic postal data management systems introduced within the framework of UPU activities,

Considering

the impact of new technologies on the activities of the UPU, its member countries and their designated operators, and on the legal hierarchy of the Acts and decisions of the UPU,

Noting

that the implementation of an electronic postal data management system may include:

- the use of specific technological tools for data transmission by designated operators and the protection of those data;
- access by designated operators to a common database and the protection of the data entered in that database;
- the conclusion of specific agreements between designated operators and the development of an operational guide for each system;
- the management and maintenance of this common database;

- the preparation of reports based on this database and the submission of these reports to the UPU bodies and the designated operators concerned;
- the establishment of an operational management structure for each system,

Recalling

the need to abide by the principle of technological neutrality in the Acts and decisions of the UPU,

Recognizing

the need to harmonize the regulation relating to electronic postal data in the Acts,

Noting also

that these systems, introduced within the framework of UPU activities, should respect the founding principles of the UPU, and in particular be accessible to all designated operators of UPU member countries, without discrimination,

Recognizing also

that the management and maintenance of these systems should be in line with UPU decisions,

Acknowledging

that two types of agreement, containing purely operational and technical provisions, appear necessary for each system introduced within the framework of UPU activities, i.e. a service convention not specific to the tool used, and an EDI agreement specific to the tool used,

Stressing

the need to ensure that these service conventions and EDI agreements comply with the Acts of the Union with regard to these systems,

Also acknowledging

that this compliance could be guaranteed by the adoption within the UPU of these service conventions and EDI agreements, or even the introduction by the UPU of certification and audit processes,

Recognizing

the diversity of the operational management structures relating to the electronic postal data management systems introduced within the framework of UPU activities, and of their rules of procedure,

Further noting

that the secretariat activities connected with the operational management of these systems are new tasks within the UPU,

Further acknowledging

that these new developments are likely to have an impact on the structure and operation of the permanent bodies of the UPU,

Instructs

- the Council of Administration:
 - to study:
 - governance issues relating to electronic postal data management systems introduced within the framework of UPU activities, and to data protection;
 - the impact of these issues on the Acts, the UPU structures and the financing of UPU activities;

- to lay down principles which the Postal Operations Council should take into account in the work it carries out in accordance with this resolution;
- to report on these issues to the next Congress,
- the Postal Operations Council:
 - to study, bearing in mind the principles adopted by the Council of Administration:
 - operating, technical and economic issues connected with the transmission of data, and with the electronic postal data management systems introduced within the framework of the UPU's activities;
 - the formalization, harmonization and standardization of the rules of procedure of the bodies responsible for managing these systems.

(Proposal 22, Committee 3, 7th meeting)

Decision C 66/2008

Study on the legal and organizational aspects relating to the Union's extrabudgetary activities

Congress,

Recognizing

the remarkable contributions of UPU extrabudgetary activities to achieving the UPU's mission, objectives and strategy,

Also recognizing

the need for further in-depth study on the legal and organizational aspects relating to the Union's extrabudgetary activities,

Decides

to refer proposals 15.131.91.Rev 4, 15.102.5.Rev 1, 15.104.3.Rev 1, 15.112.3.Rev 1, 15.112.4.Rev 2 and 15.128.2.Rev 1 to the Council of Administration, so that it may:

- study them as part of UPU reform activities;
- submit proposals to the next Congress on the basis of the study's results.

(Committee 3, 7th meeting)

Resolution C 67/2008

Support costs for extrabudgetary activities

Congress,

Aware

that reimbursement of support costs to the Union's regular budget must be based in particular on reliable data relating to the actual costs of extrabudgetary activities,

Recognizing

the importance of extrabudgetary funds in achieving the UPU's mission,

Noting

the recommendations of the United Nation's Joint Inspection Unit (JIU) on the identification of the support costs of extrabudgetary activities within the UN system, and the different reimbursement policies adopted by individual agencies,

Noting with satisfaction

the work accomplished by the Working Group responsible for studying the issue of support costs for extrabudgetary activities,

Decides

that the policy for recovering support costs for extrabudgetary activities should, in general, be based on the following two principles:

- all direct costs relating to extrabudgetary projects should be directly charged to those projects;
- variable indirect costs (support costs) should be recovered on an explicit and well understood and accepted basis, should be shown as a charge to the project/activity, and should be deducted from the International Bureau's operating costs for the financial period in question,

Instructs

the Council of Administration, in consultation with the Postal Operations Council and the International Bureau, to establish the principles and common methodology for the allocation of direct costs and variable indirect costs to extrabudgetary activities,

Further instructs

these bodies to examine, on a case-by-case basis, the nature and purpose of the activities financed by extrabudgetary funds and the effect of recovering support costs, and to decide the most appropriate method for recovery of the costs and the amount to be recovered.

(Proposal 41, Committee 2, 2nd meeting)

Congress,

Having examined
the report on the finances of the Union (CONGRÈS–Doc 15),

(CONGRÈS–Doc 15. Annex 4, Committee 2, 2nd meeting)

Resolution C 72/2008

Electronic network of the Universal Postal Union

Congress,

Wishing

to strengthen still further the effective role of the UPU electronic network, which consists of facilitating the transmission and exchange of information, and in accordance with resolutions C 66/2004, C 52/2004 and C 35/2004 adopted by the 2004 Bucharest Congress,

Believing

that translating the UPU website into more languages is an achievable objective, given the significant technological changes currently taking place in the postal services – particularly in the electronic network, and will facilitate access to operational data published on the site,

Instructs

the Council of Administration, in conjunction with the International Bureau, to expand the scope of the UPU's electronic network – including its website (www.upu.int) – by introducing other languages (Arabic, Spanish, German, Chinese, Portuguese and Russian), provided that a cost-benefit analysis justifies it.

(Proposal 72, 10th plenary meeting)

Resolution C 73/2008

Updating the password-protected list of e-mail addresses available via the UPU website

Congress,

Conscious

of the current communication needs in response to emergencies and/or business between the senior officials of both regulators and designated operators,

Urges

countries to have their e-mail addresses included in the password-protected list available via the UPU website, and to notify the International Bureau of any changes thereof,

Requests

that the International Bureau:

- make every effort to update the list of e-mail addresses of the senior officials of regulatory bodies and designated operators;
- that the list be made more accessible, on the UPU website and password-protected as is currently the case, but closer to the homepage.

(Proposal 81, 10th plenary meeting)

Resolution C 74/2008

Postal financial services development

Congress,

In view of
the encouraging results obtained from the implementation of a number of projects undertaken within the framework of resolution C 47/2004 of the Bucharest Congress to develop postal financial services,

Considering that

- the provision of basic financial services through the post office network contributes significantly to global economic and social development and plays an important role in improving living standards;
- the postal network, through its worldwide coverage and the combination of electronic, financial and physical dimensions, ensures that all citizens of the world have access to efficient, reliable, secure and affordable electronic payment services;
- postal financial services play an important role in achieving the United Nations Millennium Development Goals, notably combating poverty, in particular due to their presence in rural areas;
- the postal network facilitates the development of small and medium-sized companies' trade at a local and international level;
- the development of electronic postal payment services is particularly suited to cooperation with a growing number of international organizations,

Noting

- that significant progress has been made with the creation of a UPU worldwide electronic payment network since the Bucharest Congress;
- that the 2007 Council of Administration invited designated postal operators to switch over from paper-based postal payment services to electronic services by 2010;
- the advantages of postal financial services for designated operators, and in particular the increase in revenue which adds to the viability of the postal network;
- that today's world market is undergoing rapid and profound change and that users are demanding speedy, secure, high-quality services,

Noting also

- that the UPU international financial system (IFS) enables postal payment orders transmitted in paper format or sent by telegraph or fax to be replaced by postal money orders transmitted via the UPU electronic network;
- that the postal network can also be used to provide account-based financial services, in particular to facilitate financial inclusion in rural areas;

Recognizing

the UPU's need to continue and strengthen its work on developing postal payment services and postal financial services worldwide,

Instructs

the Postal Operations Council and the International Bureau to take the necessary steps to develop postal payment services and postal financial services to meet the demands of the changing environment, in particular by:

- encouraging member countries and designated operators to give priority to postal payment services;
- widening the UPU electronic payment network in all parts of the world and helping all designated operators of UPU member countries to access this network;
- creating, within the framework of the POC, a management body for the UPU interconnected global electronic payments network;
- carrying out activities to market and promote electronic postal payment services;
- modernizing electronic postal payment services through new technologies (mobile telephones, etc.);
- encouraging cooperation between designated operators;
- improving the quality and efficiency of UPU electronic postal payment services;
- improving the security of services and promoting anti-money laundering activities, to be consistent with Financial Action Task Force recommendations;
- providing designated operators with the assistance they need for financial management of the services;
- promoting the introduction and development of account-based postal financial services, such as savings services, in Union member countries;
- recommending the introduction of new financial services which could be offered via the worldwide postal network;
- strengthening and promoting cooperation with partners from the public and private sectors with a view to developing the UPU worldwide electronic payment network;
- giving priority to efficient cooperation and coordination with players such as the World Bank, the regional development banks and the IFAD, IOM and WSBI, in the area of electronic postal payment services,

Invites

UPU member countries and their designated operators to take the necessary measures to develop electronic postal payment services,

Also instructs

the International Bureau to monitor this work and to assist the Postal Operations Council with any changes to those actions deemed necessary.

(Proposal 10, Committee 6, 3rd meeting)

Resolution C 75/2008

Development of the multilateral framework of the postal payment services

Congress,

In view of
the need to adapt the postal payment services to regulatory, societal and technological changes,

Considering
the need for clear assignment of roles between member countries and designated operators so as
to ensure good governance within the framework of the Nairobi Postal Strategy,

Noting
resolution C 47 of the Bucharest Congress concerning the creation of a worldwide postal payment
services network, and the need to help all member countries access it and to prepare the
procedures required for the execution of payment orders,

Also considering
that in addition to the development of common principles and rules to be incorporated into the
PPS Agreement and Regulations project, the development of an interconnected multilateral and
bilateral exchange network requires common tools, procedures and standards, which the UPU is
responsible for developing,

Noting also
that common principles and rules have been incorporated into the draft PPS Agreement and
Regulations and that the scope of the contractual freedom of designated operators, as well as the
framework for this freedom, has been defined in these draft texts,

Noting further
that an electronic compendium which contains the operational information to be provided by
designated operators for the execution of payment orders is essential for electronic exchanges
between designated operators and is required in the new draft Regulations,

Recognizing
that the principle of interoperability means that any network able to deliver postal payment
services conforming to the Acts of the Union can be used by designated operators to deliver the
services,

Taking account
of the work carried out at the regional multilateral exchange development workshops on
operational and accounting procedures and standard agreements between designated operators
allowing the development of multilateral exchanges and the connection of regions by corridors,

Adding
the need to constantly update and develop new elements of the multilateral framework in view of
external developments and the increasing number of exchanges due to the growth of the
interconnected UPU network,

Observing
the need for the network to be managed, for continuous harmonization of practices and for
arbitration in cases of non-conformity with the Acts of the Union,

Instructs

the POC:

- to define the service agreement(s) between designated operators required for the execution of electronic postal payment orders, which will be continually adapted to meet arising needs;
- to define a model agreement for the exchange of electronic data between designated operators;
- to create an electronic postal payment services compendium;
- to standardize procedures and messages for the execution of postal payment orders and to periodically update interconnection standards;
- to put in place a mechanism to resolve any disputes which may arise between the designated operators during the execution of the service agreement(s);
- to facilitate access to payment services via new technologies, such as mobile phones or the Internet, in order to meet the needs of users,

Also instructs

the CA and POC to continue to revise the Acts concerning the postal payment services, and in particular to develop the postal payment services multilateral framework,

Invites

member countries:

- to accede to the Postal Payment Services Agreement;
- to encourage postal operators to accede to the service agreement and to use the model agreement for the exchange of electronic data within the framework of their reciprocal relations.

(Proposal 11, Committee 6, 3rd meeting)

Resolution C 76/2008

Creation of the UPU clearing and settlement system

Congress,

Aware

that introduction of a UPU clearing and settlement system would serve to make settlement of postal payment services between designated operators more secure, thereby ensuring their smooth execution, and facilitating access to these services by all citizens, and the implementation of Millennium Development Goals,

Taking account of the fact

that Bucharest Congress resolution C 47/2004 was aimed in particular at the creation of a UPU worldwide electronic payment network and at helping all member countries to have access to it, as well as at improving settlement methods between designated operators for the execution of postal payment services and methods of remuneration,

Noting

that the POC has clearly defined the need for a UPU clearing and settlement system available to designated operators in order to improve methods of settlement for postal payment services,

Recalling

that in accordance with the General Regulations, the International Bureau may act as a clearing house in the settlement of accounts of all kinds relating to the postal service,

Also taking account of the fact

that a clearing system calls for use of a centralized electronic (netting) system,

Further taking account of the fact

that a settlement system calls for recourse to one or more financial partners for settlements between designated operators,

Noting also

that billing of postal payment services is in the exchange currency agreed between the two designated operators, this being in principle the currency of the destination country,

Considering

that a clearing and settlement system can only function with a limited number of currencies in order to reduce the risks and costs related to conversions in the clearing and settlement system,

Noting further

that where regional clearing systems are established by designated operators, they should be interconnected with the UPU worldwide clearing system,

Recognizing

that such interconnection requires the harmonizing of the rules of operation of any regional clearing houses,

Instructs

the POC:

- to examine the report concerning the mechanism for introducing the clearing and settlement system prepared by the interim group on postal payment services;
- to ensure the continuation of the work and to take the necessary steps to implement a centralized clearing/settlement system,

Also instructs

the International Bureau to assist the POC in implementing a centralized clearing/settlement system in accordance with the decisions taken,

Invites

member countries to encourage their designated operators to:

- consider participating in the UPU clearing and settlement system;
- harmonize the rules of operation of their regional clearing houses to allow the establishment of a UPU worldwide clearing system.

(Proposal 12, Committee 6, 3rd meeting)

Resolution C 77/2008

Branding of the UPU electronic postal payment services

Congress,

Conscious
of the actions taken by the UPU's permanent bodies in developing postal financial services in order to meet the needs of a changing environment,

Considering
that speedy, secure, high-quality UPU electronic postal payment services will help to match customer expectations and to meet market demand,

Aware
that branding could help customers to identify the electronic service with these quality attributes,

Aware also
that a collective UPU mark will reinforce the international recognition of UPU electronic postal payment services,

Convinced
that a collective mark associated with a high-quality service will serve to promote recognition of UPU electronic postal payment services, and particularly attract those who are financially excluded and presently have to resort to less secure informal means of transferring money,

Also convinced
that improving the visibility of the postal payment service will help designated operators to develop the service,

Approving
the key principles of the branding of UPU electronic postal payment services which convey the UPU values:

- affordability;
- reliability;
- speed;
- trust;
- recognition;
- integrity;
- transparency; and
- confidentiality,

Noting
that designated operators of participating countries may be able to associate their own logos and trademarks with that of the collective mark as a brand for the postal payment products which they offer to their customers,

Noting also
that the global branding implies harmonization and standardization of the marketing documentation of the designated operators,

Desiring

that the said collective mark be registered by the UPU by the time the Nairobi Postal Payment Services Agreement enters into force in 2010,

Aware further

of the creation of a voluntary fund for the registration and management of the brand,

Instructs

- the Postal Operations Council to set up a body for the development and management of the collective mark and the global branding documentation;
- the Council of Administration to decide on the principles applicable for the setting of the licence fees for the collective mark,

Also instructs

the International Bureau:

- to take the necessary steps for the registration of the collective mark;
- to carry out the support and secretariat functions for the branding body,

Invites

member countries to encourage their designated operators to use the brand for UPU electronic postal payment services.

(Proposal 13.Rev 1, Committee 6, 3rd meeting)

Resolution C 78/2008

Quality-linked remuneration system for postal payment services

Congress,

In view of

user demand for fast, reliable and secure postal payment services and the integration of these demands into the Bucharest Regulations (articles 5, 9, 13 and 17),

Noting

resolution C 47/2004 of the Bucharest Congress concerning the establishment of quality standards and their monitoring as well as the need to improve the remuneration system,

Considering

the pilot projects carried out since the Bucharest Congress by a number of member countries concerning basic remuneration and performance-linked components based, amongst other things, on:

- updating of the payment order database;
- order processing times;
- payment times;
- the time taken to cancel orders;
- the percentage of inquiries dealt with on time; and
- the percentage of inquiries,

Noting also

that the draft Regulations which stem from the new draft PPS Agreement integrate these quality components and link remuneration to quality for services provided electronically,

Noting further

that a quality control system (QCS) is in place which measures certain elements of performance such as:

- end-to-end processing times for order requests or withdrawals broken down into issuing and paying designated operator processing times; and
- time taken to send out payment notifications and to preprocess orders that are issued and received,

and which generates annual, monthly and daily reports by type of exchange, designated operator and product (express or rapid),

Instructs

the POC to develop a quality-linked remuneration system for postal payment services,

Invites

member countries to encourage their designated operators to join the quality-linked remuneration system.

(Proposal 17, Committee 6, 3rd meeting)

Resolution C 79/2008

Study on the financial impact of the distribution of UPU documentation by the International Bureau to member countries and designated operators

Congress,

Commending

the Acts of the Union Project Group and Committee 2 of the Council of Administration for their accomplishments during the four-year cycle from 2005 to 2008,

Observing

that the Acts of the Union Project Group undertook to study the replacement of the term "postal administration" by "member country" and /or "designated operator" in the Acts,

Considering

that Congress has adopted proposals (15.103.1, 15.105.1, 15.107.1, 15.112.1, 15.114.1, 15.116.1, 15.121.1, 15.123.1, 15.126.1 and 10.29.1) pertaining to the distribution of various UPU documentation to member countries and designated operators,

Recognizing

that designated operators and member countries both have a vested interest in receiving UPU documentation,

Noting

that the number of copies to be distributed without additional charge, as well as the precise entity that is entitled to receive the documentation, has not been specified,

Anticipating

that such distribution shall have a financial impact on the budget of the Union,

Instructs

the Council of Administration, with the support of the International Bureau, to study the financial impact and other related issues regarding the above mentioned decisions and make recommendations, at its session in 2010.

(CONGRÈS C 3–Rapp 3.Annex 1, Committee 3, 3rd meeting)

Decision C 80/2008

Chairmanship of the Council of Administration to be elected by the 24th Universal Postal Congress

Congress,

Considering
that, under article 102.2 of the General Regulations, the chairmanship of the Council of Administration devolves by right on the host country of Congress, which is thus also a *de jure* member of the Council of Administration,

Noting
that the General Regulations contain no provisions dealing with the question of the chairmanship of the Council of Administration where the Congress is organized in Switzerland by the International Bureau without a host country,

Recognizing
the immense efforts made by Kenya to organize Congress,

Decides

to give Kenya the chairmanship of the Council of Administration.

(Proposal 52, 7th Plenary meeting)

Decision C 81/2008

Issues referred to the Postal Operations Council for consideration

Congress,

Having decided
not to adopt proposals 20.7.2.Rev 1, 20.4.2, 20.12.2 and 20.15.5,

Considering
that these proposals nevertheless contain ideas that deserve to be studied,

Instructs

the Postal Operations Council:

- to study the questions raised in these proposals;
- to submit appropriate proposals to the next Congress, if that should prove necessary.

(CONGRÈS C 5–Rapp 5, Committee 5, 5th meeting)

Decision C 82/2008

Participation of Armenia in the work of the Council of Administration

Congress,

Considering
the election of the members of the Council of Administration held during the Congress plenary session of 6 August 2008,

Confirming
that such election and the related ballot process were held in full transparency and observance of the General Regulations and the Rules of Procedure of Congresses,

Acknowledging
the unfortunate circumstances under which, due to hasty communication of the results, Armenia was momentarily and erroneously announced as one of the new members of the Council of Administration, such announcement having been duly retracted by the Congress plenary after adjournment of its morning session and confirmation that another member country had received the same number of votes on that day,

Taking into account
that, after having confirmed that they had obtained the same number of votes, the two countries concerned, Armenia and Kazakhstan, accepted due application of the Rules of Procedure of Congresses, notably as regards its article 22 by which, in order to decide between the countries that have obtained the same number of votes, the Chairman shall draw lots,

Noting
the sympathy and willingness of member countries for Armenia's concerns in light of the incorrect announcement of Armenia as a member of the newly-elected Council of Administration,

Decides

to grant Armenia, on an exceptional basis and strictly for the period between the 24th Congress and the 25th Congress, the status of privileged observer for the meetings of the Council of Administration, including the right to be seated among members of the Council of Administration according to the French alphabetical order.
